GIRLHOOD DAYS IN KENTUCKY

The Mercury has received the following poem from a Nicholas county woman with the request that it be published:

Kentucky! Yes, that's the place
Our girlhood days we would retrace,
With memories fair of hickory leaf hats
And "dressed up" dolls and drowned out cats,
Of play houses built on fine, just two
To fit our dreams which are now come true.
Oh, take me back to the hills once more,
Let me live again those days of pure.

Back to the house in the edge of the wood
Where our fathers taught us to love the Lord;
And such is our fellow man be true
As he would have the others be to you?
To the days of my childhood. Loved

lost days
By lessons of truth forever taught.

Yes, back to the hills to our dear old school
Where we learned together the "Golden Rule,"
Freak ups and make ups, rivals and drove,
Cross words on slates, forgiveness and fancy,
Yes, back to it all again I say,
In memories hall let me stay.

Oh, back to the hills with their white-pering trees,
Their shining brooks and their grassy leas,
The shady lane through which we drove
And every word alive with love.
Oh, land of the beautiful and fair to see
Who would fain not dare to love with me?

Stop talking about your troubles. Take Tonlac. Hopkins Drug Co.

MURPHY TO OPPOSE CASTRILL FOR CONGRESS

Opposition to J. Campbell Cantrill, Congressman from the Seventh district and candidate for the renomination on the Democratic ticket developed when R. L. Murphy, Lexington attorney and former service man filed notice with the Secretary of State at Frankfort, Friday, that he would be a candidate for the nomination.

Mr. Cantrill filed his notification papers sometime ago. He has been a member of Congress from the district for the past fourteen years. Attorney Murphy two years ago made the race for the nomination against Mr. Cantrill and was decisively defeated, receiving an almost negligible vote.

Mr. Murphy stated he would make his campaign against the Esch-Cummins act, as a supporter of a soldiers bonus, for equal consideration of war profiteers, legislation favorable to unions and for the release of ex-former soldiers serving sentences for military offenses.

ANOTHER CARLISLE CASE

It Proves That There's a Way Out for Many Carlisle Folks.

Just another report of a case in Carlisle. Another typical case. Kidney ailments relieved in Carlisle with Doan's Kidney Pills.

W. T. Murray, ret. farmer, R. F. D. No. 2, says: "I can recommend Doan's Kidney Pills highly as the cured me of a bad attack of kidney trouble. I was in bad shape with my kidneys and I suffered with rheumatic pains. Backache kept me from doing my work. I couldn't straighten. I was so lame and sore. My kidneys acted too often. I heard of Doan's Kidney Pills and went to Hopkins' Drug Store and got two boxes. After using them, my kidneys became regular in action and the backaches left entirely. I have never been bothered since."

60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

U. S. Tires are good ones. S. T. Barlow.

TEACHERS, TAKE THE LOCAL PAPER

If you read Sheriff to "keep school" the local paper is not essential. If, on the other hand, you are in the habit of reading the paper (and therefore a leader) the local paper is one of the tools that you must have.

You should supply the pupils from this living water and not from a stagnant pool. In this school you need the local paper with its live, up-to-date civics, geography, current events, etc., etc.

Then, too, you must remember that these times are not the ones you or those who will take the time to cooperate with you in the editor of the local paper. He is not necessarily, as he would have chosen another calling; like you, is interested in every thing for the good of the people. He may make mistakes, probably will, but his heart is in the right place. He is anxious to do every thing possible for you and your pupils. He is a way back number, often overworked and underpaid.

When you arrive in town you should let everything go until you have looked up the editor and given him your subscription and assured him of your desire to see that support that you owe to your best friend. You may be broke. Tell the editor. You will get his sympathy. You have been there more often than he. The editor will gladly wait longer than to send the paper until you get a check.

Should you have a bad community get the paper and subscribe for the local paper. You may rest assured that a small per cent of such communities take their paper.

Then you will show your leadership by co-operating with the most influential factor of your community, —Kentucky School News.

ALLOWANCE ENDS JULY 1 FOR PAUPER IDIOT'S UPKEEP

Kentucky will be face to face with a serious problem when it comes to the appropriation for the maintenance of every pauper idiot in the State will lapse. What will be done with these public charges no one seems to know but all agree that the situation will be a serious one.

It is figured that there are approximately 2,000 pauper idiots within the state and the appropriation for burial these unfortunates have been supported by the State allowance of $75 a year for each pauper idiot. This will end July 1 and the appropriation for the idiot who must be approved by the county court.

Four years ago the Legislature undertook to improve conditions among the pauper idiots by providing a maintenance scheme whereby they would be segregated and housed on a State farm and provided with scientific treatment. Such a bill was passed and the farm for the idiot colony purchased but owing to the depleted

ALMOST TIME TO PLANT SECOND POTATO CROP

The planting of Kentucky's second crop of potatoes will begin about July 10 and continue throughout the month, according to A. J. Olney, potato specialist at the College of Agriculture. The Bill Moore, Green Mountain and Rural Russet varieties are best planted as late as August 1 or even later if grown for seed, says Mr. Olney.

Planting the spuds on a piece of soil that has not grown potatoes for two or three years has been found to be a good practice in increasing the average yield. To avoid the risk possibility of the potatoes becoming scabby. It is advisable to plant second and do the initial harrowing at least two weeks before planting time.

In order to allow the tubers to get into growing condition, the seed should be taken off storage about two weeks before planting. The best seed pieces are medium sized and free from scabs and rot. Cut the seed for from one and one half to two inches before it is cut in a section made of four ounces of corrosive sublimate and 30 gallons of water, mixed in anything but a metal container, is an extra precaution against these diseases. Care is a must in handling the solution, as corrosive sublimate is a deadly poison.

After the seed is dried, it should be cut into blocky pieces with two or two strong eyes and as much of the potato with them as possible. In planting, it is well to remember that freshly mentioned soil is kept to encourage the growth of scab.

Tests have shown that it is best to drop one piece in a place, but pieces about 10 to 14 inches apart. From the time that the plants first come through until the tops cover the ground, they should be given thorough cultivation.

ALL FEES ABOVE $2,000 MUST GO INTO STATE

All fees in excess of $2,000 a year of necessary deputies and assistants, collected by sheriffs of Kentucky, must be turned into the county treasuries and go to the payment of the general county account, the court of appeals decided last Friday. The question was decided by the court, reversing the action of the Franklin circuit court, which held that Paul E. Shipp could not bring suit against Sheriff Lee Crutcher, Ben Rodes and T. C. Bradley, of Fayette county.

The opinions affects many other sheriffs throughout the State in which they will be involved, amounting to more than $3,000 a year in fees. It will save the State and counties many thousands of dollars annually.

The unnecessary fees collected are charged by the court with the enforcement of the constitutional provisions, it is its opinion. It says that sheriffs are required to make reports to fiscal courts and through them to the state accounting of his office can be obtained.

THE LOCAL PAPER

Then you must remember that these times are not the ones you or those who will take the time to cooperate with you in the editor of the local paper. He is not necessarily, as he would have chosen another calling; like you, is interested in every thing for the good of the people. He may make mistakes, probably will, but his heart is in the right place. He is anxious to do every thing possible for you and your pupils. He is a way back number, often overworked and underpaid.

When you arrive in town you should let everything go until you have looked up the editor and given him your subscription and assured him of your desire to see that support that you owe to your best friend. You may be broke. Tell the editor. You will get his sympathy. You have been there more often than he. The editor will gladly wait longer than to send the paper until you get a check.

Should you have a bad community get the paper and subscribe for the local paper. You may rest assured that a small per cent of such communities take their paper.

Then you will show your leadership by co-operating with the most influential factor of your community. —Kentucky School News.

PUBLIC SALE.

As Administrator, with the will annexed, of the estate of Mrs. A. J. Thomas, deceased, I will, on SATURDAY, JULY 8, 1922, AT 10 O'clock, A. M. on the premises of the late F. A. Thomas, at public outcry, to the highest and best bidder the following property:

Of the 229 families occurring in railway passenger travel during the year 1920, 5 were killed through a cause in which the individual himself was responsible, 1 in a chain of circumstances. For example, 1 person was killed falling from a car from coach steps, 18 by [illegible] moving trains, 64 by being struck or run over, and 136 met their death by deliberately jumping from trains while seemingly deranged or to escape penal servitude. More startling still is the fact that 6 passengers were killed and 1,299 injured in getting on or moving and stationary trains.

One seated inside a railway car or traveler is in about the safest place in the world, and it is general by his own acts in gaining or leaving such position that causes any substantial hazard. Notwithstanding the wonderful safety of passengers on the railways of the country, it is in the power of each of the 35,000,000 travelers carried annually to make himself still more safe by being careful.

"It is one recitative that does not have to be learned by heart," Thomas have said it about Tantlee and a will you if you try it. Hopkins Drug Co.

IS SHE A CANNIBAL?

A want ad by an exchange paper reads: "Lady living in private house would like gentleman for breakfast and lunch."

condition of the State treasury funds were not available to provide the necessary buildings and thus the utilization project stands at the present time.

FACTS ABOUT THE STATE

Jefferson county officials, who are under salary and turn all fees into the state, reported $268,431.21 in collection in the state auditor for the fiscal year ending June 30, 1921. Expenditures totaled $167,159.90, leaving a balance for the state of $126,-295.61. The duty and interest on collection.

The 1917 Kentucky state law provides that failure to list notes for taxation shall be a complete defense against paying them. It also provides, however, that the owner of the notes can pay all back taxes due on notes and thus remove the bar to recovery.

No organization, organized under the Kentucky law, can begin business as such until a charter has been issued by the secretary of state. The articles, first however, must be filed with the county clerk.

The largest coal tipple in the world is located at Lynch, Ky., and is capable of handling 10,000 tons of coal a day. It cost $1,250,000 to build.

The state received from fees and
