HERE---- EVERYBODY---- HERE

"EVERYBODY NEEDS ONE"

Of the wonderful, famous Instant Heat Boiler, used to take the place of the old-fashioned, clumsy, leaky, unsanitary, inconvenient hot water bottle.

"EVERYBODY WANTS ONE"

Because it is made of aluminum—absolutely clean and sanitary, very convenient, practically indestructible, and will last a lifetime. It is filled with scientific chemicals, which instantly generate a heat more intense than the ordinary hot water bottle, yet does not burn, and will retain its heat from 8 to 12 hours. Its dry penetrating heat is much more effective and efficient than the old fashioned hot water bottle.

"EVERYBODY BUYS ONE"

At first opportunity after being fortunately favored in obtaining demonstration and explanation by agent.
