"Do unto others as ye would that they should do unto you."

The Golden Rule Will Work

WHATEVER your business, the Golden Rule of the Bible will work. Try it in its complete application. You will have more satisfaction—and more business.

Treat your employes as you would want to be treated if the hired man were boss.

If you are employed, do your work as you would want it done if you handled the check book.

In your home treat your children as you would want to be treated by God, your Father.

"Children, obey your parents," says the good book.

The principles of the Bible can never be disproved. Follow its teachings and nothing but good can result.

Too Busy?

Too busy to go to church Sunday? Some day the angel of death will tap your shoulder. You cannot put him off.

Why not cultivate the spiritual side of your nature?

The old commandment: "Six days shalt thou labor and do all thy work; but the seventh day is a Sabbath" was intended for you. Cold-blooded economists tell us that men who rest on Sunday do the most work.

There is a seat for you in this church. Come Sunday.

Remember the Sabbath to keep it holy. In it thou shalt not do any work.

You Can't Eat Words

When you go into a grocery store for groceries and have to listen to Mrs. Chatter or Mrs. Hardtoplease, and then have a grocery clerk try to persuade you to buy something you don't want you're wasting money.

No you can't eat words, but you have to pay for them just the same. When you go into a PIGGLY WIGGLY Store you choose the articles you need from the shelves and save time; you only get what you want, you pay the lowest price for them and save money.

If you like to save time and money and exercise your own free will, you will be a regular PIGGLY WIGGLY patron.

Fertilize Your Tobacco Ground

Fertilizer should be distributed evenly over the ground to obtain the best results, It should be put in by means of a wheat drill or sown broadcast by hand. In this way you get the benefit of the fertilizer for your growing crop and also for the crops following. You never fail on a stand of grass after using fertilizer as mentioned above. Ask your neighbor who uses it.

If you wish to fertilize in the row of the growing crop this is easily done by hand or a corn drill and you will find a large return on your investment.

The right grade of fertilizer develops the stalk and the leaf; ripens the tobacco earlier; gives you more weight and better color.

Beware!

Be certain that you buy the grade of fertilizer best suited for your soil. There are many grades.

Come in and talk the matter over with those who can advise you.

Mr. and Mrs. Chester Stephenson and family were guests of his parents Sunday.

Mr. and Mrs. John Buchanan and daughter attended the funeral of his aunt at Ewing Thursday.

Oscar Stroud had as his guest Saturday night Mr. Thompson Payne.

HOW TO PRESERVE EGGS

Thousands of dozens of Kentucky eggs should be placed in water glass during the coming few months while eggs are cheap, for use next winter, when prices for this product soar. Use of the water glass method of preserving makes it possible to have winter eggs at about one-half of what fresh ones would cost.

Eggs can be kept fresh as long as a year by the following method, according to J. R. Smyth, extension poultryman at the College of Agriculture:

Only absolutely fresh eggs should be preserved, candling being advisable if there is any doubt as to their freshness. Dirty eggs or eggs that have been washed should not be used. Washed eggs will not keep because the protective covering has been removed while dirty eggs will become tainted in flavor. Infertile eggs should be used whenever it is possible to obtain them.

Commercial water glass, which may be bought at any drug store, is used at the rate of one quart to nine quarts of water that has been boiled and then cooled. The mixture is stirred until the ingredients are thoroughly mixed.

A clean stone jar has been found to be the most suitable container. One eight-gallon jar being sufficient for 15 dozen eggs. One quart of the water glass and nine of water will preserve this quantity. The eggs are placed in the solution so that those at the top are covered by at least two inches of liquid after which the jar should be covered to prevent evaporation. The jar needs to be stored in a cold place where it will be undisturbed.

The housekeeper who wants to save steps need not go to the jar every time she wishes an egg but may take enough out of the solution to last several days, providing she has a cool place to keep them. Eggs may be added to the solution from time to time without danger of spoiling those already in it.

FLEMING TAX LEVY

(Flemingsburg Gazette)

At its meeting Tuesday of last week the Fleming fiscal court fixed the tax levy as follows for this year: For school purposes, 30c, which is 5c more than last year; for general fund, 16c, 1c less than last year. Total, 76c, which is the same as last year.

If you want to buy or sell something, use the CLASSIFIED.

FREE SEEDS NEXT YEAR

Another of the annual supply bills, the agricultural appropriation, was passed by the senate last week after it had reversed itself and restored the free seeds item for another year. The bill carries approximately $7,250,000 or about a million and a half more than was passed by the house.

Among the principal changes made by the senate were increases of $500,000 to the million dollar appropriation for agricultural extension work through farm agents; $525,000 to the $50,000 appropriations for the purchase of additional forest reserve in the Appalachian district, and $200,000 to the $200,000 fund for eradication of the barberry bush, the wheat rust, pest.

U. S. PATENT OFFICE NEEDS EXAMINERS

Washington, D. C., April 18, 1922. The U. S. Civil Service Commission is authority for the statement that the late average year's business of the U. S. Patent Office consists of more than 80,000 applications for patents, and that more than one and a quarter million patents have been issued since the present system was established by an act of 1836.

Each division of the Patent Office passes on distinct subjects of invention. Whether, the invention pertains to a bicycle or a cantilever bridge, a perfume or a deadly gas, a process for mounting jewels or for extracting gold from metals, a new toy or a new engine of destruction, there will be found in the Patent Office experts possessed of the requisite knowledge to understand the invention, its operation, and the field occupied by similar attempts.

The Civil Service Commission states that it will hold examinations on May 10, 11, and 12, and on June 21, 22, and 23, throughout the United States, to secure eligible to fill vacancies in positions of assistant examiner in the Patent Office. The entrance salary offered is $1,200 a year, plus the bonus of $20 a month granted by Congress, and there is provision for promotion on merit to positions paying from $1,600 to $3,000 a year. Technical training is necessary.

Full information and application blanks may be secured from the U. S. Civil Service Commission, Washington, D. C., or the civil service board at the post office or custom house in any city.

BOWLING GREEN MAN HEADS KY. EDUCATIONAL ASSN

Louisville, April 14. — At the closing session of the Kentucky Educational Association here today W. J. Craig of Bowling Green, was elected president of the organization for the ensuing year. Other officers elected were H. L. Smith of Nicholasville, first vice-president; Leo Mullikin of Pineville, second vice-president; Judson Jenkins of Georgetown Springs, third vice-president.

Delegates to the National Education Association named were J. V. Chapman of Lexington, Miss Mary Bradley of Georgetown, H. E. Wilkins of Louisville, Mrs. James Bond of Maysville.

Dr. H. H. Cherry and J. W. Irvine were re-elected to the board of directors.

The convention went on record in a resolution adopted as favoring a continuous state board of education composed of men and women who hold no official position in any educational institution, public or private.

Another resolution demanded the nomination by both political parties of candidates for the office of superintendent of public instruction. This resolution favored the regarding of state's educational department as part of its "spoils system."

Motorists Look for the Lancaster Tread Mark"

ON the road—through snow, sand, mud—the Lancaster Tire writes its own record of remarkable performance. WINKING IN THE DARK

(Lexington Herald)

It pays to advertise, has been the Q. E. D. of many an argument and many an illustration. It would be difficult, however, to find a more striking example of the importance of advertising than that given Sunday night at the tabernacle on Walnut street by the Rev. Elwood Bulgin.

The man who doesn't advertise, the evangelist said, is like the man who "winks in the dark." Nobody sees him and nobody knows what he is doing but himself.

The merchant who has for sale goods of good quality at reasonable prices should make it known. The man who has a special appeal to make to prospective customers and doesn't make it has nobody but himself to blame.

It is bad judgment to hide a light under a bushel where it will not be seen.

CLOSING OUT SALE

I need the money and YOUR money will do the talking. My entire stock of Harness, Saddles, Robes, Blankets and Whips; everything for the horse. This means they must move at the price of cheaper harness. This stock of harness is not a cheap one, but a first-class stock.

If you want good harness at unheard of prices now is your time to buy. You need the goods and I need the money This is a CASH Sale.
