When You Buy Poultry Feeds

Don't make a guess-work. You can eliminate the risk of buying inferior poultry feeds.

Most birds get too much grain, a large part of which goes into their crops, which they do not absorb. This makes the loss for the farmer. The reason for this is that the birds are not getting the proper amount of protein.

There are two ways to get the most out of your poultry. One is to give them the best of food. The other is to give them the best of care.

Nature's Purest Herbs are combined to make this Invigorating Beverage

According to the formulas developed by Dr. Swett over sixty years ago.

FAVORITE drink for more than four generations, Dr. Swett's Root Beer is welcome everywhere, "from Childhood to Old Age."

In its making, familiar herbs that you know, are skillfully blended to give a taste and flavor you enjoy.

Cheerberry leaves impart their familiar and pleasant taste. Wintergreen adds its snap and flavor.

Sassafras Root imparts a mildly stimulating effect. Sassafras Root tones down the other flavors of other ingredients.

Hop flowers add the mild tonic effect that invigorates. Sarsaparilla acts as a blood purifier, making the beverage beneficial.

Juniper and Juniper Berries serve to stimulate mildly, and add to the smoothness of the taste.

These herbs are gathered from the fields and sorted — only the perfect plants, roots and barks are used — the result is a pleasure and satisfaction that you get from no other beverage.
