CAMERA SNAPS PHOTO OF CHICKEN THIEF

John Doty, photographer, of Paris, has in his possession a perfectly good likeness of a negro boy, who the police are trying to locate. Mr. Doty is a chicken fancier, and has a number of fancy specimens in his chicken yard.

During the past few weeks there have visited [illegible] chicken house and a number of his best fowls have disappeared. Determined to catch the thief Mr. Doty rigged up an ingenious scheme which proved effective. He arranged a kodak in front of the window of his chicken house and attached to it a flash light.

The apparatus was so arranged that the opening of the window would be like the flashlight and each time before the other morning he found that the fowls had been disturbed during the night. Upon developing the plate he found a picture of the lanky scared feature of a negro boy.

"Found Seven Rats Dead in His Nest Morning."

Robert Woodruff says: "My premises were infested with rats. I tried RAT-SNAP on [illegible] recommendation. Next morning found seven dead rats in their nests. Within a week I had killed 15 large number more. No smell from dead rats—RAT-SNAP dries them up. Best thing I have ever used." Three sizes, 35c, 65c, $1.00. Sold and guaranteed by

"And There Wasn't the Slightest Smell from Dead Rats."

Writes John Simpkins, farmer of Annandale, N. J. "Rats were making our livelihoods pearly; tried dogs, traps, poisons, but they still lived. Then I bought $1.00 pkg. of RAT-SNAP (6 cakes). Used half, not a trace of rats. Dead ones spoiled it. The RAT-SNAP became after killing them." Three sizes, 35c, 65c, $1.00. Sold and guaranteed by

STOP THAT SAG.

Every owner of a gate, carpenter, farmer or builder should know about the "Can't-Sag" gate. Then he will have no sagging gates, and know how effective they are.

The "Can't-Sag" gate is made of angle steel and heavy wire fencing. It is adjustable, and can be tightened at any time. It will not sag, and will last as long as the fence. Can be used and put together by anyone.

Write for free booklet telling how to make "Can't-Sag" gates. Also tells how to make a perfect corner for all kinds of fences. Tells how to stretch fences and how to make a perfect gate. Tells how to make a perfect gate. Tells how to make a perfect gate. Tells how to make a perfect gate.

The Republican press is much worked up over the lack of dignity shown by Mr. Cox in calling attention to their "slush fund." Many of them are deeply grieved that such way Cox is "hurting himself." All of which leads to the belief that the Democratic candidate drew blood when he made that crack.

Whatever fault may be found with the League of Nations plan, it is the only plan that has been offered looking to the preservation of the peace of the world except through sheer armies and navies. Great Britain took a real collector to the scene of the stampede and collected three bags of [illegible] which [illegible] Will not [illegible]

Quick Improvement From New Form of Iron

The new way to restore iron to the blood—the direct and most rapid—is available of all methods—is through the use of Acid and Mineral. It is a natural form of soluble iron—in a starting treatment.

End Your Gate Troubles

No more heavy, tumble-down, sagging wooden gates. No more bent and twisted gas-pipe gates. Put up "Can't-Sags"—made of an ideal combination of iron and steel lotted wire together—fit no sacks to pull out. When closed and locked, the "Can't-Sag" Gate is securely locked at both ends—stock can't break through and destroy growing crops.

"Can't-Sag" Gates

Can't Sag a Fraction of an Inch

In order that sag even a quarter of an inch, 45 locks and 8 pieces of angle steel would have to bend. You know that is impossible. Yet, this steel gate costs less than the old-fashioned kind. Thousands are in use on large and small farms everywhere. Drop in or see these gates when in town.

OH MY STOMACH!

"I had stomach trouble so badly that nothing I ate would digest as it should," said Sadie E. Hamilton, of Portland, Me., so she began a remarkable story of the relief she has secured from Adlerika. Simply one dose relieved constipation, stomach bloat and gas and removed poisons.

Everything I ate I ate would lie in my stomach like a lump," she explained. "Gas would form and I would suffer distress all the time. I had a bad taste in my mouth every morning, my gall relief in the stomach seemed to be sour, but even this did not help me, as I considered me as bad.

I began hearing so much about Adlerika (Pronounced Ad-ler-i-ka) that I thought it might help me, and I am glad I did, for after I had taken two bottles it set me right. I can eat anything and I am not troubled with gas."

I am completely rid of my old stomach trouble that I had for three years. I have not felt so well for years and I am certainly glad to recommend Adlerika to anyone suffering as I was before I got this wonderful remedy."

A short spell of wanting to help others is what makes sufferers seek and recommend Adlerika, the powerful carminative of Asa-Fetida and Buckthorn Bark.
