FORDSON TRACTOR

On Thursday, March 1st, we will have a Tractor man from Ford Motor Co., at our place, and we would like for every person in the county who is interested in a Tractor to come in and let him explain the Fordson in detail to them.

Now is the time to arrange for your spring work, and as a money and labor saver on the farm nothing will equal Fordson.

The price, only $425 delivered, ready to work, is lower than horsepower, and with $425 you consider what can be done with it in comparison with horses, everything favors the Tractor.

FORD CARS

There will be the greatest sale this spring of Ford cars ever known, and those who delay buying now, or putting in their order to be delivered in spring will doubtless find themselves disappointed in getting delivery when the spring rush comes in. Put in your order now and make sure of delivery when wanted.

We have on hand several second hand cars, and if you are in the market for such, we would like for you to see them before you buy.

GOODYEAR TIRES

We have the most complete stock to be found in this part of the country, and it is not necessary for us to tell you about their quality, for their wear, long service and general satisfaction to the user are too well known.

An Ordinance

Franchise to furnish electricity for light, heat and power for the city of Carlisle, Kentucky.

AN ORDINANCE, providing for the Sale of an Electric Light, Heat and Power Franchise in the City of Carlisle, Kentucky, and the nature, terms and provisions thereof.

WHEREAS, the City of Carlisle, Kentucky did, on the 23rd day of November, 1914, by ordinance, duly award and grant to The Carlisle Electric Light & Power Company, a Kentucky corporation, a twenty year franchise for furnishing to the city and its inhabitants, electricity for lighting, power and other purposes; and,

WHEREAS, the said Carlisle Electric Light & Power Company is now the owner of said franchise and is the owner and operator of an electric plant and system generating, furnishing and selling electricity for light, power and other purposes in said City of Carlisle and vicinity under said franchise; and,

WHEREAS, said The Carlisle Electric Light & Power Company represents to the said City of Carlisle and to the Mayor and Council of said city, that it will require the installation of additional equipment and appliances to its present electric plant and system in order to supply the immediate and growing demand among the citizens of Carlisle and vicinity for electricity; and,

WHEREAS, the said The Carlisle Electric Light & Power Company further represents to the Mayor and Council of said City of Carlisle that said Company has secured a purchaser for its present electric plant and system, willing and able to make the necessary investment to furnish an adequate supply of electric current to said city and its inhabitants thereof; provided, said purchaser is granted a reasonable and proper franchise by the City of Carlisle for the distribution, control and sale of electric current for furnishing light, heat and power to the City of Carlisle and the citizens thereof and the citizens of Nicholas County; and,

WHEREAS, the Council of said city is of the opinion that there is an immediate need and growing demand among the citizens of Carlisle, Kentucky for an electric system that will require a considerable additional investment to the present plant in order to meet the growing demands for electricity for lighting, heating and power purposes.

THEREFORE, the City Council of the city of Carlisle, Ky., do ordain as follows:

SECTION 1.—That there is hereby created and established, a franchise to construct, maintain and operate a plant, machinery, appliances and wires for generating, distributing, furnishing and selling electricity for light, heat and power purposes, and authority to use and to occupy the streets, alleys and avenues in said city, for the purpose of distributing.

(a) The purchaser of this franchise shall publish and put into effect the following schedule of maximum rates and charges based on the cost of coal in bins at Carlisle, Kentucky, of $4.50 per ton, and maintain such supplying and furnishing said City of Carlisle and the citizens thereof and the public in general within the corporate limits of said city and vicinity, including the citizens of Nicholas County, with electricity for power, heat and illumination and such other purposes as it may be adapted, and to this end, the purchaser of this franchise shall have the right, privilege and authority to erect all necessary poles, posts, adjuncts, fixtures and appurtenances, and to stretch all necessary wires along and upon the said public streets, avenues and alleys in said city, including the right to make and maintain necessary clearance through trees: provided, however, the purchaser of this franchise, in the exercise of the same as herein indicated, shall not interfere with the pipes, mains, poles, posts, wires or fixtures of any other company or corporation in said city, erected under and by virtue of any legal permission heretofore granted by the Council.

SECTION 2.— That said franchise shall continue for a period of twenty years from and after the same shall take effect under the provisions of this ordinance, unless renewed or extended in the manner hereinafter set out. And the purchaser of same may assign or transfer it, subject to all of the provisions, terms and conditions thereof.

SECTION 3.— That the poles, fixtures, adjuncts, wires and appurtenances installed hereunder, shall be erected and maintained in a substantial and workmanlike manner, and poles shall be erected so as not to interfere with legitimate entrance to any adjacent property, or to unnecessarily obstruct the use of the streets, sidewalks or alleys for the purpose of public travel.

SECTION 4.— That the purchaser of this franchise or his successors or assigns, shall promptly replace all paving and macadamizing that may be disturbed in setting said poles and at his expense, and remove all dirt and debris that may be caused by any work done by him. All work of erecting and setting poles shall be under the supervision of the street commissioner and street committee.

SECTION 5.— That it is in the interest of the City of Carlisle, Kentucky, and the citizens thereof, as well as in the interest of the purchaser of this franchise, to definitely lay down or fix some well defined method for the guidance of the city and the purchaser, in making and publishing maximum schedule of rates and charges from time to time during the life of this franchise, and for such purpose, the city and the purchaser of this franchise shall be controlled by the method hereinafter set out, in arriving at proper and reasonable rates and charges for service has been rendered.

schedules, subject to readjustment annually in cases of increase or decrease of $1.00 per ton to the average cost of coal per annum at hereinafter explained, to-wit:

15c per K. W. H. with a minimum charge of $1.00 per month for each residence or commercial light consumer.

A rate for power of 10c per K. W. H. with a minimum charge of $1.00 per H. P. connected per month.

(b) That it is understood that the price per K. W. H. herein agreed upon, shall be subject to revision and adjustment at the end of each year, such adjustment to be made on the basis of the comparative cost of coal, taking as the standard Kentucky mine-run coal at $4.50 per ton delivered in bins at the city of Carlisle, Kentucky, and having a heating value of not less than 14,000 B. T. U. per pound of coal. Should the cost of such coal at any such adjustment period be greater than the cost herein established as the present standard, then the price for service hereunder, per K. W. H. during the ensuing year shall be increased at the rate of one mill per K. W. H. for each ten cents per ton in the price of coal above $4.50 per ton. Should the cost of such coal at any such adjustment period be less than the cost herein established as the present standard, then the cost for service hereunder shall be decreased for the ensuing year at the rate of one mill per K. W. H. for each ten cents per ton reduction in the price of coal below $4.50 per ton. It being distinctly understood that no increase or decrease shall be made in the rates due to the increase or decrease in the cost of coal, unless the change in cost of coal shall vary from said basis price of $4.50 per ton, at least $1.00 per ton increase or $1.00 per ton decrease. That in no event shall such increase or decrease raise the maximum above 16c per K. W. H., nor decrease below 11c per K. W. H.

(c) That in arriving at the cost of coal in bins at Carlisle, Kentucky, it is understood that the average cost during each and every year during the life of this franchise, at the Kentucky mines, plus the cost of freight from the mines to the City of Carlisle, plus the cost of unloading such coal at Carlisle, shall be taken for the purpose of any and all revisions and adjustments hereunder, as the average cost of coal per year.

SECTION 6.— It is understood that the city undertakes to grant all of the rights and privileges herein mentioned, to the purchaser of this franchise, for a period of twenty years from the effective date of this ordinance, but nothing in this ordinance shall be so construed as to give to the purchaser hereof, any right to claim a perpetual grant or to claim an exclusive grant.

It being understood that the purchaser of this franchise shall have the right and privilege to apply to the City of Carlisle for renewal of the privileges herein granted, at the expiration of the franchise period herein named, and the city shall, upon the filing of such application, pass a reasonable, fair and proper franchise ordinance and advertise for the sale of such franchise, imposing such reasonable terms and conditions as will permit the purchaser of the franchise, or his successors and assigns to obtain a renewal on such a basis as may be fair and reasonable to the public and the then owner of the franchise privileges herein granted.

SECTION 7.— The purchaser of this franchise, his successors or assigns, shall indemnify the City of Carlisle, Kentucky, from any and all damages that may arise from the presence of said poles, fixtures and wires upon and along the streets, sidewalks and alleys of said City, or from its failure to comply with the provisions of this ordinance.

SECTION 8.— The purchaser of this franchise, his successors and assigns, shall have the right to establish and enforce reasonable rules and regulations setting forth the conditions upon which its electric service shall be furnished to consumers thereof, and the purchaser shall have the right to purchase at any convenient and satisfactory place or places and supply the city of Carlisle and its inhabitants with electric current by means of transmission line service. And in case it should prove to be advantageous at any time to the holder of this franchise to purchase its supply of electric current, then and in that case the supply of current may be purchased: provided, however, that in all cases the owner of this franchise shall furnish the city of Carlisle and its inhabitants with an adequate supply of electric current. It being distinctly understood that nothing in this franchise shall be so construed as to require the owner of this franchise to make unreasonable and unprofitable investments in extensions at any time in order to supply service to a consumer located at any unreasonable distance from its existing lines.

SECTION 9.— The City of Carlisle agrees to purchase its entire requirements for street lighting and other public purposes from the purchaser of this franchise, and the purchaser of this franchise agrees to supply to said city electric current during the life of this franchise for street lighting purposes and other public use at a reasonable rate, and agrees to charge a maximum schedule of prices for street lighting service, as follows:

For 400 c. p. lamps, $80.00 per lamp, per year.

For 80 c. p. lamps, $25.00 per lamp, per year.

All bills for street lighting service shall be paid monthly upon bills rendered by the purchaser of this franchise, his successors and assigns, on or before the 5th day of the month following the month during which service has been supplied. Bills so rendered shall be paid by the city within five days after the first regular meeting of the Council in the month following that in which service has been rendered.

SECTION 10.—It shall be the duty of the City Clerk as soon as practicable after the adjournment of this regular meeting of the Board of Council, to advertise in one newspaper in two consecutive issues thereof, published in the City of Carlisle, Ky., and having a general circulation therein, or by printed or written notices posted in three public places in said city, that bids will be publicly received for the franchise embodied in this ordinance, at the City Hall in Carlisle, Kentucky, where the City Council regularly meets, at 10 o'clock, a. m., on Monday, January 22, 1923; and the said Clerk shall attend at said time and place and receive bids for said franchise and report all bids to the City Council at its next regular meeting, to-wit: on the first Monday in February 1923, and the said City Council shall award said franchise to the highest and best bidder; subject, however, to the approval of said City Council. But said advertisement shall reserve the right in the Council to reject any and all bids.

The bidder to whom this franchise is awarded shall pay the amount of such bids in cash or by duly certified check to the Treasurer of the City within five days after the said franchise is awarded.

The ordinance to become a law and be in force from and after its publication as required by law, and the franchise to become operative from the date of the acceptance of the bid of the successful purchaser.

SECTION 11.— WHEREAS, the Laws of the State of Kentucky provide that the contract for street lighting hereinbefore set out, shall have no force or effect until it receives the consent of the qualified voters of the City of Carlisle voting on said proposition at an election held for that purpose:

NOW, THEREFORE, it is understood that the purchaser of the franchise herein granted, shall have the right to request an election, and the city agrees, upon the filing of such a request by the purchaser of this franchise with the City Council, to pass the necessary ordinances and take the necessary steps for the purpose of testing the sense of the voters of said City of Carlisle on said street lighting contract hereinbefore mentioned. It being understood that until such time as the street lighting contract has been duly ratified by the qualified voters of said city as required by law, that the holder and owner of this franchise shall supply the said city with electric current for street lighting and other public purposes, upon contracts to be made by and between the city and the holder of this franchise annually, and the city agrees to take the necessary action to make such annual contracts valid and legal contracts, until such time as street lighting contract has been duly ratified by the voters of said city as aforesaid.

Further,

THE CITY COUNCIL OF THE CITY OF CARLISLE, KENTUCKY, DO ORDAIN AS FOLLOWS:

That the bid of the Paris Gas & Electric Company for the foregoing franchise be and the same is now accepted, and said franchise is hereby granted to said Paris Gas & Electric Company, its successors and assigns, for a period of twenty (20) years, as set out in said franchise, according to the terms of said franchise.

Witness the hand of the City of Carlisle by its Mayor, and City Clerk, this 5th day of February, 1923.

MORE THAN A RAIN SHEDDER

African Chiefs Take the Possession of an Umbrella Very Seriously, According to Reports.

Some time ago, there was what the news described as unrest in the West African colony of Lagos; telegrams were dispatched between that country and Great Britain, governors and deputy-governors were interviewed, and it was with difficulty that a native war was averted. The cause of all this commotion was an umbrella!

Now, in our country, as we all know, an umbrella is looked upon as a harmless possession—but not so in West Africa. There, among most of the native tribes, the umbrella is regarded as an emblem of royalty, and its possession is strictly confined to the chief or king of the tribe.

Therefore the indignation was intense on the part of one of these kings, when he found an inferior chief putting up an umbrella of his own. The king at once took a journey to Lagos, to lodge a formal complaint of the chief's treasonable conduct with the British governor.

An African king's umbrella is a very elaborate affair, and it often costs large sums of money. Most of the umbrellas for Ashanti and the Gold Coast are made of gigantic size, some of them when open measuring ten feet across.

The coverings of these umbrellas are of colored silk—the brighter the better, with very deep fringes. The largest umbrellas are carried over the heads of chiefs by bearers while other bearers steady the umbrella by cords attached to the uppermost parts.

One state umbrella had for its apex a silver eagle standing on two silver cannons, while another umbrella had a gold hen on the top, the hen being surrounded by numerous chickens, to represent the chief and his tribe.

CHANGES IN "OLD FAITHFUL"

Yellowstone's Famous Geyser Has Slightly Lengthened the Periods Between Its Eruptions.

Old Faithful, Yellowstone's most famous geyser, has slightly changed the period of its eruptions.

According to the observations of the park naturalist and the rangers, the geyser now spouts on an average every 64.6 minutes. Last year the average period was 65 minutes.

The alteration in Old Faithful's "tempo" does not indicate any lessening of its vigor or "faithfulness." On the contrary, Naturalist M. P. Skinner's observations show the mighty fountain to be increasing in volume. The change is believed to be due to an alteration in the subterranean tube of the geyser.

For the last year or so Old Faithful has acquired a habit of occasionally throwing out small rocks. The passage of the rocks through the tube is believed to have enlarged its dimensions slightly, this in turn being responsible for the lengthened period between eruptions and the increased volume of water.

A number of other interesting changes, lending a constantly varying interest to the mysterious manifestations of the park's performing natural wonders, are also reported by official observers.

That Word "Corker."

The American word "corker," meaning a person or thing of superlative quality, is only a slang use of a legitimate English word. Corker, in its original sense, meant a conclusive argument. It probably originated from the finality which a cork thrust into the mouth of a bottle stops all egress, or ingress of material in it.

The relegation of the word as used in America to the limbo of slang by the dictionary writers has neither weakened the word nor limited its use.

The word "corker" is a perfectly good word. It expresses precisely a shade of meaning that needed to be expressed, and the chances are that it will be a word of good and regular standing long after the bones of the last living dictionary writers have thoroughly bleached.—Milwaukee Sentinel.

Newspaper Accuracy.

R. A. White of the Detroit News, after long investigation, finds that daily papers make only one error in every 3,250 opportunities for mistakes. This country recently celebrated the anniversary of the landing of the Pilgrims at Plymouth Rock and history has pointed out the very spot where they landed. Now a scientist discovers that at the time the Pilgrims landed this spot was under sea. Which leads Mr. White to ask, "If history cannot report a fact correctly in 300 years, ought we expect a newspaper to be unfailingly accurate in six or eight hours?"

Diphtheria Germs in Wild Horses.

Wild horses running on the open range and never in contact with human beings have been found to be infected with the diphtheria germ, according to Dr. H. W. Schoening of the pathological division of the bureau of animal industry, at Washington. This fact, he claims, indicates that the diphtheria organism is widespread in the soil and is not carried to the horse by some human being, as has been held.

Max Multirox—Quite so. I believe you'd be a pretty young girl right now if you had only been born about 20 years later than you were.

Soap Bubbles Aid Scientists.

Every one who pays gasoline for his automobile has a direct concern in the efficiency of engines, the study of which is being assisted by soap bubbles, according to Popular Mechanics Magazine. These are now being used at the bureau of standards in determining the rate of propagation of flame in combustible mixtures of gases. Strangely enough, for years there has been sought a means whereby explosions could be studied under constant pressure free from complicating circumstances, but it was just recently pointed out at this institution that soap bubbles afford in ideal fashion just what is wanted.

Would Help.

"I get along pretty well at golf," said Paw Nurtich. "The caddy hands me the proper club."

"Well?"

"I wish the butler would deal out the forks at dinner the same way."
