County Agent's Column

S. W. ANDERSON, CO. AGENT

TURKEY POINTERS

The Ten Commandments for successful Turkey raising.

1. Only strong, mature breeding stock should be used.
2. Breeding stock should not be over fat. (Feed a balanced ration.)
3. Ample moisture should be supplied during incubation.
4. A brood coop to confine hen and poults should be provided for each brood.
5. Do not let the poults get chilled.
6. Do not overfeed the poults.
7. Do not feed until the poults are 48 hours old.
8. Keep poults free from lice.
9. Do not let turkeys eat grass seed.
10. Doctor a sick turkey as soon as it shows signs of sickness.

Selection of Breeding Stock

In selecting breeding stock, the best should always be used. Many turkey raisers make the mistake of keeping late hatched, undeveloped hens for breeders, because they will not bring as much per pound as the good hens. It is better to use old hens instead of pullets for breeders, however, well-matured pullets can be used. Cockerels of well matured are as good to use as toms, but should never be mated to pullets. In the 48 farms making reports, an average of 3½ hens were mated to each tom. Between 12 to 15 hens can be mated to one tom and good results secured.

Management of Breeding Stock

Do not keep the breeding stock too fat. A ration of nothing but corn should never be fed. It is advisable to add other grains to the ration and some mill feed such as bran and middlings. During the breeding season the turkeys should be supplied with a dry mash. A good mixture consists of 100 pounds of mill feed three and middlings, and 25 pounds of good grade beef scrap (60 per cent). The mash should be greater shell should be kept before the hens at all times. They should also have a box of grit before them.

Hatching Turkey Eggs

Turkey eggs can be saved two weeks, providing they are kept in a cool place and turned daily.

Turkey eggs weigh 28 days to hatch. A 68 per cent hatch was secured during 1923 in a county demonstration flocks setting 2500 eggs. During the rush of the chicken hens, turkey hens are in order. The months of April, May and June are best for hatching. However, early hatches secure the best results with June hatches. Turkey poults differ from chicks in that they do well during warm weather.

A chicken hen will usually cover ten eggs and a turkey hen from 15 to 20. From the records last year by 16 of the demonstrators in the state, 2,500 eggs were set, which were hatched 69 per cent and those set under turkey hens hatched 75 per cent. This indicates that there is little if any difference between the chicken and turkey hen when hatching. Concerning the use of incubators and brooders, the following "Turkey Talk" by Harry Axtell, Bloomington, Indiana, says:

"Any good make of incubator will hatch as many, if not more, eggs than a hen. If you can hatch chicken eggs in an incubator, you need have no fear of hatching turkey eggs to it. In fact you should be able to get more poults from turkey eggs than you did from chicken eggs. The only thing I can remember in the same position as you are in is that I was the proud possessor of T. A. Combs, Lexington, Kentucky; Corrington, G. B. Lott, Mt. Sterling, and Charles Schmidt and Walter J. Kohn, both of Louisville. Mr. Combs was appointed chairman and W. S. Sherwood, secretary. The duties committee will meet in a special meeting when necessary.

The following letter from J. B. Stratton of Lawrenceburg, a very successful breeder of Bronze turkeys, will give an idea as to the value of this type of coop, and also its method of brooding:

"Am always willing to give any information relative to turkey breeding or coops, as I have had success to specifications. I received from the Experiment station several years ago. I want to thank you for sending me pictures and plans of the coop. Instead of making longer I made it four feet square inside the clear, which size was best suited for the length of lumber I had.

"I made only a few of these coops and placed them in a nearby blue grass pasture several rods apart, using only the ground as a floor. In each coop I placed one turkey hen with about 20 poults. I kept them confined to the coop until the poults were a week old, but always moving the coop to fresh ground every other day. If the weather was rainy I would keep them up while they were small, as I found rain should come up after they had been turned out. I would let them remain alone with the mother hen and until time to bring them in the brood coop at night and, using it as a shelter until the poults got large enough to go to roost on a pole high enough on the outside to be safe from predatory animals. I speak from my own personal experience when I say it is far easier to any turkey brood coop I ever used, because by using this type of coop you get your turkeys close to nature, letting them roost on the ground while in the coop. I like them so well I am going to make several more this season. Strange to say I never lost a single poult after using these coops. By using these coops, and keeping the poults free from lice by using sodium fluoride, and by proper feeding, success will crown your efforts in raising more and better turkeys. I highly recommend them to every one who raises turkeys.

UNFAVORABLE WEATHER DELAYS BED PLANTING

The continued good weather of the past week enabled farmers in all parts of the state to make progress with their spring work. The majority of tobacco beds have been planted but many farmers are just now ready to burn the beds and seed. Plants will be late this year because the unfavorable weather has prevented early seeding. A late season and late plants may help to reduce the tobacco acreage this year which market specialists and officials of the Burley Growers Association believe should be done. Farmers are being advised to reduce the tobacco acreage and substitute other crops because the holdings of tobacco are larger than ever before and if a light crop is produced this year the growers are assured a fair price for it while another big crop would bring low prices and a loss on the crop. Most of the receiving plants of the Burley Association have been contracted and most of them may be reopened for a few days in order to receive some tobacco that has not yet been prepared for sale.

Farmers over the state have been accepted to sell all their good, calves to grade this winter and spring because the price has been so good, the cows have averaged $12.50 per month for several weeks. This practice, however, will reduce the number of calves produced for feeding a year from now.—Lexington Herald.

AMERICAN LEGION NATIONAL ESSAY CONTEST ANNOUNCED

Nicholas county school boys and girls will be interested in the announcement of the annual American Legion essay contest. The first prize last year was won by a student of the Carlisle high school, Miss Hollis B. Shannon. The subject of the essay the winning article was "Why Communism is a Menace to Americanism." The contest is open to boys and girls in the high schools.

The first prize in each state will be a gold medal and a cash prize, a bronze medal, third prize a certificate, fourth prize a bronze medal and the national contest will be $750, $500, $250 and $100 for the first four prizes.

All boys and girls between the ages of 12 and 18 years are eligible to enter the contest. Essays will not be over 500 words in length. Each contestant must write on subjects selected from a list which will be announced by the state committee. The contest is open for the next month. The winning essay in the county will be forwarded to legion headquarters at Indianapolis.

Additional information may be secured from the county Americanism Commission, American Legion headquarters.

A NEW DEPARTURE

(Paris Democrat.)

Spring is here and high society will soon inaugurate it's dances. Then the newspapers have columns all about the decorations of the ballroom, the dress gowns of the ladies, and the out-of-town guests. The society proposes to start a new departure, giving who was drunk, what brand of liquor they drank, and other interesting features.

This will not apply to dances given by the white trash, but exclusively to high society.

KENTUCKY RACE DATES

The Kentucky State Racing Commission met in Lexington Saturday and granted dates for the spring season and to appoint officials for the various tracks. The commission is composed of T. A. Combs, Lexington; Walter J. Kohn, Louisville; Corrington, G. B. Lott, Mt. Sterling, and Charles Schmidt and Walter J. Kohn, both of Louisville. Mr. Combs was appointed chairman and W. S. Sherwood, secretary. The dates committee will meet in a special meeting when necessary. The dates confirmed were: Lexington, two days, April 26 and 28; Latonia, two days, May 10 to 12; Louisville, two days, May 19 to 21; Latonia, two days, from June 2 to July 5; Ashland, twenty-one days, from July 10 to August 5.

PATHWAYS TO HIGHWAY SAFELY OUTLINED

George M. Graham, vice president of the Graham Motor Car Co., in an address before the tenth annual conference of highway engineers at Lexington, Kentucky, said that there were five things to be done to make highways safe for present traffic. These are:

1. Train the cars of the drivers.
2. Train the reckless and intelligent operators until they recognize the value of the great majority of the safe and courteous motorists.
3. Investigate accident causes, and prosecute promptly those motorists are now helping to do, to the end that the penalty for proper crossing is a severe one.
4. Give safety education in the schools.
5. Make thorough analysis of traffic conditions and regulations and facilities are needed in each city.

The principality of Wales has an area of 7167 square miles and a population of 2,420,000.

BOOTLEGGER PAYS TAX

Glasgow, Ky., Lee Dyers, of Glasgow, so far as is known, is the first bootlegger in Kentucky to pay an income tax.

Recently Dyer was convicted in circuit court here on four dry law charges. An internal revenue bureau deputy then came here and made an investigation of his income and decided that Dyer owed Uncle Sam $140 for last year, which Dyer paid.

At the normal rate of 4 per cent this indicates that Dyer made $1,500 over and above his exemptions.

Figuring cost at $10 a bbl, Canada is now saving $27,000,000 with its present water power development.

Immigrants to the United States last year numbered 522,919, exclusive of those entering, numbered 81,450.

DOES TOUR BACK ACHE?

Bad Backs Bring Suffering to Many Carlisle Folks

Is that dull, constant backache making you old and miserable? Does your back throb and ache until it seems you just can't keep going? Do you suffer headaches, dizzy spells and urinary disorders; feel weak, tired and worn-out? Then look to your kidneys. Delay may cause serious kidney sickness! Use Doan's Pills—a stimulant tonic for the kidneys. Doan's are recommended by Carlisle folks.

M. T. Griffin, painter and paperhanger, Morgan St., Carlisle, says: "I had an attack of kidney trouble and was confined to my bed for two weeks. My back was so lame and ache across the center of it and I couldn't stoop or straighten without being in misery. Doan's Pills from Hopkins' Drug Co. reached my case at once and I kept on taking them until I was cured."

60c, at all dealers. Foster Milburn Co., Mfrs., Buffalo, N. Y.

20 Year Goitre

Almost Choked Me," Says Ohio Lady Relief in Three Days by Caldwell's Liniment.

Mrs. Zerna Barnhouse, 421 West C. St., Wellston, Ohio, says, "For 20 years I suffered with goitre. Sometimes I sat up in bed and fanned all night to get my breath. In three days the choking and smothering were gone and in two weeks I felt the sign of a goitre. Will talk or write to any one."

Sold by all drug stores or write Scarlet Company, Mechanicsburg, Ohio. Locally at Tavernar's

ONE YEAR'S STONE SUPPLY

It may be interesting to know that in the year of 1923, there was a total of approximately 500,000 tons of stone used in constructing highway and road surfaces in this State.

In value, the stone represents very close to one-third of the total price paid for the completed road. Had all of those mountains of stone been shipped in, and the total number of cars required would have been in excess of 11,000 or 225 trains of fifty cars each. Through such a comparison it can be seen that road building is indeed an undertaking of magnitude.

NICHOLAS CIRCUIT COURT

George B. Davis, Plaintiff
Vs. Advertisement of sale
Josephine Cox, etc., Defendant

By virtue of a judgment and order of sale rendered at the February term 1921 of the Nicholas Circuit Court in the above styled action, I shall proceed to offer for sale at public auction at the Court House door in Carlisle, Nicholas County Kentucky, to the highest and best bidder, on Monday, April 14, 1924, being regular County Court (Monday) at two o'clock P. M. or thereabouts, upon a credit of six and twelve months, the following described property, to-wit:

Said land is described as follows: "Beginning at a four inch tree on the east side of Stoney Creek Branch, corner to Dave Hopkins' heirs; thence with Hopkins' line, N 48 degrees E 25.1 feet to a rock fence; thence with the rock fence S 49 degrees, and 30 minutes E 1290 feet to a fence post corner to Hopkins' heirs and Ed Parsons; thence with Ed Parsons line S 48 degrees W 116 feet to a stone, thence S 10 degrees W 235 feet to a fence post corner to Ed Parsons and Tom Hardin; thence with Tom Hardin, S 48 degrees W 1170 feet to a corner to Ralph Lawrence and Tom Hardin; thence with Ralph Lawrence's line N 68 degrees 30 minutes W 1100 feet to a fence post corner to Lawrence; thence S 11 degrees E 1100 feet to a stone; thence 42 degrees W 600 feet to a fence post corner to McCowan; thence with McCowan's line N 56 degrees E 110 feet to a fence post, thence N 56 degrees E 1170 feet to a fence post, thence N 56 degrees E and 30 minutes E 1170 feet to a post, corner to hart, thence S 18 degrees, 30 minutes E 186 feet to a tree, the point of beginning, containing Forty-seven and 78-100 acres more or less."

The above described land is sold subject to the dower interest of Mrs. Ann A. J. Hopkins, deceased.

For the purchase price the purchaser with approved securities must execute bonds bearing interest as aforesaid as the judgment directs and have the force and effect of a note of sale until paid.

Said bond to have Terms and effect of a judgment upon which an execution may issue. Bidders will be required to promptly comply with these terms.

This 7th day of March, 1924.

CLOSING OUT SALE

At Noah's Ark

Our lease expires in May, 1924. I am compelled to quit business and change my location on account of my health, and for the above reasons we are closing out our stock of merchandise consisting of groceries, enamelware, chinaware, tinwarr, notions, etc., AT COST and even less than cost on some articles.

THE FINAL CLOSING-OUT SALE STARTS

Thursday, April 10th, 1924

All goods on display and marked down in plain figures. The stock is all new and up-to-date. Merchandise is advancing every day. So come and get supplied for much less than you can ever hope to buy again for.

Sale every day until all goods are gone. Fixtures, scales, safe, show cases, etc., are also for sale.

W. J. WISE, Proprietor

$200 to $400 Saved

On This Light-Six Touring Car

By our matchless facilities—our enormous production

HERE is a car priced at $1,045. Built by automobile experts it is would cost you from $200 to $400 more.

It is in scores of ways the leader of its class. No rival car compares in the value that it offers.

Let us tell you how we give that value, then urge you to see this car.

A sensation

Studebaker is today the world's largest builder of quality cars. Sensational success is the explanation of Motordom.

Sales have almost trebled in three years. Last year, 145,167 people paid $201,056,000 for Studebaker cars.

There are tremendous reasons for this rush to Studebaker cars. And every man who buys a car should know them.

72-year traditions

The Studebaker name has for 72 years stood for quality and class. To build an ordinary car under that name is unthinkable.

Our assets are $90,000,000—all at stake on serving you better than all others.

We have $50,000,000 in model plants, equipped with 12,500 up-to-date machines. We have 23,000 workers, under profit-sharing plans which lead them to stay and develop.

We spend on engineering $500,000 yearly. We employ 1,200 men to give 32,000 inspections to each Studebaker car in the making.

We are lavish

We are lavish in things that count.

We pay 15% bonus on some steels to get from each ton of steel a genuine leather in our cushions. We use curled hair.

We use more Timken bearings in this Light-Six than any competitive car within $1,500 of our price.

Our bodies are beautiful creations. The finish and coach work show the final touch. But we build them in $10,000,000 dies to get them right, and pay for these extras in savings.

Where we save

We save by enormous production —150,000 cars per year. Our major costs are all divided by that enormous output. It is literally impossible for smaller makers to compete.

We save by modern plants, mostly built in the past five years. We save by up-to-date machines. By building our own parts and bodies.

See what this car offers

Come see what this Light-Six offers. How it excels in scores of ways any rival car.

Built with the same steels, the same care and skill, as the costliest cars we make. We have only one grade of chassis.

See its beauty, its comfort, its luxury. See how we have studied your every desire.

Do that and you will choose this car, if you have in mind a price anywhere near this.

Send for the book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car.

For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon below.

Studebaker Light-Six Touring Car—$1,045

Same steels as we use in the costliest cars we build. More Timken bearings than in any competitive car within $1,500 of this price.

Genuine leather cushions, ten inches deep. Curled hair filling. All-steel body.

One-piece, rain-proof windshield. Attractive cowl lights. Beautiful nickel-plated tires.

Transmission and ignition locks. Perfect motor balance. Curtains that open with the doors.

By far the greatest value in this class.

THE WORLD'S LARGEST PRODUCER OF QUALITY AUTOMOBILES

8 PAGES
SECTION ONE
VOL. LVII. CARLISLE, NICHOLAS COUNTY, KENTUCKY, THURSDAY, APRIL 17, 1924 NUMBER 16

THE CARLISLE MERCURY

STATE BRIEFS

Mrs. Mary Ellis, 81, was burned to death at her home at Lagrange when the bed occupied by her caught fire.

After remaining in an unconscious condition, five days, Thomas Creek, 47, died in a Lexington hospital from injuries sustained when his auto turned over near Lexington.

Louis M. Utz, salesman at the Walsh store in Mt. Sterling, was fatally injured when he fell from a stepladder through a plate glass window while washing the window.

Hugh S. Calfiss, for the past six years principal of the Maysville high school, has been elected superintendent of the Maysville schools to succeed W. J. Cagliger, resigned.

An appeal from the life sentence given Mrs. Fannie Tipton in the Anderson circuit court for the poisoning of her daughter-in-law, has been filed with the court of appeals.

Rev. E. F. Goodson, pastor of a Louisville Methodist church, has been elected president of Georgetown college to succeed Dr. W. O. Lowrie, Louisville Conference at M. E. Church, South.

Mrs. A. G. McGregor, wife of A. G. McGregor, former professor at the University of Kentucky, died as a result of injuries received when she was struck by an automobile in Lexington.

Stewart, Piper & Stewart have sold their Paris automobile agency to Owingsville to George Booker, of Boyd, and will in the future devote their time to the furniture and undertaking business.

Price Little, son of County Judge James Little, of Owingsville, died following an operation for appendicitis. He was a student at the University of Kentucky.

Following is the personnel of the company:

Captain—C. O. Purnell.
First Lieut.—Fisher B. Henry.
Second Lieut.—Thomas Caywood.
Line Sergeants—Frank C. Henry, Ward Fee, W. B. Murray, Ernest Ward.
Corporals—Howard Mastin, Cecil Scott, Ed Metcalfe, John Dunn, Pitman Wasson, D. B. Barnett, J. Cooper.
Cooks—Grover C. Wade, Thomas H. Brierly.
Mechanic—C. E. Cooper.
Supply Sergeant—Ed Hall.
Privates—Frank M. Blake, Allie Clickenbeard, Rupert Caywood, Joe F. Conley, G. T. Cowar, W. A. Cowan, Howard Curtis, Claude M. Curtis, Charlie Daugherty, Everett Beatley, Geo. H. Eubanks, Charlie Forbeck, Robert T. Fisher, Homer Frederick, Frank J. Hamm, Stanley Hardin, Robert O. Hardin, Jr., Ben Huddleson, Stanley F. Hutchings, C. W. Kash, Harmon L. Kennedy, Everett E. Linville, Earl T. Marshall, Raymond Marshall, Roger C. Mastin, Wm. Kirby E. Clinkenbeard suicided at her home in Winchester Saturday by slashing her wrist with a razor.

Dependent over her husband's death last Thursday, Mrs. Nell Burr, left her without a living routine, Mrs. Mrs. Kirby E. Clinkenbeard suicided at her home in Winchester Saturday by slashing her wrist with a razor.

Tobacco sales made over the loose on "floors in Kentucky during the month of March amounted to 20,000,000 pounds, which brought $2,380,385, according to the March bulletin issued this week by Commissioner of Agriculture Carl Coleman.

NEWS OF THE WEEK

Osborne C. Wood, son and aide of Governor-General Leonard Wood, of the Philippines, resigns from the army.

Elias Ridge, 12 year old negro boy, sentenced to die in Pryor, Oklahoma, for the murder of a white woman.

Four miles of corridors, with 2,500 rooms are called for in the construction of a new hotel in Chicago, which will be the largest in the world.

NATIONAL GUARD COMPANY FORMED

Howitzer Unit With Over 50 Members Mustered in Saturday Evening

TO BE EQUIPPED SOON

Captain E. B. Blackwell, recruiting officer for the Kentucky National Guard, was in Carlisle over-all days during the past week assisting Clarence B. Pumphrey and Fisher H. Henry in forming a Howitzer Company of the 149th Infantry.

The company was mustered into the service Saturday evening, with about fifty members and recruiting will be continued until the full quota of 65 members is secured. After this number is filled it will be taken except as vacancies occur.

The equipment for the outfit will be shipped this week and will be issued at once. Enlistments in the National Guard are for a period of three years. Drills will be held regularly each week and the members of the guard will be paid $2.50 each time they are found to attend. The drills will last for about an hour and a half.

It is said that this is the first military organization in Carlisle for almost a quarter of a century. The equipment belonging to the company is valued at about $100,000, and the annual pay roll will amount to about $45,000.

Clarence B. Pumphrey is Captain of the Company and Fisher B. Henry First Lieutenant.

This is the only National Guard unit in Nicholas county, Kentucky district, and the officers hope to make it one of the crack organizations of the state.

The personnel of the local organization will be in the American Legion ranks.

Although a number of the regular players were out of the game on account of being ineligible for the game, the Carlisle high school nine won its first game of the season in a slugfest at Mt. Sterling last Friday afternoon, the final tally being 14 to 9.

Every member of the local team was successful in getting a hit. Smith leading the list with four safeties, while Mr. Sterling made only nine hits.

Gelaide started the ball to rolling in the first inning by getting five runs and had the game in his hands throughout the game. Following was the line-up:

C. H. S.	
Smith, ss	4
Smathers, 1b	4
Gelaide, p	5
Tilton, rf	4
Hughes, cf	4
Caine, 2b	4
Gewedon, rf	4
Hughes, c	4

Junior—Special honor, Ruth Darnall, Clarine Hillock, Aleada Thompson; honor, Geneva Galbraith, Sudie Elston, Christine Snapp.

Senior—Special honor, Leila Bell, Lorene Booth, Frank Cummins, Lexie Kennedy, George Inske; honor, Thelma Hinkle, George McCann.

OLDHAM FOUND GUILTY OF FORGERY CHARGES

After deliberating "about" and "about" minutes a jury in Federal Court at Covington Friday returned a verdict of guilty in the case of Ronald C. Oldham, an attorney of Carrollton, on the charge of forging, by, defraud the federal government in connection with the release of the Louisville Jail of Jack Mason, alias Ross, on an alleged bond forfeiture.

In accordance with instructions given by the court to the jury in the case Oldham is entitled to the benefits incident to the various lines of work for their education and to the fullest capacity for leadership.

The move is being sponsored by the Paris Rotary Club.

FIELDS SAYS BOND ISSUE NOT POLITICS

Reports that he would endeavor to obtain the endorsement of the Democratic State convention for a $75,000,000 bond issue were branded as false by Governor W. J. Fields in a letter made in reply to a communication received from a western Kentucky attorney asking his position.

Governor Fields in declaring he would refuse to advocate such an endorsement by the State party convention also declared "I shall use all the power at my command to prevent such action."

TWO STILLS AND 150 GALLONS MASH

Found by Officers in Raids on Two Farmhouses Early Sunday Morning

OWNERS ARE ARRESTED

A raid made on two Nicholas county farms Sunday morning by Sheriff James F. Gaston and Deputy Sheriff L. B. Barton, who were armed with search warrants, netted about one hundred and fifty gallons of sour mash, two stills and considerable other equipment used in the manufacture of moonshine whiskey.

Early Sunday morning the officers went to the home of Ed Brewer, a tenant on a farm near Locust Grove, to search of the house revealed a 50-gallon Tarrel of mash. No still was found, however.

Later the officers went to the home of Arch Prather, a tenant on a farm on the Parks Ferry pike, about three miles from town, where two barrels and several cans of mash and two stills were found. No one was found on the premises at the time.

Each of the men will be tried for about an hour and a half.

Each of the men will be tried for about an hour and a half.

Each of the men will be tried for about an hour and a half
