Hail Insurance Rates Reduced on Tobacco

With the recent reductions of hail storm insurance rates on growing tobacco, in the face of the enormous losses to growers within the last four or five years, every grower is now afforded the opportunity to protect himself to the limit and, with safety, go into the business as prosperously as crops of this kind usually return, sure and handsome, as does tobacco on this, should be insured against loss by hail storms.

Now that so many growers have come to an appreciation for a more economical, conservable way of handling their crops, and the necessity for insurance more and more apparent, there is no reason in the world for any grower to neglect the protection of having it made insurance.

Enter no your insurance agent right away and have him protect your crops, which is likely to be destroyed by hail this season. Follow his advice implicitly. Hail 1916.

SUDAN GRASS IS GOOD SUMMER HOG FORAGE

Sudan grass for hog pasture can be sowed as late as the middle of June in Kentucky, according to E. J. Wilford, swine specialist of the College of Agriculture. The crop is seeded with special fence among other breeders and feeders of hogs. It is easy to continue growing during the hot, dry Kentucky summers, when rye and other pasture crops are found to be said. From 20 to 30 pounds of seed usually are drilled in each acre, the larger amount being preferable, since it results in a thicker seed.

The grass is an exceptional rapid-growing pasture crop. A plot of it on the Kentucky Agricultural Experiment Station farm last summer averaged 35 inches high when measured from the ground to the top of the leaves 10 days after planting. It is said to grow from 8 to 10 feet high. The crop also is palatable, and will afford by the hogs and usually is no rank growing that a large number of dogs can be pastured on it and a crop of hay cut after words.

UNIQUE CHILDREN PROGRAM FOR CHAUTAUQUA THIS YEAR

This chautauqua season sees some particularly interesting programs scheduled. Highly specialized performers have been secured to give a series of morning entertainments which no boy or girl in the community can afford to miss. These special programs will be the third day when Kathleen Scott and Katherine Dever feature clever impersonations in costume and in pantomime, of characters from story books.

On the fourth day the Cramer-Kurtz Co. gives a special popular concert for children. The Dural Brothers, two talented musicians, appear on the fifth day, and Mary Mason gives her fantasy Marionette plays on the sixth day.

The program for the chautauqua this year, as announced in last week's Mercury, is very interesting and a real treat is in store for the citizens of Carlisle and Nicholas county this summer. Buy your season tickets now, as the opening date is only a month off.

Tantac is the result of years of study, experimentation and research by some of the world's greatest chemists. Hence its merit. Hopkins Drug Co.

HALF MILLION MEN MAY STRIKE

The United Brotherhood of Maintenance of Way Employes and Railway Shop Workers has sent out strike ballots to 550,000 members and if a majority votes to strike they will walk out on July 5, as a protest against the Labor Board's decision to cut wages 3 cents an hour.

TO OBITUARY WRITERS

The Hopkinsville Kentucky Democrat sounds the following warning to obituary writers:

We have more trouble in collecting accounts for publishing obituaries and cards of thanks than with all other kinds of accounts. Hereafter we shall require cards of the sort without cash in advance. Count the words and send us a card and money that do cards of thanks, where the doctor, undertaker, preacher and choir are all included, the prize will be two cents a word. Many people want to embalm the memory of their doctor, undertaker or preacher in cold type at the expense of their editor, and we are tired of it.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Carlisle woman who is having backache, kidney and bladder trouble, dizzy spells, nervousness, or headache troubles, should be glad to hear that Dodd's Kidney Pills are now being used by Carlisle women. Read what one says:

Mrs. Belle Hesse, 520 Henry St., Carlisle, says: "I have used Dodd's Kidney Pills and can speak from experience. I can recommend them highly. My main trouble was with my kidneys. At times they acted too often and then again not often enough. My back ached for weeks at a time and the pain extended down both my sides. My sight became affected and I could see black spots before my eyes. I read in the newspaper of these Dodd's Kidney Pills and got a box. My kidneys acted regularly and the backache left me. I gladly recommend Dodd's Kidney Pills."

YOUNG FLEMINGSBURG MAN DROWNED AT BLUE LICKS

Clifford Griffey, Aged About 24 Years, Drowned In Seven Feet of Water

COMPANIONS ATTEMPT RESCUE

Clifford Griffey, aged about 24 years, of Flemingsburg, was drowned in Licking river, about 20 yards from the Blue Lick Springs bridge, between five and six o'clock last Sunday afternoon.

The young man, with his wife and Mr. and Mrs. Wallie McDonald, also of Flemingsburg, motored to Paris, which came to Blue Licks shortly afterwards. They were in swimming shortly after arriving at the river and had been in the river most of the afternoon.

About twenty-five people on the beach at the time the young man drowned it is said, was not a good swimmer. Many people were in the water at the time they noticed him struggling and went to his assistance, but was unable to pull him to shore. Mrs. Griffey, wife of young Griffey made no outcry, and his companions did not realize that he was drowning until he had gone down the second time.

Ben Fry Soapp, who was watching the swimmers from the bridge, jumped in the river and pulled Mr. Griffey, who became frantic when she realized that her husband was drowning, out. Mr. Soapp then secured a boat and with Bailey Locke and others started in getting the body out of the river. Mr. Griffey's body was found about 50 feet from the spot where he had been last seen. All known methods of resuscitation were used by Mr. Soapp and others, but the young man was dead when the water where the body was recovered was about seven feet deep.

Persons who witnessed the tragedy say that young Griffey could easily have been rescued had he made an effort, but he did not realize that he was drowning until he was almost gone. Griffey and McDonald's wives are parents. Mrs. Griffey was formerly Miss Lucile Soapp, daughter of Mr. and Mrs. Ben Fry Soapp, who live on the river near the scene of the drowning.

Griffey is survived by his wife and a child, a few months old. He was a member of the Knights of Pythias lodge at Flemingsburg, and a member of the Methodist church.

RECORD CROPS IN BLUE GRASS NOW INDICATED

The Blue Grass Farmer editor of the Lexington Herald has the following optimistic report of farm conditions in the Blue Grass:

As farmers of the Blue Grass swing into their midsummer work prospects for a crop that will rival the best years ever seen on every acre. The open winter and the early spring have been accompanied by frequent showers and very warm weather, and the result is that the crops are now well advanced and in fine condition.

The wheat is the remnants of the Blue Grass seed crop harvested are very patches of barley recently. The Blue grass seed yield this year has been the largest in many years, and the seed is in good demand, selling from 90 cents to $1 a bushel in some places the yield is less than last year, but generally 1922 has been a record year in this business.

The hay crop promises an early harvest across probable as the grass is now ripening rapidly. Farmers are confident that the wheat crop will be a good one. The stand is very thick in most fields and the heads are well filled.

The farmers are particularly well pleased with the start the tobacco crop is making. Transplanting has kept the ground in season for setting. Many tobacco plants have started growing almost as soon as transplanted. The stand is unusually good, and it is said that in many fields an almost perfect stand is secured on the first setting. The acreage of tobacco is a large one, and if weather conditions remain favorable throughout the year, it is entirely possible that a near-record crop will be harvested.

The corn crop is progressing well, and in some cases has been plowed twice.

ONLY FIVE DAYS LEFT TO SOLVE MERCURY PUZZLE

Few Hours Work All That Is Required. However, Send In Answer And Win Put of Gold

HUSTLE FOR SUBSCRIPTIONS!

"A swarmed bees in May
Is worth a load of hay."

So made a proverb old;
But a swarm of $5 in June
Is worth more by far.

May win a pot of gold.

The contest closes June 20, and will see the close of one of the most interesting puzzle contest ever conducted by The Mercury, when our Bee-Hive Puzzle contest closes. We have been flooded with answers the past few days and have added several orders to our list.

Of course it is not necessary to send in subscriptions with your list of words, but it seems to us that extra piece of $25 is worth the little trouble it would take to secure two new subscribers. We hope you will make a determined effort to get in another name or two before the contest closes.

Remember the prize is for the person getting the largest number of words. Should you have the winning list Tuesday to open a large department store.

Mr. Gordon has been in business in Carlisle for the last seven years and has made many friends, who will be glad to see him and his family leave. He carries a complete line of men's furnishings and has decided that he will apply during the remainder of his stay in this city to the end that he may be honorable and trustworthy in his dealings with the public, and we believe he will conduct a business that will prove a credit to the town.

The article from the Banner follows:

Lgonder to have a big department store.

Gordon Brothers of Kentucky will have a store in the Grace store building, have closed a lease for the three story brick store room on South Court street owned by A. B. Mier and formerly occupied by J. L. Levy & Son, and will open for business July 15.

The contract calls for important alterations and changes in the building. The outside of the structure is to be stuccoed the interior remodeled and changes made in the furniture and fixtures arrangements and a new, modern glass front installed.

The changes in the building call for a very large outlay of cash, but as the lease runs for a period of ten years with additional privileges Mr. Mier feels justified in making the outlay.

It is understood that a large assortment of new and seasonable goods and a big department store will be put in and a special effort made to attract the trade to Ligonier from long distances with the hope that it will become a permanent institution in all lines.

Owing to the fact that Gordon Brothers have two other large stores their buying facilities are unsurpassed and at a lower price than the usual dealer is pointed out.

Both the first and second floors and basement of the big building will be used for selling goods and everything usually found in an up-to-date department store will be carried in stock.

The Kentucky stores are located in Lexington and Carlisle.

Gordon Brothers come well recommended as live merchants and will use the advertising columns of the Banner extensively and we predict success for the public and to introduce themselves.

Negotiations are on between Gordon Brothers and the Banner for five inch contracts of a permanent nature. The advertising will continue indefinitely as these merchants realize the value of it and are not bent to reach the buying public through the columns of the local paper.

The deal for the lease of the Mier room was closed Saturday and the repairs on the building will begin at once.

MISSIONARY SOCIETY ELECTS NEW OFFICERS

The Woman Missionary Society of the Christian church held its monthly meeting at church last Wednesday afternoon. A large crowd was in attendance. At this meeting the annual election of officers was held and the following officers were selected: Mrs. C. H. Fisher, president; Mrs. Taylor Mathers, vice president; Mrs. Harry Hocking, secretary; Mrs. W. W. Palmer, treasurer.

DIED IN OKLAHOMA

Older citizens of Salem-on, Flemingsburg and Nicholas counties, will remember Mrs. Ellen Gallaher, who married with several relatives in Oklahoma many years ago. Mrs. Gallaher died a few months ago, aged over 80 years. She was a most estimable woman and had a wide circle of relatives and friends throughout this section who will regret to hear of her death.—Mt. Olivet Tribune-Democrat.

LOCAL MAN IS HONORED AT BANKERS ASSOCIATION

Henry M. Potts Elected President at Group Nine of Kentucky Bankers Association

MEETING HELD IN CYNTHIANA

The annual meeting of the sixth and ninth districts of the Kentucky Bankers Association was held in Cynthiana last Wednesday. The session were held at the Bohn Theatre. At noon the visiting bankers were guests of the Cynthiana bankers at a chicken dinner served by the Parent-Teacher Association.

Mr. Henry M. Potts, cashier of the Carlisle Deposit Bank, was elected president of the ninth district association. Potts was vice president of the association last year. Other officers for this district were elected as follows: A. B. Stone, Cynthiana, vice president; Ashland Hall, Paris, secretary; J. E. Pollock, Falmouth, treasurer; Frank Chambers, Cynthiana, executive committee.

About 100 persons attended the meeting, among whom were the following Carlisle people: Mr. and Mrs. Harry Hocking, Mr. and Mrs. Henry Potts, James W. Parrish.

POPULAR MERCHANT TO LEAVE HERE NEXT WEEK

The following article is taken from the Ligonier, Ind., Banner, to which town Mr. Joseph Gordon will move. He has many friends, who will be glad to see him and his family leave. Mr. Gordon has been connected with the people of the people of Ligonier to a marked extent and has always proved to be honorable and trustworthy in his dealings with the public, and we believe he will conduct a business that will prove a credit to the town.

The article from the Banner follows:

Ligonier to have a big department store.

Gordon Brothers of Kentucky will have a store in the Grace store building, have closed a lease for the three story brick store room on South Court street owned by A. B. Mier and formerly occupied by J. L. Levy & Son, and will open for business July 15.

The contract calls for important alterations and changes in the building. The outside of the structure is to be stuccoed the interior remodeled and changes made in the furniture and fixtures arrangements and a new, modern glass front installed.

The changes in the building call for a very large outlay of cash, but as the lease runs for a period of ten years with additional privileges Mr. Mier feels justified in making the outlay.

It is understood that a large assortment of new and seasonable goods and a big department store will be put in and a special effort made to attract the trade to Ligonier from long distances with the hope that it will become a permanent institution in all lines.

Owing to the fact that Gordon Brothers have two other large stores their buying facilities are unsurpassed and at a lower price than the usual dealer is pointed out.

Both the first and second floors and basement of the big building will be used for selling goods and everything usually found in an up-to-date department store will be carried in stock.

The Kentucky stores are located in Lexington and Carlisle.

Gordon Brothers come well recommended as live merchants and will use the advertising columns of the Banner extensively and we predict success for the public and to introduce themselves.

Negotiations are on between Gordon Brothers and the Banner for five inch contracts of a permanent nature. The advertising will continue indefinitely as these merchants realize the value of it and are not bent to reach the buying public through the columns of the local paper.

The deal for the lease of the Mier room was closed Saturday and the repairs on the building will begin at once.

MISSIONARY SOCIETY ELECTS NEW OFFICERS

The Woman Missionary Society of the Christian church held its monthly meeting at church last Wednesday afternoon. A large crowd was in attendance. At this meeting the annual election of officers was held and the following officers were selected: Mrs. C. H. Fisher, president; Mrs. Taylor Mathers, vice president; Mrs. Harry Hocking, secretary; Mrs. W. W. Palmer, treasurer.

Mrs. L. T. Hamm was leader of the meeting and a very interesting program was rendered. Twenty-three members were present at the meeting.

SUPERVISORS TO HOLD FINAL SESSION TODAY

The final session of the Nicholas county board of tax supervisors will be held today, the board having convened Tuesday to hear complaints from taxpayers whose property valuation had been increased.

The total assessment last Friday after raising the value of property in Nicholas county about $352,000 as required by the State Tax Commission. This will bring Nicholas county's assessment up to the $700,000 additional levied by the Tax Commission. A session of the board was held several weeks ago when $500,000 more was added to the taxpayers of the county.

After this meeting County Judge Tilton and several other citizens appeared before the Commission at Frankfort asking it to accept this raise. The Commission was firm in its first order, however, and the local officials here that unless the entire $700,000 raise was made the county would be re-assessed.

Notices were given to 619 tax payers to appear before the board at this work to show cause why their assessment should not be increased.

The majority of the 619 persons invited to appear before the board, it is said, are owners of the diamonds who have either not listed their jewels at all or had listed them below the value placed on them by the board of supervisors. Several thousand dollars will be added to Nicholas county's taxation through this source.

TENNESSEE FARMERS VISIT NICHOLAS COUNTY

Lexington, Ky., June 13.—According to a booming prosperity, and are manufactured goods found a ready sale. It was during this year that the great rope walk and bagging factory of Bell, Bradley & Murray was built and in successful operation. It was during this year, too, that Price & Co. began the building of his cotton factory.

The Board of Trustees at that time was made up of the following officers: Dr. Thos. Dougherty, William H. Russell, Greenberry Ross, Thomas M. Scott, David and William Bullock. It was a notable fact that for twenty-four years all of our history only the very best men, men of judgment, and unquestionably holders at that, were elected to the Board of Trustees.

The Board met on the 3rd Monday in January, another Board would be elected. It was the duty of the Board of Trustees in January, another effect was buried at the wood-pilers, to look after the making of the laws, the enforcement of the law if the order was not complied with by the 1st day of the month, giving them just one week to remove their ugly piles.

As Colonel Russell was known to be a military man, and Bom Bom [illegible] the new method of selling bailey-beans and barbing it in the limit, so far as their influence was concerned.

The Tennesseans went to Frankfort and Nicholas counties, besides making inquiries in Fayette, they said.

SWIFT'S PRODUCE REPORT

Demand for creamery butter has been on a good basis through production is probably heavier at the present time than ever before. Stocks have kept well sold to dealers requiring butter for current use and for storage purposes.

Under prompt fine pasture conditions, prospects are good for production to continue for some little time.

Marketing of live hens in producing sections has been extremely heavy for the last ten days, indicating that the number of hens on farms is large, and that the laying season is about at an end, these fowls are being sent to market.

Demand for fresh dressed poultry also is good and even though the marketing of fowl should continue heavy, indications are for good prices at values to be maintained.

Receipts of eggs at this time of year is normal, but with changing weather conditions, the demand is now only fair to good in most sections.

The government report of reserve stock of eggs in storage shows June 1st this year 7,206,000 cases, as against 6,841,000 cases same time last year, a surplus of about 20 per cent. Under these conditions, it would seem that prices for fine to extra fine months should be on a seasonal basis to keep eggs going into consumption rather than sending them to storage.

YOUNG MANIAC SLAYS TAXI DRIVER IN LEXINGTON

Lathur Dean, 19 years old, former inmate of the Eastern State Hospital for the insane, was arrested and held to a taxicab shortly after 1 o'clock Friday morning attacked and killed Henry Luther, former clerk of the Board of Tax Supervisors, of Nicholas county, Ky., and Horace Metcalfe from October 1920, to December, 1921.
