CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three Years, Suffering Pain, Nervous and Depressed—Read Her Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Stegall, of near here, recently related the following interesting account of her recovery: "I was in a weakened condition. I was sick three years in bed, suffering a great deal of pain, weak, nervous, depressed. I was in such bad shape I couldn't walk across the floor; just had to lay and my little one do the work. I was almost dead. I tried every thing I heard of, and a number of doctors. Still I didn't get any relief. I couldn't eat, couldn't sleep, and believe if I hadn't found Cardui when I did I would have died. I bought my first bottle, after a neighbor told me what it did for her.

"I began to eat and sleep, began to gain my strength and am now well and strong. I have taken in all nine bottles ... I would say today is the best I have ever felt me. I don't think there is a better or tonic made and I believe it saved my life."

For over 40 years, thousands of women have used Cardui successfully. At all druggists. E 65

MILLERSBURG COAL & LBR. CO.

Progressive concern that has built up a large trade in every department of farm implements, feed, hay and grain, coal, lime and Nicholas cement. Handles all kinds material necessary to build anything from a chicken coop to an office building.

One of the successful business enterprises in Millersburg is the Millersburg Coal & Lumber Co., of which Irving Collier is manager. This concern was established in 1919. The quick and reliable service given one and all by this house has won for it that good will and popularity among the buying public which is the result of long, persistent effort to acquire.

The endeavors of Mr. Collier seemed to have been constantly directed toward the idea of making the concern a building material of every description from the best markets of the country, and by purchasing the best obtainable in large quantities from the original sources of supplies, the concern was enabled to offer as low prices as can be had for materials of like or similar nature anywhere. The public duly appreciates the high quality carried, liberal prices quoted and efficiently service rendered by the concern is amply attested by large and constantly increasing trade now annually handled. The Millersburg Coal & Lumber Company carries a very complete line of rough and dress lumber, dimension stock, sash, doors, shingles, roofing, lime, cement, brick, building hardware etc., in fact every necessary to build anything from a chicken coop to a mansion.

The Millersburg Coal & Lumber Company deals in coal, salt, farm implements and all kinds of feed, grain and hay,etc. They handle International-Harvester's complete line of agriculture implements and harvesting machinery.

The Farm Implement part of their business is vitally connected with the every day existence of the community, in such town as Millersburg which is entirely surrounded by farm lands, because this line embraces such a variety of articles and machines in the power line of farm use that is needed.

The concern makes a special feature of Green Seal Paints, Drake Gem Coal, and Field's Seeds which are noted for their purity and germination.

The Millersburg Coal & Lumber Co. has been in business for 2 years. The men both of these gentlemen have had fifteen years in this particular line of work. They take great pride in going into plans and details with those who contemplate building, in an effort to suggest ways in which their business may be carried on in the home or farm constructed so as give the greatest degree of comfort at the least outlay for building material.

In dealing with Millersburg Coal & Lumber Co. the people of Millersburg and surrounding country have always found them willing to do all in their power to accommodate and serve the greatest of accomodation and they have to know that they can trust them implicitly with any business in their line.

Sam, the colored driver of an ice team, saw a little lizard crawling up the street. He flourished his long whip and deftly snapped off the lizard's head. Further along the team he espied a chicken on he jerked a horsely cut with the whip. Such skill as a marksman was next exhibited on a chipmunk that showed its head above the ground.

The white man said: "Sam, take a crack at that," pointing at a brewer's tent. Sam grinned and replied: "No boss, no nuh. Dem bears throw fellahs in swimmin'."

COMMENT

A REST ROOM FOR WOMEN

Carlisle needs a rest-room for women. Now that women are voters, they should take the matter in their own hands and see that such a room is provided. No one who observes the inconvenience suffered by women and girls, during a shut-in, wet, rainy day, can fail to agree that a comfortable room where they may rest in a necessity that is apparent to anyone. From our office window, we can see little girl stand on the street for more than two hours. Her face showed that she was suffering, from the heat and from standing. Try it yourself. Remain in one place on a hot street corner for two hours; imagine how it would feel, if there were no place you might go and sit down, that, without attracting embarrassing attention. Then, perhaps, you'll realize that we should provide a comfortable and well-appointed rest room for women, as a matter of plain humanity, if not of civic pride.

MERCURY'S POPULAR SONG

When the girl who rolls her stocking Rests the most on Saturday

Is the one who has Dorothy Dalton

ICE SHOULD BE SOLD CHEAPER IN CARLISLE

Councilman A. S. Kimbrough Suggests That Council Make Effort To Have Price Reduced

The regular monthly meeting of the city council was held last Monday night with all of the members present except Councilman Kelley. The matter of importance was brought before the council.

Councilman A. S. Kimbrough, who is the manufacturer of the pints charged for ice in other towns, should that he be compelled to sell ice at the present exorbitant price of 25 cents per 100 pounds. He stated that the price of seventy hours per hundred is higher than is charged in any other city in Kentucky, when said to, in his opinion, excessive.

Mr. Kimbrough further stated that at this time when business is so dull and everything merchandise on a very close margin as to profits, that the people can ill afford to pay such an exorbitant price for ice. He stated that he would be willing to help make an effort to have the price reduced, and that he would be willing to sell ice at a reduced price. He stated that the company would not sell less than 25 cents worth of ice per day, and that the minimum charge for ice delivered in Carlisle would be $10 and $12 a ton. He stated that he would be willing to sell ice for $8 per ton if the ice company to increase their rate from $10 to $12 per ton, and $12 per ton per hour, with the understanding that the minimum charge for ice would be reduced. He stated that the ice company would be willing to sell ice at the reduced price if the council with labor and materials entered upon the construction of the new city building.

After the matter was taken, a movement to adjourn being carried unanimously, the council "whooped" home.

PRODUCE REVIEW

(Prepared by Swift & Co.)

A fairly active trade with a belt tone demand for buffer has resulted in higher prices. Receipts continue light and the market is generally well sold up. Indications this week is for a continuation of the present shortage of offers in quality. Better care in the handling of cream is necessary to meet these offers. Eggs are in good demand and meet with higher prices owing to the present shortage of offers.

Poultry is in good demand with increased receipts. Storage stocks are reported to be light and there is a tendency toward lower prices. Offers of dressed poultry are light.

BRIDGE ACROSS LICKING NEEDED AT CRATON

Now that everything is going back to a normal state, the building of a bridge across Licking at Craton, by the bridge would not only be of immediate benefit to residents of Nicholas and Robertson, but would be a great convenience to the public at large as well as a part of Providence between Carlisle and Maysville. The bridge at Craton is the only one that has been destroyed by the high water and the distance to Millersburg and Maysville is considerable. Should the Blue Grass section would be greatly benefited by the bridge. The only study this bridge question on the part of the fiscal court is the cost, while the cost would be small as compared to the benefits to be derived.

CONCERT COMPANY OPENS CHAUTAUQUA MEET HERE

Full House Greets First Number On Program of Redpath's, Which Opened Here Wednesday Afternoon

If the remainder of the chautauqua entertainments live up to the style of the opening number, Carlisle will have had the annual chautauqua season in reality. The Redpath Concert Company, of Cumnock and Nicholas county, is the attraction that opened the entertainment.

The program was well received throughout, each member of the organization being an artist. The concert company furnished the music for the lecture of Monteville Flowers on "Kentucky's Greatest Need," before Mr. Flowers came before the audience, however, he graciously consented to sing a solo, which was given was well received.

Miss Kimbrough further stated that at this time when business is so dull and everything merchandise on a very close margin as to profits, that the people can ill afford to pay such an exorbitant price for ice.
