The Auto Your Church?
This is such a fine day, suppose we take the car and go on to Elmhurst for a visit—and the church for that Sunday is left to itself.
This is not your idea of supporting the best and our community has. But many persons do an aside, ahead of church attendance.
The Church Needs You
The pulps and the press are the two great upholding forces in every community. You wouldn't care to live in any town where either was absent. Suppose everyone gave the church the support you do—in tone and money. How long would it keep aloft?
You have a definite responsibility to support some church. It is helping you whether you know it or not.

Fresh Fruits and Vegetables
The demand for Blue Bird Bread has steadily increased ever since we marketed this excellent loaf proves conclusively that it is just the sort of bread people want.
It has that appealing taste, that appetizing look which just makes you like it—and keep on buying it.

No One is Perfect
Ever have the idea you are not good enough to join church? Forget it! No one is perfect, but every Christian is striving toward perfection set by Jesus Christ. Take one step at a time.
Attend church services regularly. Study the Bible at home and in Sunday school. Perhaps you attended Sunday school years ago. You still need the same old Bible. It has a message for you and your children. Come to Sunday school and church.

THE WELL DRESSED MAN

Does not necessarily have to pay more for his apparel, than the man who dresses indifferently—not if he patronizes Mabley's.
Our policy of distributing only clothes of quality is well known to manufacturers and the high standard we insist upon places us in touch with the best native products.

TIBETAN MENU NOT VARIED

These are the things that you eat in Tibet. The Tibetan diet is very simple and consists of a few staple foods. The Tibetans eat a great deal of butter and cheese. They also eat a great deal of meat, especially mutton and beef. They eat very little grain.

How Do You Figure It?

Suppose you have an invoice to extend, or an estimate to make, how do you figure it?
Do you run the risk of making mistakes in figuring—mistakes which let big holes in your profits?
Do you rely upon the accuracy of machine figuring to save you against loss?
You can add, subtract, multiply and divide on Burroughs' Calculator much quicker than you can perform the same operations on a scratch pad. And you know the result is right.
You must figure—why not figure right.

WORD CHANGED IN MEANING

When Shakespeare called the "To be, or not to be" soliloquy a "Hamlet soliloquy," he was using the word "soliloquy" in its original sense. But in modern times, the word has changed in meaning. Now it is used to describe a speech made by a single person to himself.
