YOU can't Afford to Speculate in Clothes these days...

Several years ago you could afford to take a fire on some of these marvelous "bargains" in which price was the main attraction. There wasn't so much involved and if you did not get your money's worth you were not hurt much.

But today with clothing costs going higher the profit margin is being thinned to where his master gets the most of it. The dealer is showing with the more care as his doctor or his lawyer. This class of men come to this store for value.

If you want a better shirt or a better suit of clothes, get them from the best clothes maker, made from the best materials, all backed up our experience and reputation.

WHY THE TRI-STATE HAS NO BUYING AGENCIES

A recent buying system in an added economy in buying groceries. The advantage is in the fact that many orders are filled in the home of the consumer. Each amount of order is a definite amount of money on the order books we have had in the past.

The Tri-State has no buying agencies because of the fact that the Tri-State has no buying agencies. The Tri-State has no buying agencies because of the fact that the Tri-State has no buying agencies.

Would You Do This?

The rapidly increasing cost of shoes is a matter of fact. The price of shoes is going up so fast that it is no longer possible to buy a pair of shoes for a reasonable price.
