IT'S ALL IN THE RAISIN'

Speakin' of raisins, there's a whole lot depends on 'em. The character of the man depends on how you raise the boy. We should give more attention to how we raise siblings, an' especially children. Most everyone raises something, or at least is tryin' to. The range runs from umbrellas to mortgages. Some raise Old Nick, or a good word if they could get the raisin'; the dyro raise an objection, and now an' a politician none.

Here's the point that we want to raise. Well bred children have to be raised good. In order to raise 'em good, they should have good bread. Good farmers, as a rule, raise good wheat. We buy the best. Good bringin' in personalities, but we want raised in a mill, an' as youngsters, we was raised on wheat raised when we didn't do justice to our raisin'. Now, we have good wheat and we do good milling, an our flour will make a fine biscuit. It will raise well, taste and keep you and your family well. Well? Why feed to get what they don't know. It's name is "OUR SPECIAL WHITE RIDGE. We never raise the price unless wheat goes up or milling use and force us to do it.

on a few articles have been made by some manufacturers, but do you know that the factory price on nails, axes, stoves and general hardware is as high or higher than it was a year ago?

Did you notice the mail order houses when reducing prices EXCLUDED THE HARDWARE LINE? Do you know that the majority of store manufacturers raised their prices less than 30 days ago? Sound reasoning will convince anyone that honest prices cannot be lowered until labor and material are lowered. Iron, Steel, copper, etc., of world-wide demand now, show no indications of decline.

FIRST SALE ON JANUARY 4TH

Warehouse Will Open To Receive Monday, December 27. Much of Crop Has Already Been Stripped

At a conference of the officials of the Carlisle warehouse held Monday, it was decided to hold the first sale of tobacco on the local market on Tuesday, January 4, the day after the opening of the Lexington market. The houses will all be open to receive tobacco two weeks before that date, December 27, and it is expected that there will be a full floor at each house for the" opening sale.

The question of opening sooner than December 27 to receive was discussed but the warehousemen decided that if tobacco was kept on the floor for more than two weeks it would sweat and prove very heavy, consequently, and that the later date would be more satisfactory.

The outlook for a good market at Carlisle this year is very good. Not for several years has a better crop been grown in Nicholas, and it seems to be an undisputed fact that good quality tobacco is going to bring good prices this year. In several other Kentucky counties where rust and wildfire have appeared the quality is not up to as good, and apparently there will be a shortage of good tobacco this season.

Last season Nicholas county's offering for the sale was one of a mediocre quality, and prices were unsatisfactory. The average for the year in the last few weeks of the season. This year the infinite quality is greatly in the minority, and the average will be considerably above the rank with the highest in the State.

Much dissatisfaction among farmers will be avoided by the early opening of the opening of the Kentucky market. Many of the farmers have already sold. The Southern markets are a little behind the Burley market this season, and if the Kentucky markets had opened sooner there would have been a shortage of buyers. At least one new firm will be represented on the local floors when the new prizery now being built by the Carlisle Tobacco Co. having engaged quarters here for the prizing of their tobacco, and before what purchases this firm has been made through another firm.

Cynthiana Bank, owner of the Blue Lick Springs property, has leased a number of hunters with a bear hunt for the first Thanksgiving day.

The Kentucky Electric Company has filed suit to restrain the city of Cynthiana from preparing and passing any resolutions or ordinances granting the company an increase on their rates.

While hunting near Blue Lick last week Cranston Hill was accidently shot by Utey Warner. His right arm was badly lacerated and he bruised up somewhat, although he was not fatally wounded.

ROBERTSON

Raymond Linville, local county mail carrier on the star route between Milford and Mt. Olivet, has moved with his family to Carlisle, where he has taken a position.

A taxpayer writing to the Mt. Olivet Tribune-Democrat says the turnpikes in this county are in a worse condition than at any time since they were built.

Born—To Mr. and Mrs. William Linville, of Carlisle, route 1, a daughter.—To Mr. and Mrs. William Brannagee, of Thomas, a daughter.

Died—Mrs. John T. Adamson, 69, at her home near Sardis.

Monday was one of the quietest days ever known in Cynthiana for many months. Very little stock on the streets, and the business houses and banks were sold and a new water works plant, which is now under way, is the only thing which is perhaps the exception. The grocers and saloons in the State, was built, the streets of which were put in excellent repair, and many other construction work were carried through. While most of the councilmen were not members of the city administration when the new water project was constructed, much good has been done for the State of Kentucky. All of them have made very creditable officers.

The new administration will be composed of R. N. Brock, Mayor; and Geo. W. Taylor, J. M. Curry, Jr., Jas. Kimbrough, Perry McCanahan, Ollie Bramel and W. E. Roberts as they are these are business men and should have splendid councilmen.

Business of much importance will be transacted at the meeting Monday night. The proposed electric light increase will probably be discussed, and also action taken.

It is also probable that new officers will be elected by the city council for the coming year. It is understood that there are several applicants for the offices. The city offices at present are held by C. Vaught, City Attorney; R. H. Frey, city treasurer and treasurer of the water works, Samuel Holmes, city attorney, Harry Sorrow, city assessor, and J. T. Jackson, city marshal.

POWER OF COUNTY BOARDS DISCLOSED

Duties of county boards of education are clearly defined and circumscribed under the law passed at the last session of the Kentucky State Legislature, according to a digest of the law prepared for the use of the various county boards by the county superintendents of Public Instruction George Colvin. The law is very comprehensive and covers five members.

The boards, which take office in March, 1921, are an outgrowth of an effort to take the office of county superintendent out of politics. The board receives a per diem of $5 for time it is in session, but cannot spend more than $75 a year on the per diem expense fund each member.

Each of the county boards will appoint a county superintendent of schools to take office January 1, 1922. He will be the executive officer and directly to the rural schools, as the boards will employ only teachers for the first four classes from the supervision of the county superintendent.

The boards also will name district trustees.

Teachers will be appointed by the board upon recommendation of the county superintendent.

The letter outlines the procedure which boards must follow in meetings. It instructs the members to elect each year a chairman, a secretary and service chairman. At least one regular meeting must be held during each school term and special meetings are to be held at the discretion of the chairman or a majority of the board may order. Regular meeting days are to be set at the first meeting of the board.

The boards are to determine educational policies of the county and prescribe rules and regulations for the government and management of the schools, subject to the by-laws and policies of the State Board of Education and with the consent and advice of the county superintendents.

The boards appropriate funds when a majority agrees.

Provision is made for a county school budget and fixing the school tax rate at not less than 25 cents on the $100 nor more than 50 cents.

The fiscal court must make the tax levy fixed by the board of each county, according to the letter.

NEW CITY COUNCIL MONDAY

Present Administration Will Hold Last Meeting Monday Night, When New Administration is Sworn In

Next Monday night, the regular meeting night for the city council, will be the last session to be held by the present city administration. It is understood that the present council will meet and swear in the new council, which will transact the business coming before the body.

With the passing of the present administration, men who have been identified with the city for many years will cease their labors. Alvin Peters, who has served in this capacity for about four years. Previous to that the served as councilman for three years. Sam T. Howe and F. E. Dudley have also served eleven years. F. R. Henry and H. T. Sorrow each served three years, Robert Harper for several about three years, having been appointed to fill the vacancy caused by the death of W. B. Ratliff. Paul Darnall has served a little over two years, having been appointed to fill the vacancy caused by the resignation of Dr. Hall.

The terms of the Mayor and present council, expired on January 1, 1921, but as no election will be held they will serve out their unexpired terms, as will the members of the city administration from the three wards now represented, and in the case of the second ward Mr. Howe will be succeeded by Mr. Harper, who has been elected without opposition.

During the term of office of the present council many improvements and greatest steps ever taken by Carlisle in the way of progress have been made. Beds were sold and a new water works plant, which is now under way, is the only thing which is perhaps the exception. The grocers and saloons in the State, was built, the streets of which were put in excellent repair, and many other construction work were carried through. BANKER AT BETHEL SUICIDES

William L. Crouch, Popular Cashier of Bethel Bank Commits Suicide Last Friday. Ill Health Given as Cause

William L. Crouch, aged 35 years, cashier of the Bethel bank, committed suicide by firing a ball from a 32-calibre revolver through the right temple into his head last Friday about noon. The tragedy occurred in the bank, no one being present at the time.

About ten minutes before the tragedy Mr. Crouch sent his bookkeeper to the postoffice to mail some letters, and waited on a customer who came into the bank. Returning in about fifteen minutes from his errand the bookkeeper found Mr. Crouch lying dead on the floor in front of the teller's window at the bank. Death was instantaneous. A revolver was found lying close to the bank board the report of the revolver, but paid no attention to it, on account of the fact that many persons were hunting and the reports from their guns could be heard in all parts of the town. The revolver was from a hunter's shotgun.

Mr. Crouch is given as the cause of his rash deed, Mr. Crouch being under no financial or domestic difficulties, so far as can be learned. Mr. Crouch suffered an attack of typhoid fever from the effects of which he never fully recovered. His health was steadily growing worse, and it is thought he brooded over his condition. He was a son of the most popular men in his community, and his loss is keenly felt by all who knew him. Funeral services will be held tonight in the Bethel Christian church, and were conducted by the pastor of the church. He was also a member of the Bethel Christian church, and was prominent in the affairs of the church. He was also a member of the Masonic fraternity.

Mr. Crouch was a son of the late Mrs. David Crouch, of Bethel, who survive him. He is also survived by his wife and two small boys, five and seven years of age, and one sister, Mrs. H. E. Vyse, of near Sprout, this county. He has
