NICHOLAS TOBACCO PATHS PRESENTING SORRY APPEARANCE

The large acreage of very early tobacco when was set out in the spring in great danger of dying owing to the absence of rain. Tobacco planters are presenting a sorry appearance and unless rain comes soon Nicholas county will not produce a full crop of a crop. Generally at this time of season tobacco should be advancing to the point of topping but as the condition is now the weed has scarcely begun to grow. Reports from the J. F. Hillenmeyer, acreage, at Lexington, the eastern section has been having rains over a large area for some time, and indications are that the crop there will be a good one made up. This rain area, according to Mr. Hillenmeyer, should move southward and westward, and should this prove to be true plenty of rainfall for the crops will come within a short time.

THREAT OF RAILROAD STRIKE CONTINUES TO SPREAD

A special from Washington dated August 5th stated that the threat of a national strike continues to spread over the country, and that leaders of the organized labor bodies to heed the men in check until gubernatorial and official strike, votes can be taken.

Thousands men everywhere, it seems, are striking to force higher wages to open the high cost of living.

Should forty, or a general strike all over the country it will almost paralyze industry.
