NOTICE TO PUBLIC
Carlisle, Ky., July 26, 1921
In view of the fact that it is being circulated around the streets in this County at the present time that the bridge across Brush Creek on the Mt. Myers, Ky., road $11,000.00, we the undersigned members of the County Court make and declare the following to be a true statement of the cost of said bridge and the manner and method of replacing a bridge at the place where same was formerly located.

We do this to inform the people of our County as to our official acts as well as to correct the incorrect statements now in circulation.

Cost of New Bridge	$2,900.00
Bridge itself	2,300.00
(Contents concrete work)	
Making fills for approaches	400.00
Cost of piling	
old bridge	200.00
Total cost	$5,200.00

The engineer employed by the Fiscal Court to make estimate of construction of bridge at old location, estimated the cost of same at $1,000.00 which did not cover the expense of clearing the old bridge away and removing the other obstructions about the bridge, which would necessarily have had to be done in order to erect it from future probability of being washed away. The work of so cleaning out the creek would have cost several hundred dollars.

The total cost of making a new turnpike from the old pike to the new bridge was $1,200.00 which the people who were interested in changing the location of the bridge, most of the subscribers to the fund for the bridge, paid the same to the contractor and along Clancy's creek.
