Going Out Of Business

I am going to move my business to Paris, Ky., the middle of April. Every piece of harness in the house must go. I am going to sell all of this harness at cost. Now is the time to buy your harness. This is not cheap harness, but first class goods and if you want good harness at unheard of prices, now is your time to buy. This is a cash sale. No-thing put on the books.

Jno. J. Archdeacon

P.S. I will also sell my property on east Main St, a nice convenient home with bath. Also a Ford Special roadster car in A-1 shape. Will demonstrate

that may be affected by a subjuration. One vertebrae out of place may cause more than one condition. Take the nerve that supplies the mand passage, a subluxation exists, impinging the nerve, decreasing the flow of mental impulse or flow of life, catarrh is the result-very annoying to the person, catarrhal deafness develops and finally speech is interfered with. Which is best, the three effects or to adjust the one cause? Have your sublizations adjusted before you get sick, and enjoy health.

HOW BIG IS CHIROPRACTIC?

For five thousand years or more the best minds of the medical profession have searched, trying in vain to find the cause of disease, which chirespretic teaches is to be found within the body.

Against the organization known as the American Medical Association, with its endowments of million

the educational institutions, and the popular prejedice of the general public, chirapractic has nothing to bard but the constant in-creasing "whereas I was sick and am now well" of those spon whom all other methods have failed.

Chirepractic has no excuse for its existence, the supreme test is to succeed where all eithers fail. The United States has over 10,000 practitioners, placing it second among he professions engaged in getting the sick well, and in efficiency it is taking lead.

Chirepractic is simple, sure facts. The facts are than odi-case or abovernal condition exists without a 'ose. What is the cases? Chirepractically it is a Subtraction playing a nerve. If this be true, which it is, a known fact, U 'owy treat the ef-fect? Have the cause corrected and let us to take care of the effect. DO SUBLUXATIONS FXIST? HOW?

A Subluxation is -one of the moveable segments of the spine, cut of proper alignment, that is not in line with the one above and one below.

CHIROPRACTIC ADJUSTMENTS WORK WONDERST CHROPACHE ADMINISTRATOR WORK WONDERS.
