Let's Get Acquainted

"Get better acquainted with your neighbor—you might like him!" That's a pretty good motto for a community, like ours, isn't it? And this store wants to help you do it. Not only that, but we want the merchants to help us get acquainted, so that the farmers and townspeople will be more friendly. So, in this issue of this farmers' and merchants' edition, we're going to tell you about our business, and ask you to tell us about yours. Then we can get together and help each other. Let's get acquainted, and see how much money we can save for each other. Let's get acquainted, and see how much good will we can add to the community. Let's get acquainted, and see how much we can help each other. Let's get acquainted, and see how much we can help each other. Let's get acquainted, and see how much we can help each other
