SALVATION ARMY TO BRING SERVICES TO SMALLER TOWNS

A national campaign to bring to the very small town and the rural community all of the service that has proved highly successful in the more crowded form for good in the big cities, has been formulated by the Salvation Army. Brigadier Herbert Roberts, Divisional commander of the Army at Cincinnati, whose territory covers seven Western Ohio and all of Kentucky, is to be in charge of the movement which is expected to benefit every community in the two states, as well as their districts. A similar undertaking has been conducted throughout the entire United States and export organizations have been established to the end that the Salvation Army "Blue Bonnet" may be brought to every door in the land where the heart is most sheltered.

According to Brigadier Roberts, Social Service Programs, which the Army will have in force, will include educational courses at the open-air meetings and entertainments for the inmates of community, county bonds which cooperate with and are supervised by the Army. Credit Unions, small voluntary bodies of men and women who may be organized to raise by their community laundry, and the Army funds and which may be loaned in turn by their fellow citizens at home.

Brigadier and Mrs. Roberts say that the purpose of the Salvation Army will be the first of the kind ever attempted by a national organization. Those who are interested in the Army will endeavor to handle the campaign in such a way that it is not equipped for such service anywhere. Miss organizer will be the best friend of every man, woman and child.

GOOD TOBACCO WILL BE WANTED

In order to induce the people to use V-C. Fertilizer and make free tobacco by the V-C. Co., the largest fertilizer company in the world, has just made a big reduction in prices. I can now buy you V-C. Gem Tobacco Grower at $42.00 per ton, V-C. D. Leaving, at $42.00 per ton for our V-C. Plant Food and for the V-C. Corn and Wheat Grower, $2.35 a bag. Another reduction even of tobacco would certainly bring ruin to the tobacco growers and to the industry. Sidle, while a medium crop and good, bright tobacco will be needed, I will not doubt being good paying prices. 200 pounds of our farm Tobacco or similar grade to, or by the side of the row, gives your tobacco a start and equal to up with good color two weeks sooner, and only costs $2.85 an acre, or three bags, 225 pounds, delivered in all over the ground, will make you a fine tobacco crop and also make you a fine wheat or rye and grass crop following it. Either one of these crops will more than pay for the fertilizer. See that your plants are not killed.

A party that used three bags in this way made 13,875 pounds on ten acres and sold it for $46.14 average per hundred.

A little of our Plant Food saved over the bed after they come up, and worked in, will give you plants two weeks sooner.

This bags will double the yield of one acre of potatoes.

Terms this year are positively cash.
