

CALIFORNIA PLAN ADAPTED TO KENTUCKY

Washington, D. C., Jan. 24.—The California plan for the reorganization of the federal government, which has been adopted by the House of Representatives, is being adapted to the needs of Kentucky. The plan, which was passed by the House on Jan. 15, provides for a reorganization of the executive branch of the government, including the creation of a new department of the interior and the consolidation of several other departments.

The plan is being adapted to the needs of Kentucky by the Kentucky State Board of Administration, which is headed by Governor Frank P. Rowan. The board is working to ensure that the plan is implemented in a way that is consistent with the needs and interests of the state.
