

15 New Studebakers

Including an entirely new type of car—the DUPLEX-PHAETON

Today Studebaker has made Automobile History and established standards of value and quality more fully and obviously than ever before.

Today Studebaker proves that beautiful, distinctive, stylish body lines can be originated by American designers without following previous conventions or adapting what has been done before.

Today Studebaker proves that practical and beautiful design of car can be made to insure the pleasure and satisfaction of the operator and to insure the maintenance of the closed car—this without excessive price or compromise in quality—more than that of any other car.

Today Studebaker proves that the new Standard Six Duplex-Phaeton, with its 4-cylinder car of fine quality, great power, plenty of room and impressive appearance can be made and marketed at a price of \$1245.

Today Studebaker proves that in its new Special Six and Six Six Duplex models, it has produced the most beautiful cars in its line—cars that meet the highest standards of quality in fit and seven-passenger cars to be made and marketed at a price of \$1835 and \$2075 respectively.

Just this is possible only because Studebaker cars are made in one of the most comprehensive industrial plants in the country, 70 per cent of which is new within the last ten years.

Every modern method of manufacturing and long experienced management are available for the production of Studebaker automobiles.

Today Studebaker proves that the lightest grade closed car body—formed in stamped steel body—combined with the best custom work, upholstered in fine materials and fitted with expensive appointments—can be made and marketed on comparatively good chassis at most moderate prices.

This is made possible by the new \$1020.00 Studebaker closed body plants. Studebaker designs and builds all its closed bodies in one of the best equipped and most modern body plants in the industry.

The Three New Chassis THE STUDEBAKER STANDARD SIX—112 in. wheelbase, Spangler, Engine, 50 H.P., 300 lbs. 6 different bodies, including Duplex-Phaeton, Duplex-Roadster, Coupe, Sedan, and Tourer. THE STUDEBAKER SPECIAL SIX—120 in. wheelbase, Spangler, Engine, 50 H.P., 300 lbs. 6 different bodies, including Duplex-Phaeton, Duplex-Roadster, Coupe, Sedan, and Tourer.

The Ten New Closed Bodies COMPLETELY NEW BODIES—each a masterpiece of modern design, yet distinctive in beautiful line—individual, conservative, impressively rugged, but so tough in its departure from imitation, to be entirely distinctive.

- Three completely new chassis!... 15 completely new bodies!
- Completely new lines!... Marvelous new performance!
- Completely new open-closed car!
- Completely new radiators, new fenders, new lamps, new seating comfort, new finish, new colors in lacquer finish, three improved engines!
- Real halloon tires, not low-pressure cords. Sizes—21 1/2" 5.25" to 20" x 7.50".
- New Studebaker automatic hydraulic 4-wheel brakes—optional.
- New values, never before equalled—even by Studebaker!

The Five New Duplex Bodies

As a type of car originated by Studebaker is called SO ENTIRELY NEW and so different from any other closed car body made before that it is new within the last ten years.

The upper structure is shaped in pressed steel and covered with the finest waterproof fabric. The seat upholstery is made of the most durable material. The standard five-wheel chassis is built in one piece.

The body which wears the airless and practical construction of the open car also provides the complete protection and beauty of the closed car even up to the most convenient of the rubber curtains.

One moment the new Duplex-Phaeton is a beautiful open-top coach and the next it is a snug weather-tight closed car.

Lighter, more powerful, simpler and much stronger two-wheel brakes. An entirely new emergency brake is operated from the instrument board. All bodies have all radiator, better and more moderately compact. Shorter gear and steering knuckles designed for halloon tires.

The Standard Duplex Model

The Special Six and the Six Six Duplex models are in soft white lacquer with dark blue hoods and bodies striped in light blue and ivory. Here, too, the exterior is added with horizontal radiator, grille, and light, narrow wood wheels in contrast with pure black fenders and big black halloon tires.

The body which wears the airless and practical construction of the open car also provides the complete protection and beauty of the closed car even up to the most convenient of the rubber curtains.

THIS IS A STUDEBAKER YEAR

LOCAL PROGRAM
Tonight, the Grand Concert in "Pavane" (Wagner) was given by the Studebaker Orchestra. The program was well received by the audience. The orchestra consisted of 25 members.

SPORTS
The Studebaker football team won their game last night against the local team. The score was 14-7.

LYRIC THEATRE
Miss Alma Wright has been appointed as bookkeeper at Harper's Garage.

PERSONAL
A LETTER BY
A little girl named Martha who lives in "Pavane" (Wagner) was given by the Studebaker Orchestra. She was very young and her letter was very touching.

THE STUDEBAKER
The Studebaker automobile has been recognized by the American people as the most reliable and durable car in the world.
