DISCOURAGING LETTERS
KALIN ORGANIZATION
In a recent statement of War Department officials it was stated that the number of letters received by the military authorities from the home front is decreasing. This is a discouraging sign for the military authorities, who are dependent on the letters for information regarding the morale of the troops. It is believed that the reason for this is the fact that many of the letters are being written by the same few individuals, and that the general public is not showing as much interest in the war as it did at the beginning.
