

### Smaller Cars—and the World's Most Popular Tires

No tires bearing the Goodyear name, not even the famous Goodweather Cores which equip the world's highest-priced cars, embody a higher relative value to Goodyear Tires in the 30x3, 30x3 1/2, and 31x4-inch sizes.

In these tires owners of Ford, Chevrolet, Dort, Maxwell and other cars taking the above sizes are afforded a measure of performance and service such as only the world's largest tire factory devoted to these sizes can supply.

All that this company's experience and methods have accomplished in these tires is available to you now at the nearest Goodyear Service Station.

Go to this Service Station Dealer for these tires, and for the Goodyear Heavy Tourist Tubes. He has them.

30x3 1/2 High Speed Tires \$2.35  
30x3 1/2 Standard Tires \$2.15

Goodweather Heavy Tires \$4.50  
Goodweather Heavy Tires \$4.50

### A Year's Abuse In 7 Days

At Indianapolis recently an Overland 4 stock car was driven 5,632 miles continuously in seven days and nights, over foreign country roads.  
This is an average of 778 miles per day—more than the distance between Toledo and New York. This is another tribute to the cushioning effect of Triples Springs and the quality of material in Overland 4.
