MORE MOTORCARS IN IOWA

Vehicles Are Not for Pleasure or Sunday Use Mainly—Autos Are Used Frequently.

It has been known for some time that Iowa has more motorcars in proportion to its population than any other state, and the returns from the traffic census being made by the Iowa State college and state highway commission show these cars are used very frequently. The cars that give Iowa the record of one car to every ten inhabitants are not pleasure vehicles or Sunday conveyances. If the census which is under way June 4 are thrown out because of the unusual conditions of the day, the proportion of motor vehicles to Iowa vehicles using the roads of the state is from 2 to 1 on one road to 10 to 1 on another road.

DON'T HOLD WHEAT

No grower has become the illegitimate demand for flour that the United States is paying farmers not to hold wheat for more than a year ago, except in a few states where the period of planting has been cut down to the time of planting. While it has been the practice in many communities for farmers to hold over wheat for seed, the food administration regards it as unnecessary. It is almost beyond the realm of fact in any part of the country that the farmer will be unable to secure seed requirements for the succeeding crop. It has never failed in the past; there is no reason to believe it will now.

WAGE BOARD GIVES RAIL MEN INCREASE

Allowances, Based on Living Cost, Benefit 1,939,399.

UP TO M'ADOO FOR APPROVAL

Commission Submits Report to the Director General, Drawing With Increase Phases of the National Situation.

Washington, D. C., May 8—An advance in wages to 1,939,399 railroad employees, and ranging from 1 per cent to the highest to 43 per cent to the lowest paid, aggregating $500,000,000 is provided for in the report to Director General McAdoo by the railway wage commission.

Mr. McAdoo is expected to adopt promptly the commission's recommendations with make a number of different wage increases shall be granted.

In general, the director general advocates higher pay for most classes of workers to enable them to meet increased living costs, but he has been represented as favoring proportionately smaller increases for the highest paid than for others now making the same pay. He also is strongly opposed to granting wage increases which might discourage the general scheme of pay according to responsibility.

Leaders to Protest.

The labor leaders on the principal railroad brotherhoods found on examining the report that they had misunderstood the plan for time half the increases they had asked of the railroads. Their disappointment at the

Salaried Ancient City.

In the days when St. Paul addressed his epistle to the Thessalonians, Salonika was not so modern, for it was then known as Thessalonica. It was an older city called Thessalonica, the London Globe, and was named by its founder after his wife, a sister of Alexander the Great. It has always been a favorite city with rulers. It was the chief harbor of Macedonia, and was a free city under the Romans, and the capital of the province. With the fire this record is broken. The report has stated that the commission favors a shorter workday, presumably eight hours, but decided that in the present emergency the nation could not afford to put into effect a reform that would slow down the war machinery and discriminate against other classes of workers being called upon for great sacrifices.

Rules of overtime pay are not disturbed and the increases are adjusted to the mileage basis of compensation of some employees, a road engineer, for example, receiving an increase of 31¼ per cent in his mileage rate. A flat increase of 43 per cent is granted to yard men and overtime therefor is also involved.

An important feature of the report was the recommendation that where the same service is rendered the pay shall be the same, without discrimination as to sex or race.

Report of Commission.

The report of the commission, consisting of Franklin K. Lane, secretary of the interior; Charles C. McChord, J. Harry Covington, and William R. Wilcox, is an exhaustive one. In part the report says:

"The requests which have come to the wage commission, if world's fair granted, involve an additional outlay for wages of about $1,000,000,000 per year (an excess of the wage fund of last year, which exceeded $2,000,000,000). Some asked for an increase of 100 per cent in their pay, and from this they graduated downward to 10 per cent. None were satisfied with their present wages.

"To classify the many hundreds of occupations and to adjust the wages of railroad workers engage would be a long piece of work. It is strongly opposed to granting wage increases which might discourage the general scheme of pay according responsibility.

Leaders to Protest.

The labor leaders on the principal railroad brotherhoods found on examining the report that they had misunderstood the plan for time half the increases they had asked of the railroads. Their disappointment at the

Reason for Woman's Longer Life.

Life insurance experts contend that the reason why women live to the age of forty-five is likely to outlive a man of the same age because she is likely to be more temperate and of more regular habits.

To Make the Day Bright.

Happiness is such a matter of habit, it actually decides whether we are pleased in the morning, she will soon take on that attitude as she does her fresh morning frock.
