RENEWED TESTIMONY

No one in Carlisle who suffers backaches, headaches or distressing urinary ills can afford to ignore this Carlisle man's voice-full story. It is confirmed testimony that no Carlisle resident can doubt.

John J. Archdeacon, prop. harness shop, E. Main street, says: "I feel an occasion to use a kidney remedy some years ago and as I had often heard of Doan's Kidney Pills I went to Peoples Drug Store and got a box. I used it and soon found the two boxes of Doan's Kidney Pills which I got at Peoples's Drug Store in Kinkaid & Squire's Drug Store to cure me completely. I feel justified in recommending Doan's as a valuable remedy."

(Statement given November 14, 1916)

On November 15, 1920 Mr. Archdeacon says: "The cure I spoke of in my former statement has proven permanent. I have had the slightest sign of kidney trouble since Doan's Kidney Pills cured me. Doan's is alright and I gladly recommend them."

SOUR STOMACH INDIGESTION

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting From Torpid Liver.

East Nashville, Tenn.— The efficacy of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I do, believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr Parsons describes —reliable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes.

Always ask for Thedford's. E-16

How Cincinnati's Greatest Store Secured Its Title

HISTORY records the deeds of many great men. Business history records the record of many great institutions. But very few ever attain greatness.

The Mabley & Carew Company have become great because they have always felt that they owe a duty to the public above everything else.

A pleased and satisfied patron in the estimation of this store is far more desirable than the profit from hundreds of dissatisfied patrons.

The aim of this great institution is to supply the public with quality merchandise at the very lowest possible prices — to satisfy every customer, to treat every patron as a friend — to make every person welcome and have them feel at home — to serve the entire public to the best of their ability — and to never permit any concern to undersell — quality considered.

This friendly, homey store bids you welcome. Visit us when you come to Cincinnati.

SOLDIERS OF OIL STOCK CALLED ON FOR PAYMENT

Holders of stock in the Bourbon Oil & Development Co., and its associate company, the Co-operative Land and Development Co., are worried over receipt of a letter received from a Lexington attorney representing C. C. Reynolds, secretary for the two companies, informing them of an indebtedness to the two companies and requesting immediate payment.

According to statements made by Paris citizens who last invested in the stock of the two companies, C. L. Bell, organizer of the concerns, came to Paris about two years ago, and announced he was organizing the Bourbon Oil and Development Co., which held leases that produced substantial returns. It was stating here that he disposed of several hundred shares of stock at the par value of one dollar, to various persons for the price of ten cents per share. Practically all of this stock has changed hands several times since then.

Holders of the stock obtained at ten cents or more per share less than the par value of one dollar, declare they will organize to fight the payment. The stock is being held by hundreds of Paris citizens, and Bourbon county farmers, including merchants, lawyers, seamstresses and others, and many will be unable to meet the proposal demand of the receiver, Assessments are coming from a local dealer to seventy thousandths.—Bourbon News.

Many Nicholas county persons were investors in the stock of this company, and have received notice of the assessment. Most of the subscribers here who have heard express an opinion having signified their intention of not paying without a contest.

The annual meeting of the Kentucky Jersey Cattle Club will be held at Louisville April 19-22.

HANNA'S

"Green-Seal" Your Property

Every gallon of Hanna's Green Seal Paint contains 300 Sq. Feet, three-quarters of paint protection and beauty. In some cases it's a good deal more than 300 ft., according to the surface to be painted.

And if properly applied, Green Seal covers this surface without lap or brush marks showing. It supplies a smooth, evenly-spread film which weather cannot break through. Thus Green Seal does the double duty of beautifying and protecting paint. It gives both good cover and good looks.

It's the time-tried brand.

Formula on every package.

AMERICAN HELP ONLY SALVATION OF CHINESE

Paper books, missionaries of them, on through China, have been received from New York by the China Famine Fund in London, of which Rev. E. V. Mullins is chairman. Within those paper boxes are small morsels of the one thing that means life in the 10,000,000 inhabitants of China, a coarse flour made from kaoliang, a tall grain that grows in China, and is ground into flour by hand, chairman of the drive, the receipt of a number of the books.

Each book contains a message which is to bring home to the added horrors and Sunday School pupils the plight of the Chinese and to give them an idea of the gravest famine upon which will go down in history as the great famine of China.

Dr. Mullins announces that he will send to any school teacher or Sunday School pupil a supply of these books.

Through the co-operation of the Red Cross the plight of the Chinese will be brought home to the children of Kentucky, says Dr. Mullins.

The new claims of his that remains to millions of men, women and children is kept from American ears.

They have no other hope. We desire to send out such an appeal that every cent of our surplus for starving China may be sent. There will be a closed door now that the Chinese Red Cross is in charge.

PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

ANNOUNCING
The PAIGE NATIONAL
DEMONSTRATION WEEK

For one week—commencing Monday, April 4th,—our Dealers in every section of the nation will conduct a special series of demonstrations with the complete line of Paige cars.

Our "Daytona 6-66" model now holds the world's stock car record for speed. It will be the purpose of Demonstration Week to prove that any Paige car—in the hands of an unprofessional driver—is indeed Master of the Highway.

No other stock car has ever equalled our own speed record of 102.8 miles per hour. No other car, we are confident, can defeat a Paige in the milder tests of general demonstration work.

You will also be able to determine whether the New Series "Glenbrook Six-44" is or is not the greatest value for dollar value in the light six field.

Surely no man could ask for a fairer or more sportsmanlike proposition.

Demonstration Week offers an unrivaled opportunity. You have but to get in touch with our Dealer and he will book you for a ride that will prove finally convincing.

Then, with an actual record of the tests, you will be in position to compare the Paige 6-66 with any other motor car—at any price—on the American market.

By proving itself the fastest car, the Paige 6-66 has revealed qualities of endurance and strength that are beyond dispute. World's championship form is a guarantee of all 'round efficiency—the best guarantee that the sporting world affords.

But these are facts that we want you to establish for yourself, and

Whether you contemplate buying a motor car or not, we very cordially invite you to ride with Paige during the coming week. It will prove a revelation, we believe—and a liberal education in strictly modern engineering.

COMMENT

If beer is a food, would you call a present day prescription-physician a purfled purveyor?

April court is no longer "horse show day." Not a sire in town, and all the dames were "ladies."

What has become of the old fashioned man who used to brag that all of his children were voters?

It will be read in The Mercury's Don't tack it on a fence. No one carries a fence home to read the ads on it.

The fact that the mosquitos which breed in our open sewers are prize winners in point of size is no cause for civic pride.

Reading in a Lexington paper that "The Storer was coming this week, a local man is said to have prepared to withstand a "spell of bad weather."

The trouble in waiting for "bedrock prices" is that the closer you get to those rocks, the more danger there is of bumping your head on them.

A migrating, wife-fool loon found on the Millersburg pike in a stunned condition probably mistook the chap holed for the watery surface of a stream and lit too hard.

A Carter county candidate, says the Civitan Bulletin, announced that he is "not desirous of entering politics for a living, already having been a Republican all my life."

Was it a member of Lincoln's cabinet who said, "Go to, I will arise and go to mine Uncle and say, I am a part of his expenses?"

A cockatiel, little Miss, aged eleven, was sent home in Paris from school for showing her knees. Should we ever see an exhibition of statuary like this, the higher education of the female will be seriously endangered.

A Kentucky fraternal publication carries an advertisement for a "new air-tight kettle, from four to fifty gallons in capacity." What in the name of Volstead would one do with a fifty gallon, air-tight copper kettle?

Mrs. Jones admitted to the soul, become a sot of spirits, and never dies.—Bulliver.

If it had the same effect on the stomach, how easy it would be for the unregenerate to get jagged up on jass.

"Just crazy," says the wife of the confessed accomplice in the Elwell murder case. To which he replies that she knows her belief on the fact that he really was a "crazy fool before." Ninety percent of men are crazy when they marry the girl they think they will have, and 90 percent of them are crazy when they find they haven't.

Should he decide to announce it's doubtful if he would have opposition for the place. This is Nicholas county's time to furnish the candidate for State Senator and Mr. Ross is admirably suited for the office should he decide to run.

$2,500 DOZEN EGGS SENT FROM CARLISLE IN MARCH

Last week's issue of the Falmouth Outlook contained a letter from C. E. Malin, shipping clerk at the freight depot in this city, giving the number of the shipment of eggs and poultry from Carlisle during the month of March, as follows:

Published in last week's Outlook that Mr. Austin and son shipped quite a good lot of eggs. I thought I would give you the number of eggs handled in the egg and poultry business for the month of March.

"We shipped five cars of eggs, 550 cases to the car, giving the total cases of 30 dozen to the case, making 82,500 dozen for the month. We had two cars loaded today which will go out in the morning. We shipped also one car the month of March three cars of live poultry, weighing 18,000 pounds each, and are loading another car today. Anyone questioning this I am able to produce the records, as this is part of my work, handling the cars and billing the outbound freight. My freight forwarding report for month of March was nearly $3,000.00. I think this is a very good business for a small town like Carlisle during these hard times.

C. E. MAINS
PRODUCE REVIEWE

Butter prices have worked to a higher level, due to the very poor demand and also to the fact that reserve stocks in storage do not represent the best of quality. Present weather conditions, however, mean increased production and a better quality of cream to patron within the near future.

Eggs have been in good demand, with reserve stocks still going into storage in larger quantities than for the same period a year ago. In some parts of the country the flush of the producing season is past, and general indications are for decrease in the marketing from this time on.

Live poultry is moving quite freely for this time of the year, and as prices of poultry have not declined in line with other eggs, the indications are for a light demand, with a declining market.

PROMINENT CITIZENS OF OVER TWENTY YEARS AGO

Photographs of Merchants and Professional Men In Carlisle Twenty Years Ago To be Published

Beginning with this issue, The Mercury will, for the next several weeks, publish in each issue the photograph of a merchant or professional man who was in business in Carlisle twenty years ago.

In May, 1900, The Mercury published a centennial edition, using the photographs of many of the merchants and professional men of that day, together with a history of their business. The photographs we will reproduce from the issue of 1900, and the history of the business men of Carlisle twenty years ago will be published in the centennial edition.

Many of the persons whose photographs we will reproduce have crossed the Great Divide; others have removed to other fields of endeavor, while the majority remain here, and, in most cases, are still engaged in the same field of endeavor.

Some of these photographs will be instantly recognized by the older citizens, and should will revive many pleasant memories of those days. The "Beau Brummels" of a score of years ago have grown older and wiser and in that period, are still in our midst. Look for the pictures in The Mercury every weeks. We will give the history of the persons whose pictures we publish in the succeeding issue.

L. R. ROSS MENTIONED AS CANDIDATE FOR SENATOR

Mr. L. R. Ross who was Democratic candidate for Governor in the last campaign, is being mentioned by local Democrats as a possible candidate for State Senator from this district. Mr. Ross is a native of this county, a son of Nicholas county, and a lawyer of exceptional ability.

During the war, it was largely through his untiring efforts that Lieutenant Tyre, Dr. McCormack and this county were so successfully carried over the top in every movement for the good of the county, and for his party, he has always been an indefatigable worker.

Should he decide to announce it's doubtful if he would have opposition for the place. This is Nicholas county's time to furnish the candidate for State Senator and Mr. Ross is admirably suited for the office should he decide to run.

GRADED SCHOOL DISTRICT TO GET $2,587 FROM L. & N.

County Attorney Cox Discovers That L. & N. Owes School District Large Sum For Back Taxes

Carlisle Graded School District, No. 26 will receive the sum of $2,587.21 from the Louisville & Nashville Railroad, within the next thirty days, checks totalling $2,587.21, which amount has been found by County Attorney Foster Cox to be due on taxes to the district.

County Attorney Cox went to Louisville last Wednesday, and upon his return to Carlisle Friday stated to The Mercury that the above amount would be paid. It was not known that this sum was due the district, until Mr. Cox, in the course of his duties as legal advisor of the county board of education, made the discovery that no collection of these taxes had been made for the years 1915-16-17-18-19-20. Under the law, the sheriff collects taxes for all schools except graded schools. Taxes for graded schools are collected by the board of education and turned over to the graded schools.

The $2,587.21 which the railroad will pay will be divided between the Graded school district and the city schools, according to law.

The details of the collection could be invoked on some of this amount by the railroad, but it is the opinion of L. & N. it is said, to take no advantage of the statute in the case of one of school taxes.

The district is to be congratulated upon its good fortune in being able to secure these unexpected funds through the unremittable efforts of Mr. Cox in the matter.

BOARD DEMANDS PHYSICIANS TO REPORT ANIMAL DISEASES AT ONCE

Louisville, April 11 — Physicians must report cases of communicable disease by their real name and not as "Mrs. Brown" or some unrecognizable disease or they will be cited to appear before the State Board of Health and show cause why their licenses should not be revoked, Dr. A. T. McCormack, State Health Officer, announced here today. This rule will apply both where cases of such disease are reported as cases of a non-communicable disease and where cases are reported as a disease of a less malignant type, Dr. McCormack also said, and the State Board of Health, the certificates in which physicians make such false reports, will be revoked. The new rule was made effective with no misrepresent facts, Dr. McCormack said, in connection with the recent notices which the State Board of Health has sent Dr. J. C. Siddens, Bowling Green, and Dr. James C. Mewborn, Hot Linn, Ky., to the effect that they must report cases of smallpox as smallpox. Two more physicians, according to the State Health Officer, reported that illness they had seriously smallpox as chickenpox, and when the State board called their attention to the fact that the diseases were untrue pleaded that these reports were made honestly and because they believed the illness easily was chickenpox. The State Health Officer said that, after investigation, the local health authorities had found that cases were smallpox and that in all instances the decision of the local health officers was based on the rules and quarantining such cases is compulsory, Dr. McCormack said.

ZORA SOSBY ARRESTED ON GRAND LARCENY CHARGE

Tuesday's Bourbon News the following account of the arrest of Zora "(Zoy)" Sosby, of this city:

Zora Sosby, white, was arrested here by Chief of Police Link, on a charge of grand larceny, and taken to Carlisle on Monday by Deputy Sheriff Hall.

"The arrest was made on a warrant sworn out by E. W. Stokes, of Lexington, charging Sosby with horse theft. Sosby is alleged to have ridden a horse belonging to Stokes from Carlisle to Paris, a distance of about three weeks ago, and to have taken a watch from him. He disappeared, and was located until Chief Link found him in Paris."

CONFEDERACY OFFICIAL SEAL NEVER FOUND

Washington, April 9—The whereabouts of the official seal of the Confederacy, an unsolved mystery for more than half a century probably will ever remain unknown. James Jones, aged Negro employe of the Senate office building, said to be the only person with a knowledge of the matter, the seal was buried, died today without disclosing the secret.

Jones was serving as a servant of the Confederate Congress at the time of the Confederacy when Davis was captured. As the story goes, Jones buried the seal before the federal soldiers could obtain possession of the Confederate leader's effects and to his death never revealed the spot.

6.81 PER CENT AT WINCHESTER

Miss Elizabeth Pyeatt was made County Treasurer at the meeting of the Clark Fiscal court Saturday morning, and the Winchester Bank will be the depository. The accepted bid was 6.81 per cent.

Bids of other banks were 3 per cent by Citizens' bank; 4 per cent by Peoples' Bank and 4.6 per cent by Clark County Bank.—Winchester Sun.

COUNTY BOARD APPOINTS RURAL SCHOOL TEACHERS

Important Meeting of County Board Held Monday and Teachers for Most Schools are Selected

The Nicholas County Board of Education met in the office of County Superintendent, Mrs. Eda S. Taylor, Monday for the purpose of appointing teachers for the county schools. For various reasons some schools will not be filled until a later meeting of the board.

Those receiving appointments Monday were as follows:

Headquarters—Miss Clara Shaw.
Hookstown—Mrs. Jno. Kennedy
Bachelor—Miss Etta Rose Hall.

REDUCED RATES TO BE GIVEN EDUCATIONAL MEET

The railroads have granted a fare of 1½ for round trip to Louisville for the Kentucky Conference on Negro Education Association, which convenes April 19-22, 1921. This special rate is granted to members of the association and dependent parties of their families and will be granted only on presentation at starting point of identification certificate issued by the Secretary of the Association. All persons expecting to attend the meeting should write the Secretary, R. E. Jaggard Tyre, Dr. McCormack also said, and the State Board of Health, the certificates in which physicians make such false reports, will be revoked. The new rule was made effective with no misrepresent facts, Dr. McCormack said, in connection with the recent notices which the State Board of Health has sent Dr. J. C. Siddens, Bowling Green, and Dr. James C. Mewborn, Hot Linn, Ky., to the effect that they must report cases of smallpox as smallpox. Two more physicians, according to the State Health Officer, reported that illness they had seriously smallpox as chickenpox, and when the State board called their attention to the fact that the diseases were untrue pleaded that these reports were made honestly and because they believed the illness easily was chickenpox. The State Health Officer said that, after investigation, the local health authorities had found that cases were smallpox and that in all instances the decision of the local health officers was based on the rules and quarantining such cases is compulsory, Dr. McCormack said.

$2,500 DOZEN EGGS SENT FROM CARLISLE IN MARCH

Last week's issue of the Falmouth Outlook contained a letter from C. E. Malin, shipping clerk at the freight depot in this city, giving the number of the shipment of eggs and poultry from Carlisle during the month of March, as follows:

Published in last week's Outlook that Mr. Austin and son shipped quite a good lot of eggs. I thought I would give you the number of eggs handled in the egg and poultry business for the month of March.

"We shipped five cars of eggs, 550 cases to the car, giving the total cases of 30 dozen to the case, making 82,500 dozen for the month. We had two cars loaded today which will go out in the morning. We shipped also one car the month of March three cars of live poultry, weighing 18,000 pounds each, and are loading another car today. Anyone questioning this I am able to produce the records, as this is part of my work, handling the cars and billing the outbound freight. My freight forwarding report for month of March was nearly $3,000.00. I think this is a very good business for a small town like Carlisle during these hard times.

C. E. MAINS
PRODUCE REVIEWE

Butter prices have worked to a higher level, due to the very poor demand and also to the fact that reserve stocks in storage do not represent the best of quality. Present weather conditions, however, mean increased production and a better quality of cream to patron within the near future.

Eggs have been in good demand, with reserve stocks still going into storage in larger quantities than for the same period a year ago. In some parts of the country the flush of the producing season is past, and general indications are for decrease in the marketing from this time on.

Live poultry is moving quite freely for this time of the year, and as prices of poultry have not declined in line with other eggs, the indications are for a light demand, with a declining market.

Grayson Man Accepts Call to Pastorate of Presbyterian Church in This City and will Begin Work in June

Rev. Hestir made a favorable impression upon the congregation of the church when he preached a trial sermon here some weeks ago, and the members of the church are pleased that he has decided to accept the call. Rev. Hestir is married.

H. M. Taylor and Robert Harper are attending the meeting of the Eldership in session at Paris, and will present Rev. Hestir's application for admission to the Ebenezer Presbytery.

BILLY SUNDAY AT PARIS

(J. M. Allen in Cynthiana Democrat)

Somewhere recently, noting the progress of Billy Sunday in America of Marie Curie, the discoverer of radium, that wonderful radium gives an exploding and sending out the most ghastly sheets of gas. When the atom explodes it sends forth a blue ray of light of 10,000 miles a second and these go shooting through the air. The radium explosions send off not only the blue ray but a lot of little very light and velocity shells, some of which go nearly as fast as light—and nearly as much faster than anything else can travel. As these little electrons shoot madly by they set up a sort of wireless call to the atom that is left that it wabbles frantically, and, let a beam of Madame Curie's radium. Is he not the Radium Evangelist? Does not he use an exploding sending of big bombshells and little shells of gas until, like radium, he exhausts himself? And do not the X-rays of his speech penetrate the most opaque intellegenza? I'll say they do!

In his own picturesque phraseology, he is none speaker! Dynamic! Not stereotyped. Magnetic! The personification of magnetism. Ingenious? Gripe and holds you. No genius, but good. Practically no education in declamation,. A rambling, burning, pulsating speech. A marvel in physical endurance. Like Madame Curie's radium, again, in a class by himself.

At Paris, Monday, a crowd estimated, from 8,000 to 10,000 was within the sound of his voice. The big tobacco warehouse was filled to its capacity. Two tiers of seats for 5,000. Hundreds brought their own chairs. Thousands stood. Practically everybody in the Blue Grass was represented. Governor Harrison made largely. People stormed the doors before they were opened. They left their lunches and had come to spend the day.

And yet it did not seem a religious service. There was an invocation. Unctuous. Reverential. But not long. The audience responded well. An old hymn of boundless fervor and real appiause. The singer and the conductor seemed to get the audience laughed loudly and long at the absurdities and picturesque slang. And much slang! From any other than Billy Sunday it might have seemed vulgar—not from him. He has a way. He is intelligently noble. A grin. A gesture. A thump. It is all right. Soon thought "the old bird" linked with Bluff. Oh-ers, like Will Rogers.

Mr. Sunday and his party had been to Lexington to have a look at the world's greatest race horse, Man o' War. They reached Paris shortly after noon and were entertained at the Windsor Hotel for lunch. The entertainment at the warehouse began at 1:30. Arthur Fox, of the Second church, who conducted a meeting at Cynthiana last fall, was the master of ceremonies. He was responsible for the evangelist's visit. While the use of the warehouse was given free, the expenses and a desire to reward Mr. Sunday. The collection was taken in dishpans, washpans, saucepans and other receptacles, and the merry clink of the coin and the folding green of the dollar and five-dollar bills told of its success.

Mr. Sunday is a great entertainer. How he would sit as a steady religious diet is another story. J. M. A.

Paris' persons were killed and more than thirty injured when the Southern Railroad passenger train, the Royal Palm Limited, was wrecked near New River, Tenn., near the Kentucky line, last Wednesday.

HEAVY DAMAGE TO HARPER HOME BY FIRE MONDAY

Two Alarms of Fire Turned in Within Half Hour. Slight Damage at Mrs. Conley's. Furniture Saved Harpers

Two fire alarms were turned in within half hour of each other about one o'clock Monday afternoon, the first fire being at the residence of Mrs. Margaret Conley on College Hill and the second at the residence of Mr. Robert Harper on the corner of Locust and North streets.

The fire at Mrs. Conley's originated, presumably, from a defective flue, and was soon extinguished after the arrival of the fire department, with slight damage.

About the time the firemen were got their apparatus together to return to the city hall the second alarm was given. The fire at Mr. Harper's residence originated in the roof and had gained sufficient headway before the fire department arrived that it was feared it would be totally destroyed. The entire roof was in flames before the fire was discovered by a passerby, and the upper floor rooms were got under control, but not before the roof and a part of the upper story had been destroyed. The entire contents of the house were carried out, very little of the furniture being damaged by being carried out. The residence is partially covered by insurance, but there was no insurance on the household furnishings.

The residence of Mr. Harper is one of the most modern in Carlisle. It was built several years ago, and another residence having been burned upon the same site, it was a total loss.

TWO NEW CIRCULARS OUT FOR YOUNGSTERS

Two new circulars for farm boys and girls have just come off the press at the College of Agriculture, ready for distribution. No. 84 contains instructions for youngsters who will conduct a sow and litter project and No. 88 contains similar instructions for young sheep raisers. Both may be obtained free by writing the Agriculture Experiment Station, Lexington.
