CHANDLER SIX

Greatest of All Sixes

Spring'll Be Here 'fore You Know It

DESPITE conditions which greatly held back the production of automobiles throughout the early months of this year, nearly twenty thousand discriminating motor buyers have been made happy and contented by the possession of their new Chandler cars.

Nothing could more clearly show the regard in which America holds the Chandler Six, than the patience with which thousands waited for weeks and months for their Chandlers. They waited because they knew what they were waiting for,—because they know it is *worth* waiting for.

Some are still waiting, but their cars are coming. December production is taking care of many orders, and January will see the great Chandler plant on a production basis unprecedented in the medium priced fine car field.

Chandler dealers will, we hope, be able to fill their orders more quickly this year, but when the first warm days of Spring come, and the country roads call, and everyone decides he wants his new car *at once*, there will be some waiting again.

If you want your new Chandler *when* you want it, place your order now. If you want to be sure of getting the car of your choice, the greatest of all Sixes beyond question, then in any case give your Chandler dealer now, regardless of when he will be ready to deliver, the weather may be. For "Spring'll be here before you know it."

All Chandler bodies are mounted on the one standard Chandler Chassis, which has made the name famous. Simple, sturdy and dependable throughout, its features embrace, for years past, the really marvelous Chandler motor, solid cast aluminum motor base, one piece crankshaft and connecting rod bearings, silent chain drive for the auxiliary motor shafts, and Delco magneto ignition.
