The GOLDEN RULE On PARTY LINES

There is no better place to practice the Golden Rule than in the use of party lines. The best plan to follow is to put yourself in the place of the other user of the line and govern yourself accordingly. No matter whether you called carrier to the place of the other user of the line and govern yourself accordingly. No matter whether you called the TVE missience at latin. As soon as your time is up you should say, "I believe our five missience are up, I'll call you later."
