A WORD OF WARNING

The Ky. Agricultural Experiment Station in its Bulletin for the protection of the consumer and honest manufacturer, under the Kentucky Feeding Stuff Law, has the following to say of the system of tagging:

"A Yellow Tag printed in Black Letters indicates that the feed contains a material of little or no feeding value, such as saw dust, clipped off by-products, etc. Feed of this nature should not be used for stock. A Red Tag printed in Red Letters indicates a feed made of such materials being printed in bold face type. Such feeds are usually known as Straight Mixed Feeds."

"A Manilla Tag printed in Black Letters indicates a feed made of such materials being printed in bold face type. Such feeds are usually known as Straight Mixed Feeds."

"A Manilla Tag printed in Black Letters indicates a feed made of such materials being printed in bold face type. Such feeds are usually known as Straight Mixed Feeds."

Some of this cheap "Yellow Tag" feed which is now being used by some farmers is practically worthless as a milk producer. Do not let the low price persuade you to buy "Yellow Tag" feed.

We handle only the "Straight Mixed" and the "Straight" Feeds. Watch for the MANILLA TAG, printed in RED or BLACK LETTERS.

CHANDLER SIX

Famous For Its Marvelous Motor

Chandler Strides Into Full Leadership

It has never been any question as to Chandler leadership of the medium-priced car. Chandler has always been the great Chandler. Those who have previously been chased into high-priced cars, find it easier everywhere.

From two thousand to three thousand discriminating Americans bought the Chandler because they knew it was worth waiting for.

Not only can Chandler clearly show the regard in which America holds the Chandler Six, but the purchase which they have made has been a very wise one. They were waiting for—because they knew it was worth waiting for.
