Allen County, a Paradise For "Poor Oil Operators."

(From Louisville Herald of April 11, 1919)

By W. W. GRAZIER

There is a little town in the west part of Allen county, Ky., called Winlock. It is a small town, but it is a town that is growing rapidly. It is a town that is growing rapidly because of the oil that is being discovered in the neighborhood. The oil is being discovered in the neighborhood of Winlock, and it is being discovered in the neighborhood of Winlock because of the oil that is being discovered in the neighborhood of Winlock.

The oil is being discovered in the neighborhood of Winlock, and it is being discovered in the neighborhood of Winlock because of the oil that is being discovered in the neighborhood of Winlock. The oil is being discovered in the neighborhood of Winlock, and it is being discovered in the neighborhood of Winlock because of the oil that is being discovered in the neighborhood of Winlock.

The oil is being discovered in the neighborhood of Winlock, and it is being discovered in the neighborhood of Winlock because of the oil that is being discovered in the neighborhood of Winlock. The oil is being discovered in the neighborhood of Winlock, and it is being discovered in the neighborhood of Winlock because of the oil that is being discovered in the neighborhood of Winlock.

The oil is being discovered in the neighborhood of Winlock, and it is being discovered in the neighborhood of Winlock because of the oil that is being discovered in the neighborhood of Winlock. The oil is being discovered in the neighborhood of Winlock, and it is being discovered in the neighborhood of Winlock because of the oil that is being discovered in the neighborhood of Winlock.

A Company Organized to Develop Properties in the Great Fields of Western Kentucky

Oil is struck in Allen county at a depth of 250 feet, and by running 20 shafts it will be brought in within a week's time.
The cost of putting down a well is only a fraction of what it costs to drill a well in Lee and Estlin counties.
