

Get Goodyear Tire Economy for That Smaller Car

Just as owners of the highest-priced automobiles get greater mileage and economy out of Goodyear Tires, so can the owners of smaller cars similarly enjoy Goodyear advantages.

The 30x3, 30x3 1/2, and 31x4-inch sizes of Goodyear Tires are built to afford a money's worth in performance and satisfaction which is no greater, and sometimes actually is less, than that of other makes of the same types of tires.

This extraordinary money's worth begins not only with the merit of these tires, but also with the first cost which in most cases is no greater, and sometimes actually is less, than that of other makes of the same types of tires.

Go to the nearest Goodyear Service Station Dealer for Goodyear Tires for your Ford, Chevrolet, Ford, Maxwell, or other cranking these. It is ready to supply you Goodyear Heavy Tourist Tubes at the same time.

Rough Roads for Wheels Are Smooth Roads for Passengers

WATCH OVERLAND 4—rough cobbles or improved roads. The wheels float and absorb bumps, but the new 70x15 Spings give you and passengers comfortable riding. Give 120 inch Spings a try in a car of 100-hp wheeling.

This makes for the gently buoyant rest action of a large, heavy car with the economy in economy fuel and tires, and convenience of handling of a miniature design.

AND YOU'VE NEVER—so lightly. Bristled Chevrolet's inherent softness of the body and chassis. Domestic leaf, designed to hold out new loads of favor.

They couldn't be built now for twice \$7,000
When the talk turns from politics to railroads, and the traveler with the evasive air breaks in with "There's an awful lot of water in the railroads," there are some hard-pan facts to give him.

Our railroads couldn't be duplicated today for \$150,000 a mile.
They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railroads are capitalized at \$274,000 a mile. The French at \$155,000. German \$132,000. Even in Canada (all in private development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.

Beyond

Very often we take a trip and look away into the land of business beyond.

Every time we sell a suit, we are looking farther than the edge of the cash drawer; we try to send every man out of our store—a satisfied customer.

We expect to sell him another suit—the next suit beyond.

Here then is the point, we mean to drive home, in a very few words. When we sell him a suit, we sell him a suit that has value worth of service and satisfaction for every dollar he puts down.

If he likes it, he wants another, he will come back to us for another. That suit beyond.

Come see us and be one of our Satisfied Customers.
