PROCLAMATION!

At a meeting of the Nicholas County Health Board, held in the office of the County Judge of Nicholas County, on October 3rd, 1922, the whole Board being present, it was ordered on account of the prevalence of diphtheria, in the County, and the malignant form of such cases as have developed, and the deaths that have resulted therefrom, that the public be notified and warned against crowds gathering or congregating upon the streets, or in stores or public places in the county; further, public gatherings, however, not being at this time prohibited, but are urgently advised against.

All heads of families with children are warned to keep the children off the streets, and from public places; and also to keep a constant watch upon the throats of the children, and their general welfare, and to require that their children come directly home from school, and go directly to school from their home without stopping upon the way to mingle with other people. Upon the first evidence of sore throat, or fever in the child, the family physician should be at once consulted, and an examination made, and preventative remedies administered.

School teachers are directed to require the children to go directly home from school, and also to watch over fully the physical condition of the child in school, and to send any child who evidences the slightest illness, especially in regard to the throat. This disease, on account of the weather conditions, is calculated to spread, and is spreading, and the only way to stop it is for everybody to be careful, and take care of their own, because it is nearly certain death in every case.

Done by order of the Board.

NOTICE TO CREAM SHIPPERS

I wish to inform my patrons that I am still paying the highest market price. It seems that the public was given to understand Saturday that I as operator for the Merchants Creamery Co., of Cincinnati, was not paying as good price as the other operators in town.

Now, one and for all, please remember that I meet competition at all times. Last Saturday I received a two cent raise, making the price 32, which I immediately reported to the other operators, but none of them had yet generally received a three cent raise and thinking to hurt my trade they did not inform me of their price. However, right always wins. Consecutively one operator gave the thing away by paying one of my patrons and stating that she was paying 33, and also one by they had better bring their cream to her. This patron, having a sense of duty and right, came right back and told me what had been said.

I immediately investigated and raised my price. Now I wish to say to those who received 32 Saturday morning that if you will bring in your check stubs with your next can of cream I will pay you the difference. I am in the cream business to stay, and I mean to make an honest and honorable fight, but if the time should come when I cannot work on such a basis, I will get out and get out quick.

Thanking all my patrons who have stood by me so loyally and asking for a continuation of the same, I am, yours for service,

Lillie Collins, operator
