NEVER AGAIN, SAYS GERMANY

(New York Tribune.)

One hundred years before Christ Hannibal, marching, fighting, plundering, pillaging as they went. At Alesia-Provence they were uttered and defeated. They used to peace and swore they would do it again. Sixty years before Christ 300,000 Germans invaded the territory between the Rhine and the Main. They were beaten. They swore they would never do it again. Sixty years before Christ the Germans overwhelmed and thirsty Rhine. They swore they would never do it again. Twenty years later another pledge, another defeat, another oath. Fifty years before Christ, A. D. the Rhine, again was invaded by the Germans at 378 Northeastern France. In 391 Langres was pillaged. The invaders were beaten and they swore "never again." In 406 the Germans crossed the left bank of the Rhine. In 451 they penetrated Lorrac, in 500 Bourgogne. In 561 they invaded and plundered Belvicus. Here is the chronology of the subsequent invasions: 836, 859, 892, 939, 1124, 1552, 1636, 1674, 1693, 1792, 1814, 1870, 1914. Thirty-three invasions in a little over fifteen hundred years; an average of one in [illegible] every fifty years. Whenever they were successful, the Germans celebrated with unspeakable barbarities. Whenever they were beaten they swore that they never would do it again. "Le Matin," which prints the above statistics, recalls that three days before the outbreak of the world war Herr Haase, the German Socialist leader, declared in the name of his party that the German proletariat would not go to war to the utmost. Three days after Herr Haase voted for the war budget. Four and a half years ago, the Germans again violated their oath. Together with murder, lies and robbery they will never do it again.

Why Slings Hurt.

The pain caused by the sting of nettles is due partly to formic acid and partly to a chemical resembling snake venom. Our nettles are comparatively harmless; but in India, Java and other countries, there are varieties the poisoned effects of which last weeks, and in some cases months, like snakebites.

Tuesday, Tilden Dunean, Mitchell Jackson, E. H. Wills, Carl Williams, Wyatt Thompson and Leroy McDowell were winning the pond of C. C. Hudson, Jr., Mitchell Jackson got the kinkdown following on 8-pound bass, which is the largest ever caught in this county.—Paris Democrat.

WITT TRUSS

The Only Truss that Holds and Don't Hurt

Does Away With Hard Ball, Using Soft Felt Pad Instead

QUEEN MARIE INVITES Y. W. C. A. TO RUMANIA

Extends Invitation to Overseas Workers to Visit Capital.

Paris, April 21.—Queen Marie of Roumania, following a conference with the representative committee of the Young American Y. W. C. A., held at the Ritz Hotel, Paris, has invited the American Young Women's Christian Association to come to Roumania and establish work under her patronage.

Among the representatives of the Y. W. C. A. present at the conference were: Miss Grace H. Dodge, head of the American Y. W. C. A. work overseas; Miss Molly Anderson of Hudson, Wis.; Miss Mary Duggan, head of the Y. W. C. A. industrial work in France; Mrs. Margaret B. Fowler of Pasadena, Cal., and Miss Charlotte Niven, head of the Y. W. C. A. work in Italy. A notable guest at the meeting was Madame Cretzelli, wife of the secretary of the Roumanian legation in Paris.

"Naturalizes" Bird in Cuckoo Clock

Carlton Gardner, aged 12, was awarded for the most part "made in America" as a worker in an American town decided that it was time that the bird in his clock should be "naturalized." The Popular Mechanics Magazine says the boy removed the cuckoo, put in a bird name forth and whistled "Dot Willie" like a native American.

1 Grain cradle
1 Corn drill with fertilizer attachment
1 Lot of slaw gears
Other farming implements

Terms Made Known on Day of Sale

WALTER D. YOUNG

Y. W. C. A. UNIFORMS TO CLOTHE STUDENTS

Suits Worn by War Workers Will Be Given to Penniless Students in Switzerland.

Official uniforms of the Young Women's Christian Association solve the Blue Triangle, the Association insignia, will be worn next winter by women students who have been ordered to Switzerland during the war according to the Y. W. C. A. board of directors to re-enter their native country, a desire to finish their university courses or because they have no family to whom to return, will remain there next year.

Elizabeth M. Clark, who has been by Switzerland for ten years under the World's Student Christian Federation, has suggested to the National Student Committee of the Y. W. C. A. for clothing for the 300 foreign women students in Switzerland. The scarcity of clothing last year among these young refugee students made it necessary for some girls to remain in bed while their only one could be cleaned.

Four large packing cases of all kinds of used clothing, save hats, which is in good condition, have been collected locally from women college students in the New England States, Ohio, West Virginia, Pennsylvania, Maryland and Delaware, by the local Committee of the National Y. W. C. A. here, and, with the assistance of Miss Clark's appeal, this clothing has been packed, addressed and made over to Switzerland.

In addition to the clothing contributed from students in Greenwich Village, York a case of underwear, which have been turned in by Y. W. C. A. workers who did war work and the officers' uniforms are being altered by a tailor to conform to the regulations. The uniforms are being furnished by the Y. W. C. A. and will be worn by the women in the hospitals and prepare the uniforms so that they may be worn by women who have been forced by world events to remain in Switzerland for several years.

BREAKING WORLD'S RECORD
Overland Model 90 Travels Seven Days and Nights Without Stopping Motor

COVERED 4,370.1 MILES

Gear Was Sealed in High, Making Further Adjustment Unnecessary

Car Set on All Cylinders Working Parts

Remarkable automobile performance as well as economy of operation is what every one is looking for in automobiles and the following remarkable manufacturers has attained a very high standard of production. That easy explain why so much unusual interest has been attracted during the last few days in the Overland Model 90 which has been made by an Overland dealer in Switzerland.

News from the factory, this Model 90 was taken from the salesroom of the Carlisle Motor Company, 1916, and Lena City, Okla., on March 25th, and driven over the Lee-Hubbard Ocean Highway to Los Angeles, Cal., where it was disconnected from the low, middle and reverse gear and the gear ratio was sealed in high. The motor was sealed at 2,000 R. P. M. and did not exceed this speed during the trip from April 5th.

The trip was driven by a relay of four drivers, day night and day, without a stop, until the car had run 4,370.1 miles. This distance is equivalent to 175 days of driving, or a distance around the world, or a distance from New York to Los Angeles and back across the Southern California City.

1. The car made a total of 4,370.1 miles in seven days and eight hours, an average of 624 miles per day.

2. Gasoline consumption was 17.1 miles per gallon.

3. The car made a total of 255.5 gallons of gasoline and oil for each of the 4,370 miles traveled.

4. Gasoline consumption was 17.1 miles per gallon.

5. Oil consumption was declared by the driver to be unusually low.

6. The car made a short run in reaching Barstow at the end of the first day's run, after having traveled 70 miles.

7. Only one Chief of Motor Vehicles was required to keep the car in operation.

8. The oil cost $4.70.

9. Mileage shown on stock axle was also a discovery at once. Price $1,000.

Now listen, here's a few more facts: Left Los Angeles at night away and arrived Kansas City, Mo., 1,800 miles.

FARM OF 56 ACRES—with 2½ acres of timber, 6 acres of good meadow, well at the door, tobacco barn 30 by 60, stock barn, corn crib and other buildings. This farm lays good and is well watered by a never failing stream. Located 7 miles from Carlisle, 2 miles from Chief of Mines, 2 miles from Mt. Holly Springs, 2 miles from Boiling Springs
