CARD FROM SAM K. VEACH

Dear Mercury:

Some weeks ago I noticed with I can understand a piece of pleasantry suggestion to parts Main street, and had hoped some would get same. I presume I feel sure the proposition is impossible and should prevail, and as I was venturing to suggest in the columns of your paper a suggestion from their readers, (the Mayor, he might say, would be the proper head to start the agitation and I feel sure the people would rally to their support.

Main street is well worn now and will need more to be rerouted. Why not pave it with brick, properly rerolled and laid? It would cost but little more and last for years, whereas as we have been making it, it lasts only a year or two.

Keep up the agitation, put it over, and although the project may first be a little while, when the street has been paved and completed with the second child your praises.

Yours truly,

Sam K. Veach
