County Agent's Column

S. W. ANDERSON, CO. AGENT

Club Work Great For Young Folks

Boys' and Girls' club work presents a four fold life program, and if fostered in head, hand, health and heart, and offers a splendid opportunity for acquiring greater vision and enthusiasm in the farm and home. It attempts to interest all the boys and girls the hidden advantages of the environment on their own farms, so that they may see "tongues in trees, sermons in stones, and good in everything." Work of this kind is inspiring. While the immediate aim is important, the economic side is not neglected. Scientific methods are followed, records kept, profits made and business transacted, thus teaching an independence necessary to respectable American life. Club work saves youth for useful service.

Boys' and girls' club work has a place in the premium list of every agricultural fair that has for its object the betterment of agriculture and home economics in the community, county, state or nation in which the fair is held. The leading fair associations have recognized the importance of an organization that has for its aim the education of boys and girls for better rural conditions and are offering attractive premiums for club exhibits. Commercial industries such as railroads, fertilizer manufacturers, bankers, seed-men, implement and machine makers and farm organizations have proved their recognition of the importance and possibilities of club work by their willingness to encourage it.

The club organization for county boys and girls is a potential chamber of commerce, and a better farming organization, but in addition its practical training in progressive agriculture and home making makes it an extraordinary factor in community progress. It produces not only strong and capable men and women, but also producers of healthy efficient citizens.

In ten years or so a great many of the present club members will be farmers, livestock breeders, or house keepers on their own farms. Children learn rapidly and retain easily what they learn, especially when the lessons are presented in proper form and they are given proper responsibility under proper guidance. In club work they learn the value of co-operation then organization that is basic needed. They learn to keep business records, to borrow practices and expertise livestock provided the work is made interesting and profitable and encouragement given to their efforts. Through the parents must lend their support before the best results that be obtained. The training a club member receives today will benefit later. The future results of club work are too often overlooked. Too many are prone to value it by dollars and cents and the pleasure derived from it during the year that is done, forgetting the training and educational value—the basis of future development.

The chance to earn money, "theirs to have and to hold" attracts boys and girls to club work. It gives them a value to their time and spending money, and to learn the value of a dollar, which stimulates thrift.

Club work has for its goal the education of the boys and girls for better farmers and better citizens, for better homes and better community spirit. The way to reach this goal is to interest the boys and girls in the various problems about them, which serves as a means to the end in view, the object.

Plans For Nicholas County

Club work is one of the most important forms of extension work promoted by the Experiment Stations in each State in the United States, and is conducted by the County Agricultural Agents in the various counties of the States.

The plans for club work as outlined in this county for the coming year include poultry raising, feeding lambs and growing corn. Each boy or girl in this county between the ages of 10 and 18 who is interested in either one of these lines of work should enroll in the club and receive the bulletins and suggestions from the county agent which cover the project in which they are interested.

Requirements of the Pool #3 Club

Boys or girls who enroll in the poultry club should start out with at least three settings of eggs from a good pure bred flock. These eggs may be obtained from the home flock, from a neighbor or from sources recommended by the county agent. Complete instructions will be furnished the club enroll, in regard to the best methods of feeding and caring for the baby chicks in order that they may be successfully developed into a pay producing flock of pure bred chickens. This project should prove of special interest to any one who is or who is interested in developing a source of income from poultry.

More information concerning club work will be given next week.

AUTOS IN KENTUCKY NEAR THE 200,000 MARK

Kentucky's total motor vehicle registrations for 1923 was 196,134, including 175,965 pas-senger cars, 20,169 motor trucks, 1,200 motorcycles according to data submitted to the House of Representatives by Representative Robt. H. Chaney, of Muhlenberg.

Total registrations fees collected in Kentucky last year, according to the statement, amounted to $2,600,000.

Twenty-one states reported larger registration of motor vehicles and larger amounts of fees collected than Kentucky.

ST. LOUIS SYMPHONY

The Saint Louis Symphony Orchestra, Rud.Joh Gmeu conductor, in the Spring Festival Transcontinental Tour will be heard in two concerts at Woodland Auditorium, Tuesday, March 29th, matinee at 2:15 and night concert at 8:15 o'clock.

Mme. Gruenella Pampael, the gifted young harpist will be the soloist for the matinee, when the program, consisting of Music Memory Contest pieces, will be presented. This program is very beautiful and will be especially enjoyable for the older people as for the young people. The program for the evening concert is well chosen and Helen Traubel noted soprano, will be the soloist.

The Saint Louis Symphony, under Mr. Ganz's leadership, has taken on a prominent and permanent place among the foremost orchestras of the United States. The season just closed was one of the most successful in the history of this orchestra.

Tickets are on sale now at the Lexington College of Music. Music teachers tickets for the events and the season purchase matinee are 6ic each, two tickets in all blocks of twenty, or more, $1.65 is the regular price for the matinee to others.

The evening prices are $1.10, $2.20 and $3.75 including war tax.

NOTICE

In the District Court of the United States for the Eastern District of Kentucky.

In the matter of Callie Smith, Bankrupt.

To the creditors of Callie Smith, of Carlisle, in the county of Nicholas, and district aforesaid, a bankrupt.

Notice is hereby given that on the 29th day of February, 1924, the said Callie Smith was duly adjudicated bankrupt; and that the first meeting of his creditors will be held at the law office of A. M. Cox in Carlisle, Ky., on the 14th day of March, 1924, at 2 o'clock in the afternoon, at which time said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt, and transact such other business as may properly come before such meeting.

A. M. Cox, Referee in Bankruptcy

HEADQUARTERS HONOR ROLL

Clara Shaw, teacher.

BEAVER

Robert Gaunce entertained Saturday with a birthday dinner the following friends: Mr. and Mrs. Carl Greene and three children, Mr. and Mrs. G. M Jones, Mr. and Mrs. Calvin Gaunce, Misses Mattie and Sophia Jones, Anna Mae and Urbane Feeback, Everett and Erwin Greene, Luther Donahue, Robert Brodrick, Joe Campbell, Sherman Greene and Mary Smith. Candy Kitchen, of Lexington, is being fourteen birthday.

Misses Carlyle Gaunce and Mattie Jones spent one day the past week with Miss Walker Gaunce.

Hazel Holler and Floyd Gaunce are suffering with measles.

MILK AS A FOOD

The following is taken from a recent talk made by the late Dr. Herman M. Briggs, New York, State Department of Health:

"While milk has long been recognized as one of the most important foods, it is only recently that we have found out just how important it is. Not only does it contain all the elements for body growth and repair in a readily digestible form but apparently it is only from milk that the necessary amount of iron for the proper growth and development of the teeth can be obtained without overeating.

"It has been clearly shown by test on groups of children that without plenty of milk and leafy vegetables in the diet, the jawbones to which the teeth are attached fail to develop properly, thus causing soft, pulpy teeth which decay easily and become irregular, imperfect or protruding. Dentists have even thought people would use as much milk as they should, dental work would be reduced 50 per cent.

"But what is the proper amount of milk for children and for adults? Children should have not less than a quart of milk per day. This includes that which is consumed in cooked forms such as in custards, milk puddings, and the milk taken with cereals and on other foods. For adults a pint per person is one pint or its equivalent. A noted economist has even said that the cost of living can be cut down 25 per cent by using more milk. Certainly rich in protein, according to the specialist, and the farmer who grows good legume hay will have little need for buying high-priced commercial feeds. At least one acre of legumes to every three or four acres of cultivated crops should be the standard practice on every farm. While limestone is very beneficial, satisfactory crops of clover, peas, soybeans and peanuts on Jap-pan clover can be grown by applications of some phosphate fertilizer.

ALL OUT OF SORTS?

So Was This Carlisle Woman Who Tells Her Experience.

All too often women accept their pains and aches as natural to their sex. They fail to realize that weak kidneys are often to blame for that backache, those headaches, dizzy spells and that tired, depressed feeling. Thousands have found new health and strength by helping the weakened kidneys with Doan's Pills a stimulant diuretic. This Carlisle case is one of many.

Mrs. E. A. Thomas, 120 E. Main St., says: "I had an attack of kidney trouble and rheumatism and my knee joints swelled and got painful. I was miserable with backache at times and I had dizzy spells and had to grasp something for fear of falling. My kidneys were weak and unnatural and I felt tired and nervous. Doan's Pills were used and the trouble left entirely."

DON'T GET EXCITED, MORE WINTER DUE

Don't take the calendar too seriously.

Although this is the first of a Spring month, winter is going to linger a while.

Therefore, trees should not bud, robins should not flock here, and farmers should not lay away the plowlines.

We're likely to have a cold wave or two before we have any warm weather. The winter on the whole has been mild, though in January 3, with a minimum of 10 degrees below zero, was colder than any of the twelve years.

January was slightly colder than the average, the daily deficiency in temperature being 0.4 from 100 degrees. However, there was 14 per cent more sunshine than normal.

December was unusually mild. The temperature was 9.7 degrees higher daily than the normal for December. There was 6 per cent more sunshine than normal.

For the Winter to date, the total snowfall was 14.5 inches, compared with a normal fall of 16 inches.

You can figure Winter will stay till Summer.

ORDINANCE

Making Tax Levy for 1924.

The City Council of the City of Carlisle, Ky., do Ordain as follows:

That the city levy for the year 1924 be and it is fixed at One Dollar on the one hundred ($100.00) dollars worth of taxable property in said city and that said levy be distributed as follows:

Gained Ten Pounds

Mrs. George E. Lee, of Greenville, Ky., says she suffered severely with kidney trouble. She writes:

"I used to go to bed and stay sometimes two weeks at a time," says Mrs. Lee, "and I could not work. I got very weak and run down. I only weighed 98 pounds when I began to take CARDUI. Now I weigh 120 pounds."

CARDUI

The Woman's Tonic

and she knew what a good medicine it was for this trouble to use, as her mother had used it for years. Try it before you decide that you have had taken the right step. I began to improve. My side pains left me, I began to feel well in health. I took four bottles in all and have not had an attack of the trouble for over ten months. I am well now, and have gained ten pounds and am still gaining. My skin is not troubled at all now, and my . . . are quite regular. I know that Cardui will help others suffering from the same trouble."

An Enviable Record of Service

On March 5, 1850, the Louisville Railroad received its charter from the State of Kentucky.

Since that date, ideas and customs have changed; panics have come; prosperity has followed; population has increased; the country has developed; and businesses have come and gone; but the "Old Reliable" L. & N. has survived all of the struggles and the ups and downs of reconstruction and three-quarters of a century—from pioneering a section of 105 miles to operating a system of 5,669 miles, traversing and serving almost all the territory in the heart of the South.

During all of those years, through good times and bad, the L. & N. has weathered the financial storms; has never changed its corporate name, and is one of the few classic railroads in the country that have never been in receivership.

The L. & N. has never failed to meet the obligations to the public pay every dollar due its workers, its creditors, its bondholders and a majority of those purchasing its stock—and has never passed a dividend. This is some record for the use of their money.

The management is earnestly striving to make the L. & N. a bigger and better railroad—more efficient and capable of better serving you. Your cooperation to this end is solicited.

Pack We Sell

GIVEN BY S. T. CAMERON, MYERS, KY.

$134.00 WORTH OF VALUABLE PRIZES

TWO DRAWING DAYS MARCH 22nd-29th

Beginning on Friday, February 29, I will give to my customers, with each dollar purchase and with each dollar paid on account, tickets on $134 worth of valuable prizes.

The Prizes

On Saturday, March 22nd, the following prizes will be given away:

9 x 12 Rug-- 200 Lbs. Flour

100 Lbs. Flour-- 50 Lbs. Flour

On Saturday, March 29, I will give to the holder of the lucky ticket:

A $100.00 Mascot Cook Stove

The tickets will be placed in a box or barrel and drawn out by a disinterested person. If any prize is not drawn on the first day, by reason of the holder of the ticket not being present, it will be drawn for again on the second day. The drawing dates do not correspond to those on the tickets, by reason of a delay in receiving the tickets.

Remember the Dates-- March 22 and 29.

VOL. LVII. CARLISLE, NICHOLAS COUNTY, KENTUCKY, THURSDAY, MARCH 20, 1924 NUMBER 12

Chamber Commerce Employs a Manager

STATE BRIEFS

Thomas Hogan, 77, for 45 years reporter for the Times-Star in Newport, died last Friday.

W. G. McAdoo, candidate for the Democratic nomination for President, spoke at Hopkinsville and Madisonville last Thursday.

Miss Vaden Ashby, 30, an invalid, was burned to death when she fainted and fell dead on a fire at her home near Madisonville.

Judge Harry W. Robinson, of the Kentucky Court of Appeals, died at his home in Louisville Tuesday following an illness of two weeks.

The business of the Crab Orchard Springs Company at Crab Orchard Springs has been placed in the hands of a receiver. The liabilities are estimated at $75,000.

Wallace G. Dunwoody, of Monticello has received the State Commander of the American Legion, and Dr. J. E. Mason, of Mayfield has been elected to the class.

Maurice Calvin, widely known attorney and Republican leader, is recovering from a nervous breakdown in a Covington hospital following an operation for appendicitis.

Nelson county, for the first time in history, will be without whisky sold, registered or stored therein on July 1 when the government's bonded warehouse at Bloomfield is closed. A recreation point has been completed with.

The Central City city council has passed an ordinance placing a license of $1,000 on the first pool table, $750 on the second, $500 on the third and $250 on each additional table.

Mrs. Julia Edwards, 60, died in the hospital at Mt. Sterling following a motor accident in which Mrs. Edwards died. Mrs. Edwards suffered a fractured skull and other injuries.

Two young white men, giving their names as Jesse Harrison and Virgil Robinson, and their home as Cynthiana, were arrested in Paris last week after they had passed a number of forged checks.

After consuming four days in the selection of a jury, Mrs. William Tipton was placed on trial in the Anderson circuit court Monday morning charged with the poisoning of her daughter-in-l w, Mrs. Lelia Tipton.

The Louisville Herald Publishing Co. has purchased the Morehead News, from Mr. Conley. Mr. Grote has purchase-on half interest in a paper published at Pikeville by his son and will move to that place.

Nine inmates in three Kentucky prisons and jails were successful in making their escape last Thursday. Four men serving time in the Harlan county jail, one from the Webster county jail and one from the Eddyville penitentiary.

Edwin K. Thomas, 84 years old, of Bourbon county, for many years one of the most prominent farmers and breeder of shorthorn cattle and saddle horses in that section, died at a Cincinnati hospital during Wednesday an operation.

Oscar Bailey, 18 years old, charged with having shot to death his sister in the Flatgap section of Johnson county, was captured by a posse of 40 men. Bailey has never been out of the Flatgap section and has every appearance of a wild man.

A confession made by a dying man in Allen county has cleared up the mystery of the disappearance of J. F. Pittock, who was never seen after he left his home in Scottsville a few months ago. The confession contains forty pages in five sections and give views and data of all of the principal enterprises of Maysville.

COOKING VEGETABLES FOR THE PRE-SCHOOL CHILD

Spinach and carrots are the first green vegetables doctors advise giving to babies when they are ready to iron salts and they are especially necessary in the diet of a child of three-eight years. Lettuce, beet tops and young tender peas may be added after this child is about this month. Later, asparagus, beets cooked whole, string beans, lima beans and stewed celery may be added. Potatoes should be served and are green corn, egg plant, radishes, cucumbers, onions and well cooked cabbage may be added after the third year.

In feeding young children green vegetables there are three points to be kept in mind.

1st. Cook vegetables until tend-der.

2nd. Mash fine with a fork or push through a sieve for young children.

3rd. Give a small amount at a time. Often in giving children vegetables for the first time too large an amount is allowed.

Vegetables prepared for children should not be cooked with fat meat. Because parents themselves like fat meat vegetables cooked with fat meat is not sufficient reason why children's vegetables should be prepared in the same manner. Spinach and carrots should be cooked in a small amount of boiling water. When tender enough to mash with a fork they should be mashed fine or run through a sieve then seasoned with a little butter or thin cream sauce made with butter and milk. Beet tops, green beans, squash and peas should be prepared in the same manner. Cooked cabbage may be added after the child is about three years old. Cook cabbage may be added after the third year.

Feeding young children green vegetables there are three points to be kept in mind.

BARNES ACCEPTS SECRETARY POST

New Secretary of Chamber of Commerce Will Begin Work April 1

HAD WIDE EXPERIENCE

Mr. Herbert F. Barnes, to whom the position of Secretary of the Carlisle Chamber of Commerce was offered several days ago, has notified the board of directors of the organization that he will accept this place and will be here about April 1st to assume his duties.

Mr. Barnes has had wide experience in this field. He is a graduate of the school for commercial secretaries at Columbus, O. He served as secretary of the chamber of commerce at Gulfport, Ga., for a short time, and has been secretary of the Hot Springs, Ark., chamber of commerce for the past two years. He has also been elected to the class.

Judge Ernest Clarke, of the court of appeals. Friday overruled a motion for a temporary injunction in the case of Burley Tobacco Growers Cooperative Association vs. Frank Scapp, etc., from Nicholas county.

The opinion states:

"Upon the hearing of plaintiff's motion before me for a temporary injunction, Count Appleman and Judges Thomas and Clay sat with me and we concurred in the opinion that the evidence was insufficient to show that in signing the contract Frank Scapp or Frank Scapp was acting for his wife or that she authorized him to sign same or ratified the agreement therein.

"The motion for injunction is therefore overruled."

The action was brought under a contract alleged signed by Frank Scapp November 4, 1922, and sought to restrain Lucy Scapp and Mallie Coleman, her tenant, from selling tobacco grown on Lucy Scapp's land, in 1923 outside the pool. The plaintiff association sought a temporary injunction restraining the burley association from interfering with the sale.

Attorneys Swinford & Swinford, of Cynthiana, and Samuel Holmes, of this city, represented the defendant, while E. B. Ross, of this city represented the pool.

PROSPECT GOOD FOR FEDERAL BUILDING

Langley Writes He Will See That Measure is Given Consideration

BILL UP THIS SESSION

A letter received by H. B. Bryson, Jr., from Hon. Nicholas County Republican Executive Committee, from Congressman Fred M. Vinson, of the Eleventh District, has been referred to Congressman Langley, of the Fifth District, in which the Carlisle Chamber of Commerce in its efforts to have an appropriation made for the purchase of a site for a federal building here.

About two weeks ago Congressman Fred M. Vinson introduced a bill in congress which provided an appropriation of $10,000 for the acquisition of a site for the building. This is one of the projects the Chamber of Commerce has been working on since its organization, and Mr. Bryson wrote a letter to Mr. Vinson who is chairman of the House Committee on Public Buildings and Grounds, asking that he support the measure. The following letter was received by Mr. Bryson from Mr. Langley in reply:

Reference is made in your letter of March 7, asking me to ask my colleagues from the Ninth District, the Honorable Fred M. Vinson, in securing an appropriation for a site for a Federal building in Carlisle.

Mr. Vinson has had two or three conferences with me with regard to the matter mentioned by you in his district and he has introduced a bill, authorizing an appropriation of $10,000 for the acquisition of a site at Carlisle. However, it may be stated that the authorization bill was not reached in the House and will have to be made for a building where the appropriation is made, and as it was to be erected had not reached the $10,000 a year, and as the appropriation could be made for a site until the postal receipts reached $6,000. The receipts of the Carlisle office are sufficient to keep it within the limit specified for a site, but not for a building.

I shall see to it that Mr. Vinson's bill is given careful consideration when the Committee is ready to report a general public buildings bill, which, from present indications, will be some time this session.

LOCAL WOMAN SPEAKER

At Restoration Congress to be Held in Danville, Ill.

The Christian Standard of March 15 says:

A special feature of great value will be on the program of the Restoration Congress to be held in Danville, Ill., March 25-27.

Practical and profitable programs for women's missionary societies have been a problem with many societies that have withdrawn from the U. C. W. B. Among the societies that have been successful in dealing with and solving that problem is the society at Carlisle, Ky.

Mrs. Taylor Mathers, of Carlisle, has remodeled to speak with regard to this problem during the Danville Congress. It is also hoped that a special session may be arranged for a conference of workers, to be conducted by Mrs. Mathers.

Pool is Denied An Injunction

Appeals Court Holds Husband Not Authorized to Sign Wife's Name

Judge Ernest Clarke, of the court of appeals. Friday overruled a motion for a temporary injunction in the case of Burley Tobacco Growers Cooperative Association vs. Frank Scapp, etc., from Nicholas county.

TWO YEAR OLD BOY BURNED TO DEATH

Little Son of Clarence Burke Fatally Burned When Clothing Ignites

DIED 24 HOURS LATER

Ernest C. Burke, aged two and one-half years, died at the home of his parents, Mr. and Mrs. Clarence Burke, who reside on the farm of County Clerk Jno. A. Wes. All on the Cane Run pike, last Tuesday night from burns received several hours before.

The child was fatally burn d when his clothing caught fire at the home Wednesday afternoon while he was standing before an open fire-place. The parents were in the house at the time and were shocked when they discovered that it was impossible to smother the flames. He sustained the fatal burns on the body and limbs and all the tissues in Clayville would be burned off. Water, it seems, does not heal that water backing up Beaver creek and the ravines and hollows would submerge the Cincinnati Southern turnpike for a distance of more than two miles, and spread the fame of the poke on the Robertson farm all over the world.

Mr. Poindexter estimates that the pike on this section will be made secure from subsoreaten at a cost of about $20,000, and then a new and permanent bridge at Clayville would cost about $125,000.

A letter from Mr. Merrill continues: "The company is merely trying to do its duty conscientiously to protect its priorities while making and preparing plans for such a project and, as you will appreciate, nothing definite will be fixed until the surveys have been made. After the preliminary work has been undertaken it will then be necessary for the company to file the definite plans with the commission, and obtain a license to construct the project. The license is required to obtain the necessary rights of way and condemnation of the lodge are requested to communicate with them as to the number of cabes they will contribute.

The Vicil Quest'on"

Wife: "Do you know that you haven't kissed me for six weeks?"

Professor (who is absent-mindedly): "Good heavens, whom have I been kissing then?"

60 SETTINGS PURE BRED EGGS ORDERED

Interest Taken in Campaign For Pure Bred Chickens In Nicholas County

BE SUPPLIED AT COST

Orders for about sixty settings of eggs from pure bred chickens have been given the Blue Grass Produce Company by Nicholas county people in the campaign to produce better quality in Nicholas county. Through an arrangement with County Agricultural Agent Anderson, of the Carlisle, of the Blue Grass Produce Company, will order the eggs and they will be brought up at this city, after which it will be distributed to the purchasers in a hearing.

Mr. Anderson and the Chamber of Commerce, it was pointed out at the meeting held in the office of the Chamber of Commerce, are not interested in the sale of the eggs, but are interested in the campaign to produce better quality in Nicholas county. Through the Blue Grass Produce Company in Nicholas county people will be supplied with pure bred eggs at cost.

The eggs may be paid for either in cash or by poultry or eggs at a fair price. Those who buy the eggs will be from pure-bred strains, selected by poultry experts at the state receiving an hour's instruction from Mr. Anderson.

$1,000 SPENT TO INSURE AUTO

Automobile owners in this county have spent $1,000 to insure their cars for the past year. This is an increase of 25 per cent over the year before, or about one hundred cars. The rate is for a combination car in Nicholas county is $20 per hundred dollars valuation. The rate for a touring car is $15 per hundred dollars valuation.

Insurance companies in this county have paid out $1,000 for damages to cars for the past year. This is an increase of 25 per cent over the year before, or about one hundred cars. The rate is for a combination car in Nicholas county is $20 per hundred dollars valuation. The rate for a touring car is $15 per hundred dollars valuation.

DAM COMPANY NOT "GOING CONCERN"

Steps Now Being Taken To Build Dam Near Falmouth Only Preliminary

HAS MUCH OPPOSITION

(Cynthiana Democrat)

From a letter received by J. R. Poindexter, road engineer of Harrison county, from O. C. Merrill, executive secretary of the Federal Power Commission, Washington, D. C., the Kentucky Northern Power Co., which has the proposed building of a dam across Licking river a few miles above Falmouth in view, is "not a going concern." W. A. Zumbiel, Falmouth, has the proposition in reply to inquiry by Mr. Poindexter states that the preliminary work from subscription at a cost of about $20,000, and then a new and permanent bridge at Clayville would cost about $125,000.

A letter from Mr. Merrill continues: "The company is merely trying to do its duty conscientiously to protect its priorities while making and preparing plans for such a project and, as you will appreciate, nothing definite will be fixed until the surveys have been made. After the preliminary work has been undertaken it will then be necessary for the company to file the definite plans with the commission, and obtain a license to construct the project. The license is required to obtain the necessary rights of way and condemnation of the lodge are requested to communicate with them as to the number of cabes they will contribute.

NEW SECRETARY NAVY

Curtis D. Wilbur, Californian, Succeeds Denby

Curtis D. Wilbur, chief justice of the California Supreme court and a graduate of the United States Naval Academy, has been selected by President Coolidge to succeed Edwin Denby as Secretary of the Navy. Judge Wilbur announced his acceptance at San Francisco and Mr. Coolidge has submitted his nomination to the Senate for confirmation.

E. L. Harrison was re-elected president of the Kentucky Farmers Union at the annual meeting held in Lexington last week.

The E. J. Reynolds Tobacco Company has let a contract for the reconstruction of a new redrying plant in Maysville.

Masonic Lodge Furnish Cakes

Annual Custom of Supplying Easter Cakes Will Be Carried Out

Following a custom established several years, members of Dougherty Lodge No. 62 F. & A. M., will furnish Easter cakes to the poor of Masonic Widows and Orphans Home at Louisville and the Old Masons Home at Shelbyville and their families. If sufficient cakes are left after these institutions have been supplied the various orphanages in the state will be remembered.

For the past several years about 200 home baked cakes have been sent from Carlisle by truck to Louisville. Each year the cakes are packed and loaded on cars, has been the scene of great gaiety and the social average for the district is around $2,215,000.

With these facts, many Carlisle and Nicholas county people are wondering why the association has not installed a redryer in Carlisle. Redryers have been installed in the tobacco towns throughout the burley district where receipts are not more than half as large.

Carlisle, apparently, would be a logical place for a redryer. Instead of transporting the loose Burley to Lexington, Maysville and other points, it could be handled here much more economically. It would appear from the cost of handling over the floors of the receiving plants.

A redryer would furnish employment for a number of Carlisle people during several months of the year, at least, and would be a splendid thing for Carlisle.

The Carlisle Chamber of Commerce has appointed a committee to present the facts before the officials of the Burley Association at Lexington in an effort to get a redryer here.

It requires to a letter from the Carlisle Chamber of Commerce, asking that the matter be established, George C. Myers, Secretary, Saturday received a letter from Mr. Stone president of the Burley Association, stating that the matter would be brought up at this city, after which it will be taken up by the association at a hearing.

Mr. Stone assured the Chamber of Commerce that the request would be considered favorably.

Carlisle Leaf Market Is the Second Largest

HANDLING COST IS LOWEST IN STATE

Receipts Will Reach Eight And Fourth Million By End of Week

8,500,000 POUNDS GOAL

Receipts of tobacco on the Carlisle market during the past week brought total receipts for the season to over eight million pounds, and indications this week will be that the season's total will be 8,500,000 pounds, it is believed. From present prospects the eight and one-half million mark will be reached when the loose receiving plants close for the season.

The average advance paid growers to date is around $8.75 per hundred pounds, which is slightly above the average for the burley district.

There is little doubt that the Carlisle market will be the second largest receiving point in the burley district again this year. Cynthiana has received more than eight million pounds and the pooled leaf received in Maysville will be around 8,000,000 pounds, it is believed.

The low handling tobacco on the Carlisle market is the lowest. Receipts have been handled without accidents to figures given out in the offices of the association in Lexington. The cost of handling the leaf here, from the time it is taken off the wagon until it is packed and loaded on cars, has been 2.1-2 cents per hundred pounds, the general average for the district is around $2.25.

With these facts, many Carlisle and Nicholas county people are wondering why the association has not installed a redryer in Carlisle. Redryers have been installed in the tobacco towns throughout the burley district where receipts are not more than half as large.
