WORK OF PLANT INVENTOR

With a vision which is a far-seeing one, the inventor of the Goodyear tire has produced a product which is a masterpiece of science and art.

Enormous resources and scrupulous care have produced in Goodyear's tires for small cars a high value value not exceeded even in the famous Goodyear's on the world's highest-grade automobiles.

In addition to the fact that Goodyear manufactures an average of 20,000 small car tires a day in the world's largest tire factory devoted solely to the 30x3, 30x3 1/2, and 31x4-inch sizes.

Last year's small cars using these sizes were factory-equipped with Goodyear tires than with any other kind.

Their extreme worth is available for your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.
