**Your New Home**  
should be made artistic, sanitary and livable.

These walls should be Alabastined in the latter, perfect your own an individually and the treatment throughout by the complete perfect harmony in colors.

## Alabastine

*Instead of kalsomine or wallpaper*

**Alabastine is a revolutionary new type of decorative wall covering that is more sanitary, more artistic, more durable and more beautiful than any other wall covering ever known.**
