

**Some Costly Mistakes Men are Making on Tires**

California tires are using Miller after million-mile tests with many thanks.

**The Way to Know**

At the Miller factory over 1,000 tires yearly are worn out in tests and comparison.

They consistently prove that Miller is the best tire built.

In extreme road-worn tests they require an average of 15,000 miles on Carlin. They prove that the new Miller tread covers the best of others by 25 per cent.

Such tires should be tested by every owner of a car. Set when they give you compare with any tire on opposite rear wheels.

Miller tires, in late years, have doubled average tire mileage. Old-timers figures do not apply today.

You will find new requirements for your tires when you buy a Miller. Do it now.

**The Brunswick Name**

Certifies an Extraordinary Tire

Many motorists buy Brunswick because of the name alone. It is a justifiable assurance for them of superior quality. They have known this ancient house for its high standards, as have their fathers and grandfathers. Here the House of Brunswick has been noted for its rare workmanship. Its products are made to last, thus giving the factors of economy, safety and the advantage of over-riding others in the long run.

The best tread known, the strongest fabric, the most extensive and uniform construction, every addition, every extra, every detail, is there to give you the most.

ONE Brunswick will win your decision to have ALL. It will be a revolution. It will be more than like the rest. It will be the best.
