—Chesterfield

A REAL pal—that's Chesterfield. Look at its record. Three million smokers—less than a year on the market! Two words explain it—"They Satisfy."

Our expert buyers in the Orient select for Chesterfields only the finest grade of the four choicest varieties of Turkish tobacco. To these are added the best of mild but full-bodied Domestic leaf.

But, in the end, it's the blend that makes Chesterfields "satisfy." And the blend—our private formula—cannot be copied.

Extra wrapper—that moisture-proof paper seals in the flavor.

CITIES ASK DIVISION OF ROAD AND BRIDGE FUND

Mayor Alois Peters, together with a committee from the Commercial Club, a meeting of the Mayors and City Attorneys of fourth and fifth class cities, which was held at the Tyler Hotel in Louisville, at which time an organization was formed for the purpose of promoting the interests of fourth and fifth class cities of Kentucky. Sixty-seven cities were also represented at the meeting. W. B. Withers, of Cynthiana, was elected president of the association; W. L. Von Deren, Cynthiana, secretary, and Leon Rothchild, Shelbyville, treasurer. An executive committee of five was named. The committee will meet twice a year, in the first Monday in February and July, or oftener if necessary.

One of the first things the organization has undertaken is to ask for legislation that will give to cities of the fourth and fifth class an equitable division of the county road and bridge fund for building and maintenance of streets in these cities. As it now stands the cities get only the major portion of the city taxes and get nothing of the fund paid for city purposes.

Members of the organization think that unfair and they intend to see that legislation will be but a small portion of the work to be accomplished. Collective buying will come in for consideration. For instance, next spring when the farmers are ready to set for their streets, instead of going to the factories and getting a dozen or more prices, they will get together and let the contract for the entire business to the factory making the best prices and better service. Many other things of this nature will be accomplished.

The next annual meeting of the association will be held at Shelbyville.

LETTER FROM JAMES OGDEN

Batang, Nov. 15, 1919

My dear friends, Harold and Harold are writing you, and I must write you, too, for I have written a little writing for two months, and I feel that I have something to write you. We got your letter written on the 15th of September and was over at Bald Hill. Dan Caudill and his wife and two children are here, and Max and Arthur were both back at the Mission appointed Minnie and I to go over and help them. Miss Travis Translations of Songs, stories, and Geography. Besides our regular work we have recently added two months solid.

The work is overcrowded, and more entering all the time. A new building is needed and we are trying our hid in for one. The school work with 116 in attendance now and Minnie fills a great place in the school and without her, it would be impossible for me to do all I do. She has charge of the 14 orphans at the hospital below. God is blessing our labors here, and we have in all about 60 members in the church, and the people are prospered for baptism soon. Our church was regularly organized with elders and pastor, elders, and deacons were elected and ordained by Brother Greenwood. Sterling is a Methodist, and Lee Gray Yuin, but in Bald Hill supports one of the deacons. The three two boys, one a preacher and the other a Christian worker, will make good men.

There has been a quiet revival going on here for several months and the Spirit of God has worked mightily in the hearts of men. Confessions of vile lives and deeds of all kinds with restitution to be made in stealing, and hearts broken with sorrows for sin, and genuine repentance with tears of sincere repentance, are mo.* frequent. We have baptized about 30 and several are accomplished in our midst all the time. God lives and reigns! Praise His holy name forever. Satang is dead and in truth, and may be in heaven.

With the Bakers on furlough and Minnie and I on the field, we are in our force, but these natives are doing the best work ever done and are better than any of us as a preacher. With much love,

Your loving son,
James Ogden

NEWSPAPER MEN NOT ON THE "SUICIDE LIST"

The Save-a-Life League, in publishing statistics of suicides, and other remarks that journalists is a profession that is not conducive to long life, seems to let nature take its course. Lawyers, doctors and teachers shake off the suicide habit, and we have yet to hear of the manias.

The newspaper man has to be careful and patient. Once in the profession he works constantly and his thoughts are largely occupied with things that are unpleasant. He has no time for a dangerous amount of introspection. He is always with people to take any one, including himself, too seriously. He learns to laugh—also has—but it is good to be here he reasons.

Then, too, there is the other side of the story. Newspapermen are often called upon to be the first to tell those left behind the first news of a suicide. Their intimate knowledge of the shock, the grief and the distress which are caused make them respect the commandment. Finally, "suicide" is lying down on an assignment.

Sir Oliver Lodge has been telling New York audiences lately that the messages from "suicides" beyond the veil are that they are unhappy. Perhaps 2211 spoo be the first to tell those left behind the first news of a suicide. Their intimate knowledge of the shock, the grief and the distress which are caused make them respect the commandment. Finally, "suicide" is lying down on an assignment.

LOW PRICES OF TOBACCO CAUSES SLUMP IN LAND

As the tobacco season nears the end and sales in the inferior type of tobacco, steadily decreases, until at the present time it is not an uncommon occurrence for a farmer to receive under a $15 average. At a cutting time, the farmer held great hopes of receiving a fancy price for his product. Prospects then, were very flattering, but through the low grade put on many than one-half of the crop grown in the county was damaged and the result was, the inferior grade predominated. Such conditions were not true in the counties surrounding, especially, Bath, Harrison, and those known as the Blue Grass counties. When the farmers of this county were jubilant over prospects, the inferior grade increased rapidly and sales were numerous, but as the sales season were on with only fair returns from crops, there came a lull in the market until, at the present time, the prospective land buyers appear to have assumed the attitude of "watchful waiting."

In these other counties, where the grade was better, the tobacco market and farm sales have continued steadily on, with a few of the best farms changing for as much as a $1000 per acre. It is said that the asking price for some of the Blue Grass counties, which have not been disposed of to date, is as much as $1500 per acre.

The Cynthiana public school was examined by the State Board and several cases of flu having developed the schools were closed.

A business men's club has been organized in Cynthiana with 100 charter members.

City Clerk S. C. Vaughn has written the Illinois Highway Department, requesting application blanks for State aid in the three county seat highways leading from Carlisle.

TAKES SHOTGUN TO BED AND SUICIDES DURING NIGHT

Mrs. Elizabeth Rogers, fifty, a widow, who has been making her home with her brother, Thomas Holladay, near Centerville, committed suicide Friday night by shooting herself through the heart with a shotgun. She had recently returned from a Cincinnati hospital where she had been under treating treatment for a nervous breakdown.

After the family had retired for the night Mrs. Rogers arose, and securing the shotgun which was kept in the room, placed the muzzle against her breast and pulled the trigger with her toe. The shot took effect in the heart, killing her instantly. The body heard the report of the gun and her body was discovered by Mr. Holladay, who went to call her to breakfast Saturday morning.

PALMER ANTI-SALOON BILL DECLARED "TOO DRASTIC."

"Too drastic," was the verdict of the Texas Committee to which was referred the Palmer Anti-Saloon Bill, drafted by J. N. Palmer, head of the Anti-Saloon League, when it came before the committee killed it. The committee will prepare a substitute which is believed will prove more acceptable to the organization.

Under the Palmer-measure, property rights in stocks of merchandise or kinds of alcohol could be sold on a physician's prescription only. The
