The Cincinnati Enquirer says it agrees with Governor Morrow that he is a sorry Governor.

If all bubbles continue to burst in Bourbon county, it will be unnecessary to grease the roads next year.

The Northern Baptist conventions the utterances of George Harvey. That the air of George Harvey. That makes it unanimous.

Would it be permissable to take liberties with Webster, and say that Governor Morrow was self-ConSent into action in the matter of the Blair parades.

"Impossible," say the doctors, that a Louisville man could have coughed up a live fish. The medicos will have to admit, however, that it is possible for a poor fish to be made to cough up the fish.

Among some of the tribes in the Arctic region a man who wants a divorce leaves home in anger and does not return for several days. The wife takes the hint and departs.

In more temperate climes she takes a lawyer and deposes.

A friend of The Mercury sends us from Virginia, the following version of that famous memorial meeting on the bridge:

They met on the bridge at midnight;
They will never meet again;
For what an east-bound heifer,
Tho'-after a west-bound train.

Teacher—"Define 'broke'."
Student—"Past tense of 'strike'."
"Define 'accident'."
"A short tale."
"Use both in a sentence."
"The little dog tricked down the street with a man tied to his auto date."

What's this? Congressman Lineberry wins a new hat by proving that it would be fired by the sun on the front steps of the Capitol. There is said to have been considerable cogitating, on the side, too, before should be fired on the front steps at all. Anyhow, the question had against frying eggs, except by a licensed cook or a fanatical Henry-jeffy crank. This noticing must stop!
