## Burley Tobacco Grower

**We Want You To Let Us Tell You How Armour's 3-8-6 Can Increase Your Tobacco Profits**

500 pounds of 3-8-6 broadcasted to an acre contains the exact amount of Ammonia and Potash to grow an acre of tobacco. Be sure when buying tobacco fertilizer that the potash it contains is from Sulphate. Potash from Muriate is of inferior quality and has a tendency to burn the leaf and plant.
