PUPILS MUST BE VACCINATED

Louisville, Ky.—All County Public Health Officers and all County School Superintendents in Kentucky during the last week were instructed by the State Board of Health, Dr. A. T. McCormack, State Health Officer announced here, to see that the law governing vaccination in relation to school is complied with.

The rule of the State Board of Health, given the validity of statute law by decisions of the State Court of Appeals, is that no person shall participate in school exercises, either as pupil or teacher, who has not been vaccinated.

This instruction to public health officers and school superintendents, according to Dr. McCormack, has been necessitated by the fact that in the past there has been some resistance to the vaccination of both school children and teachers. Through its enforcement this school year, he said, the State Board of Health hopes materially to reduce the number of cases of smallpox that break out in the State.

WORN NERVES

Nervous troubles, with backache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors. Ask your physician.

Mrs. E. A. Thomas, 490 E. Main street, says: "Some years ago I had an attack of kidney trouble and rheumatic pains. My knee joints swelled and got painful. I was miserable with backache at times and I had dizzy spells and had to grasp something for fear of falling. My kidneys were weak and unnatural and I felt tired and nervous. Doan's Kidney Pills were recommended to me so I went to the Pioneer Pharmacy and got three boxes. After using them, my kidneys became healthy and regular in action, and the other trouble left entirely."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Thomas had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

In 1877

We established in Cincinnati a store founded upon the principle of truth, honesty and courtesy. It flourished.

Then in 1889—We built a building which at that time was considered the last word in modern store buildings.

Again in later years—We improved and reconstructed the interior of this building until at this writing, it is one of the most modern business blocks in this city.

That is only part of the story—Our merchandise is always the most trustworthy—our service the best that may be given — our prices reasonable. Men, women and children can procure here every thing desirable in things to wear.

The rest, reading, writing and checking rooms are established for your complimentary use.

PUBLIC SALE!

SPLENDID CARLISLE RESIDENCE AND BUSINESS PROPERTY

On SATURDAY, SEPT. 30, 1922, at 2 P. M., I will offer at public auction, all my real property in Carlisle, as follows:

NO· 1 My splendid 2-story residence at the corner of Locust and Mulberry streets. This house has 8 or 9 rooms, very splendid bath room with hot and cold water, splendid hot water heating system, both city water and large cistern, hard wood floors, new roof that cost me $570; every convenience and everything in first-class condition; large garden or building lot which buyer may take for leave. Absolutely one of the best, most convenient and best located residences in Carlisle.

NO. 2 My brick office building on Locust street, opposite the Court House, now occupied as follows: Dr. G. T. Cowan and The Bryson Farm Agency on the first floor, and Cumberland T. & T. Co., on the second floor. This property will be sold subject to the rent contracts of Dr. Cowan and Telephone Company.

NO. 3 The 7-room frame residence on Locust street, two doors above my office building, now occupied by Mr. Will P. Ross. This is the best liked location to be found anywhere. Cistern water-force pump in the kitchen; next door to Dr. Dills' office on one side and Mrs. T. H. Pickrell on the other. I lived in this house 16 years and never knew anybody who lived in it to want to move out of it.

I am offering these properties for sale because I WANT TO SELL THEM. I owe some money that I want to pay, therefore these properties MUST SELL. I will say that but for the fact that I owe some money, I would not sell either. I recognize the fact that this is not a propitious time to offer property at public auction, but it has been a matter of pride with me that if I owed money, the creditor could get it, and 100 cents on the dollar; so the property is FOR SALE-- COME BUY IT; and if in buying it you get a bargain, that will be your good luck and my bad luck. But-- they are up to sell.

VOL. LV. CARLISLE, NICHOLAS COUNTY, KENTUCKY, THURSDAY, OCTOBER 5, 1922. NUMBER 40

COMMENT

The "knickerbocker" craze has reached Carlisle. Two damsels, of either, appeared on the streets this week, clad in this "manly" garb.

Jim Allen says:

We Kentucky Presbyterians are engaged in putting over a million dollar educational proposition and now is the time to prove our great doctrine that what is to be will be whether it ever comes to pass or not.

If the gathering to celebrate to the founding of the Carlisle Christian church this week fails to break the drouth that old gag about the fondness of this sort for water will have to be relegated to the limbo of dead jokes, along with jokes about prohibition and Hollywood.

The gallon of cider a friend presented to the architect of this office last week was disappointing within the limits of the Volstead law as to "kick," but we'll tell the weary world that it hid within its amber depths a two-fisted ache that was more than one-half of one percent!

Que. "Will you kindly give derivation of the word term 'Realtor' as copyrighted by a sect of the real estate agencies of the U. S. A.—"

Ans. "The word 'Realtor' comes from the English word 'real' meaning property and the Spanish word 'tor' meaning 'bull.'"—Ex.

Ans.: the derivation of the word "realtor," about which we have made elsewhere in this column, we want to state, here and now, before anyone is purveyor of real estate reminds us of the fact, that we know the word "bull" is derived from "taboo," to put forth, but "or" in one of its meanings is derived from "warrior" of golden Homer, to put forth golden thoughts.

Physical therapeutists convening at Chicago have discovered a new definition—"Auto foot" and "limousine foot." The fellow who bought a car during the halcyon days of "easy money," and who still persists in holding on to it like grim death, knows that he suffers more from "auto-pocketbook" than from either of these two diseases the therapeutists have located further down the leg. Ask the man who owns one.

Several cases of diphtheria have been reported in Carlisle and the county. In avoiding an epidemic, it is the opinion of The Mercury that an ounce of prevention is worth a pound of cure. Prevention of contact with those who have the disease is important. Keep your children away from houses where the disease exists. Do not let them play with children who have been exposed to the disease. Be sure your family physician in regard to measures of precaution.

A man with bad judgment started a paper in a strange town, was interrogating one of the local citizens as to what response to be expected from the citizens. "Now, there's Deacon Brown," he said, "he has the reputation of selling lots of hardware. Would he be likely to patronize my paper?" interesting?" "Waal," drawled the native, reflectively, "I wouldn't exactly say that he'd go to hell for a nickel, but he'd fish around for it a little bit."—Hinsdale, (Ill.) Citizen.

Mrs. Millard Farthing, of Madison county, was drowned at Pounsboro beach Sunday afternoon when a motor boatmate which she was learning to drive got into deep water and overturned, the Louisville Herald says.

Officials in Central Kentucky have been asked to be present when Dr. Eugene Glen and Herbert Roberts, two sixteen year old boys, who ran away from their home in Maysville last week.

In Woodford county Sunday afternoon, Sheriff Frank Dickson and two other men were injured when an automobile in which they were riding collided with a buggy. None of the occupants of the buggy was injured.

M. F. Mullen, Christ county farmer, was beaten and robbed of $175 by two bandits on a highway in an automobile last Saturday night. Citizens of the community have offered a reward of $25 for the arrest of the two men.

Administrators of Mr. and Mrs. Henry Belew, who were fatally burned at Kentville, Trimble county, several weeks ago when an oil stove was exploded, have filed suit against the Standard Oil Co. for $95,000, alleging that coal oil sold to Mrs. Belew contained 25 per cent gasoline.

Ike Miller, wealthy Fayette county citizen, was given a fine of $200 and sentenced to 90 days in jail in federal court at Frankfort last week. While being taken from Clark county jail to serve his jail sentence Miller escaped from his guard at Winchester but was captured on his farm the next day.

During April, May and June $77,495 worth of property was seized by prohibition agents in Kentucky, according to a report made public Saturday. The property included automobiles and equipment seized. During the same period 173 moonshine outfits were seized, 235 arrests made, 4,208 gallons of whisky seized, 54,228 gallons of beer and 10,514 gallons sour mash poured out.

SWIFT'S PRODUCE REVIEW

Receipts of poultry, especially of spring chickens, continue to show an increase, which is seasonal. Receipts of the large supply, prices have declined somewhat. Individual quality is a very large crop to be marketed the next three months.

There is a light supply of fresh eggs and the price tendency is upward. Fine quality of better grades is in good demand top prices.

Creamery butter production shows a slight increase in some sections on account of better pasture conditions. A good demand prevails and the market is steady.

A DAY LATE

A bunch of football fans, headed by Sup't. Grinnell, of our High School, have been trying to get a game of football game between Carlisle and Paris, but when they got there they found the game had been played the day before. We hope they may always get as lucky left on the football program for the coming season.—Flemingsburg Times-Democrat.

The games was played at Paris.

J. T. Tucker, who for the past 19 years has been manager of the Maysville Life Insurance Co., at Paris, has resigned.

WALKS 15 MILES EVERY WEEK TO KEEP UP STUDIES

It's the last two miles that are the hardest, according to Miss Maggie Reynolds, Clark county school teacher and Lexington College of Music student who walks to Winchester every Saturday morning to take a bus to Lexington, where she is enrolled at the extension class in Spanish at the University of Kentucky.

Miss Reynolds would not mind walking five miles to reach the bus, but the remainder will be rained hard for winter weather, altho nothing is too much trouble or too hard to do in order to get an education, she says. She is working for a degree from the University of Kentucky, taking correspondence courses in addition to the Saturday Spanish class and has attended some summer schools.

Her home is in Nicholasville, but she teaches a Clark county rural school all week, and walks the seven and one-half miles back to her country boarding place Saturday afternoons after returning from Lexington. —Lexington Leader.

LITTLE BOY SCALDED TO DEATH IN BOILING WATER

Our Ewing correspondent sent in the following:

Infant Preston Buchanan, aged four years, died at the home of his parents, Mr. and Mrs. A. M. Buchanan, at noon Saturday from burns received Friday morning when he fell into a bucket of scalding water. Burial took place at Mt. Tabor Sunday afternoon.

BIG FIRM DECLARES FOR NEWSPAPER ADVERTISING

The marked success of last season's advertising in daily papers all over the country has resulted in The Globe-Wernicke Co., of Cincinnati, makers of sectional bookcases and office devices, deciding upon a repetition of that campaign through their dealers and branches.

The Globe-Wernicke Co. found that advertising in the local paper, in their own home city, was the only way where interested parties could see and read the copy, produced results and satisfactory results.

Also the public was better served and benefited by having its attention called to modern and progressive devices and the local dealer handling them.

The decision of this company, the largest of its kind in the world, is but the strong endorsement of local newspaper advertising.

OBSERVANCE OF FIRE PREVENTION WEEK URGED

Governor Morrow issued a proclamation calling upon the people of Kentucky to observe the fire prevention week beginning October 8. "Reliable statistics demonstrate that millions of dollars' worth of valuable property is annually destroyed through carelessness, lack of inspection, want of foresight and proper care in preventing unnecessary and needless fire losses," the proclamation stated.

THREE HORSES STRUCK BY LIGHTNING; DRIVER ESCAPES

During the electrical storm in Bourbon county last Thursday afternoon, three horses belonging to Ben T. Lambert, of this city, whose farm is on the Jacktown pike, a few miles out of Paris, were struck by lightning while pulling a wheat drill.

The horses fell in the same direction as they were hitched. Two of them were killed. A few minutes later E. W. Stone, tenant on the farm, who was driving the horses, noticed one of the animals flinch as a fly lighted on it. A short time later it got up and was driven to the barn. This horse has recovered from the shock.

Mr. Stone, driver of the horses, miraculously escaped injury. The wheat drill was not injured.

CARLISLE CHRISTIAN CHURCH
The present building was dedicated on June 3, 1890. The sessions of the Centennial celebration will be held here.

OLD CANE RIDGE CHURCH TO BE MADE A SHRINE

A record estimated at approximately 2,500 gathered at the old Cane Ridge church, Bourbon county, last Friday morning to pay tribute to the memory of Barton Warren Stone, forerunner of Alexander Campbell, recognized founder of the Christian denomination.

The program was launched formally to raise $20,000 to convert the old Cane Ridge church into a permanent memorial for Barton W. Stone. It is proposed to restore the church to its condition of 120 years ago and then erect a larger building to enclose the old structure.

Already $2,200 has been subscribed and the remainder will be raised through a national campaign.

CARLISLE HIGH ELEVEN DEFEATS NICHOLASVILLE

LOCALS OUTPLAY JESSAMINE COUNTY LADS TO SCORE OF 25 TO 0

TO PLAY VERSAILLES FRIDAY

The local gridders redeemed themselves Friday for the defeat of last week by trimming the Nicholasville eleven 25 to 0.

At no stage in the game was the locals' goal in danger and opportunity was given to try out every one of the eleven candidates who were battling.

The game began with Carlisle kicking to the Nicholasville who was thrown back and elected to receive. The visitors failed to gain and the first quarter of the field and by a succession of line plunges and end runs the first downs were gathered. At this point Nicholasville braced and held after a fight and held the opposing team for downs. Then began a steady march down the field; Smathers and Simms alternating the ends for gains or Reed or Pedrach smashing through tackle. In five minutes after gaining possession of the ball Smathers went over for the first touchdown. Bryson failed in an attempt to add an extra point by a field goal.

The second quarter was very nearly the repetition of the first, the local team holding for downs and then working down the field securing their opponents before them, who were fighting desperately but were unable to penetrate the locals' defense to any consideration and its completion.

Mr. Moore instructed among the false propaganda and against the assertion statements of "high salaries and heavy expenses" and declared that, "as a matter of fact the cost of marketing the bulwark of members of the association has been constantly less than it cost the cotton growers to sell their tobacco over the loose counters."

ENROLLMENT AT E. K. S. N. SHOWS INCREASE

Enrollment at the Eastern Kentucky State Normal School shows a 20 percent increase in quantity and quality of the student body this year over any year before. Twelvhire of these students are high school graduates and will be in the college department of the institution. One-third will be in the normal department. Many of the students are returning complete the necessary work to secure the state diploma, while others are here for the first time.

The total number now enrolled per one semester-of twenty weeks, instead of the usual ten weeks, is 1,200 for the entire year with many others coming in at the beginning of the next semester.

Miss Cathryne Whaley is the only student registered from Nicholas county.

SLATER FORMER LOCAL MAN IS ACQUITTED

Burnal Sparks, who shot W. D. Atwater on June 25, at the Sparks home near Amelia Ohio, was tried last week at Batavia, Ohio, a verdict of acquittal being returned.

Sparks was a tenant on the farm of Mr. Auxier and following a difficulty over the distribution of crops, Sparks shot Auxier in the hip with a shotgun, from the effects of which he died several days later.

Mr. Auxier was a brother of Fred Auxier, well known farmer of the Jacktown vicinity, this county.

Over $200,000 has been subscribed to the Kentucky Presbyterian educational drive for $1,000,000.

BURLEY ASSOCIATION NOW HAS OVER 70,000 MEMBERS

LAST PAYMENT ON 1921 CROP TO BE MADE WHEN ALL LEAF IS SOLD

POOL TO CLOSE NOVEMBER 6

According to figures of the field service division, the Burley Tobacco Growers Cooperative Association had 70,000 members on its rolls on the first day of October and is planning an active campaign for the month by which it is expected to add 5,000 more members to the association, closing with an intensive drive the last week of the time given outside growers in which to sign—October 30 to November 6.

In a statement to members of the Burley Tobacco Growers' Cooperative Association, which was made public at the offices of the association last Saturday night, President and General Manager James C. Stone, said that the final payment on the tobacco on the basis of the association would be made when the tobacco is sold; called attention of the members to the fact that "this is your association," and urged them not to permit those who are opposed to the cooperative marketing of burley tobacco to attack the association in their presence.

President Stone also told the growers who are members of the association that they were entitled to and could obtain at the offices of the association, said information that might desire in regard to its affairs and that it was not only their right but their duty to inform themselves, so that they might be able to refute possible false statements in regard to the association and its condition.

Mr. Stone mentioned among the false propaganda and against the association statements of "high salaries and heavy expenses" and declared that, "as a matter of fact the cost of marketing the tobacco of members of the association has been constantly less than it cost the cotton growers to sell their tobacco over the loose counters."

Outstanding interest bearing warrants against the state increased $599,372 during September, according to announcement by Auditor J. C. Craig Monday. Interest bearing warrants against the state now total $6,145,118.11.

BANK DEPOSITS PER CAPITA ARE $184.97

The bank deposits per man, woman and child in the state, and also in Nicholas county are $184.97, as revealed with the publication of the September 30 statement of the banks in this county.

The total deposits of the four banks in Nicholas county on September 13 were $1,295,000.00. Since the per capita wealth of the United States is less than fifty-five dollars, the per-capita bank deposits of Nicholas county show individual wealth far in excess of the average wealth.

This is the period of the year when bank deposits are likely to be below normal, as farmers spend a great deal of money at this time of year with no revenue coming in from the principal crop, tobacco.

CARLISLE BAPTIST CHURCH ORGANIZED FEBRUARY, 1819

REV. WALTER WARDER FIRST PASTOR LOCAL CHURCH. HAD 17 MEMBERS

COURT GROVER FORMED 1846

(Continued from last week)

Among pastors who served the Presbyterian church after Rev. Rankin were: Rev. Solomon G. Ward, Rev. Mr. Connaughlay, Rev. W. Y. Allen, Rev. James Matthews, Rev. James P. Hendricks, Rev. G. R. Adair, Rev. Carson, Rev. John Rule, Rev. H. M. Scudder, Rev. P. D. Thomas, Rev. Anton Vervillet, Rev. S. B. Lander and the present pastor, Rev. R. B. Hestir. While this list is no doubt incomplete, especially concerning earlier pastors, it contains the names of the greater portion of them.

During the early years of the church meetings were held in the court house. This continued to be the case until 1820 when the Presbyterians and Baptists of the town and county jointly built a substantial house of worship, which they occupied alternately and until 1879, when, the house being no longer safe to use in the, the Presbyterians bought out the Baptists and remodeled the old structure, indeed almost replaced it, with a new building of modern taste and beauty at a cost of about $7,000.

The church was remodeled largely through the efforts of Dr. H. M. Scudder, who served the church for nearly half a century, and on September 5, 1909, the new building was dedicated, the dedicatory sermon being preached by Rev. Hestir. Mention should also be made of the work of the Welch Sr. Fay, Mrs. Mary Ann Hall and Mrs. Jane Bowen, who were the leaders in the movement to secure the present building.
