World Secrets Being Sought

Sixteen Exploration Expeditions Are Now in Progress or Contemplation

MANY PROBLEMS TO BE SOLVED

Most Important Expeditions in British Antarctic Expedition

New York, sixteen exploration expeditions are now in progress or contemplation

These expeditions have been undertaken for a variety of reasons

Some are purely scientific, some are commercial, and some are military

The British Antarctic Expedition, led by Commander Shackleton

is the most important of these expeditions

It is a purely scientific expedition, and its purpose is to explore the continent of Antarctica

The expedition is led by Commander Shackleton, who is a famous explorer

and has led several other expeditions to the continent of Antarctica

The expedition is expected to last for several months

and will cover a large area of the continent of Antarctica

The expedition is expected to return to England in the next few months

and will have discovered many new secrets of the continent of Antarctica

The expedition is expected to be the most important of these expeditions

and will have discovered many new secrets of the continent of Antarctica

The expedition is expected to be the most important of these expeditions
