14 DAYS - MONEY RAISING SALE - 14 DAYS

Begins Friday, Oct. 7th---Closes Saturday, Oct. 22nd

Owing to the fact that so many of our good customers, who have stood by us for years, are not able at this time to pay us past due accounts, and feeling that this is not the proper time, nor is it our desire to embarrass these staunch customers by insisting upon a settlement, we are **FORCED TO CONVERT OUR FRESH, NEW STOCK INTO CASH.**

Our obligations must be met. Those whom we owe do not feel the same hesitation that we feel with our patrons in demanding settlement so in order to meet our bills, we have decided to place on sale our fresh, new stock at **PRICES, THE LIKE OF WHICH YOU HAVE NOT SEEN SINCE 1917.** We want every man and woman in Nicholas and adjoining counties to give the utmost consideration to the importance of this sale, because it is a **SALE WITH A PURPOSE--A BONA FIDE SALE.**

We promise you great bargains in each department; just at the time of year when you are needing winter goods.

First Photograph of Human Face

By JOHN DICKINSON HERMAN. The first photograph of a human face was taken in 1839 by Nicéphore Niépce and Louis-Jacques M. Niepce. The image, known as 'View from the Window at Le Gras', is a very faint and blurry representation of a street scene in France.

It was in the year 1839 that the first photograph of a human face was taken. The inventor of photography, Nicéphore Niépce, and his brother, Louis-Jacques M. Niepce, had been working for several years on the problem of capturing a permanent image on a light-sensitive surface. Their work was interrupted by the death of Nicéphore in 1820, but Louis continued the work and eventually succeeded in producing the first photograph of a human face.
