## MICKIE SAYS—

## KENTUCKY NEWS BRIEFS

The state B. Y. P. U. convention will be held at Pineville April 24-26.

Alfred Halsteed, 14, was struck and killed by lightning at his home in Boone county.

Figures compiled for the new Louisville city directory show the city has a population of 325,000, an increase of over 14,000 in one year.

Two of the alleged bandits who held up a bank in Louisville last week, with a woman confederate, were arrested in St. Louis last week.

Thomas B. Dunn, Somerville attorney, has been named special assistant to the attorney general of the United States at a salary of $5,000 a year.

Theodore Alberta, prominent Lexington business man, last week announced the gift of $100,000 toward the establishment of a modern trade school in Louisville.

Federal seals were placed on the brewing plants of the Maier Brewing Company in Louisville, following the issuance of warrants of beer by prohibition agents.

According to a rumor current in Paris, the L. & N. Railroad Company has decided to place its shops at that municipality on the market. Paris being one of the points.

Stephen Manning, young son of prohibition officer W. C. Manning who shot and mortally killed Jessie Campbell at Maysville on February 16, was acquitted in federal court.

Next Sunday, April 19, was set aside as Patriot's Day, in memory of the battle of Lexington, fought 150 years ago, by Governor Morrow in a proclamation issued Saturday.

Herman Johnson, 16, of Wheelwright, W. Va., was instantly killed when run over by a freight train at Bandtown Junction Saturday night. The boy had gone to sleep on the track.

Apparently shot from ambush, the bodies of Alexander Hamilton, 60, and Alvin Warren, 17, were found lying concealed in a thicket at the head of Stinking creek in Knox county.

Ben Wall, 14 year old Perry county boy, is charged with firing a shotgun at the father of Delphia Profitt, which started a battle between factions resulting in the wounding of several persons.

County Judge Omar Fair, 40, of Liberty, Casey county, shot and seriously wounded D. L. Hurst, a Liberty dentist, last Friday night. The shooting is said to be the result of an old grudge.

Miss Edith M. Cole, of Louisville, was admitted to practice law in federal court at Louisville last week. She is the first Louisville woman to be admitted to practice in the federal court.

Students and faculty of the Ashland senior high school at a meeting last week voted to raise $2,000 with which to keep the institution open another year. The school closed shut-down, due to lack of funds.

Mr. C. C. Dougherty, 57, editor of C. C. Dougherty, of Paris, died in a Lexington hospital last week. He was a native of Paris and began the manufacture of Mr. Dougherty's candy several years ago.

Two Louisville men, both of whom were drowned on account of ill health, ended their lives Sunday by shooting themselves in the head. Edwin N. Burton, 47, real estate, and Henry J. Reitz, 35, barber, were the victims.

Tobacco sales made over loose leaf floors in Kentucky in March amounted to 14,977,840 pounds, for which an average of $12.19 per hundred was paid, for the 1924 crop and $13.81 per hundred for the 1925 crop, according to the March tobacco report of Commissioner of Agriculture Chill Gaines.

Record estimates, based on early full stalks, indicate that Niagara Falls is from 30,000 to 40,000 years old.

## COUNTY AGENT'S DEPT.

BY E. W. ANDERSON

There are many successful methods of feeding baby chicks. If yours has been satisfactory it is the one to use. For those who have not been so successful the following method recommended by the Poultry Department, College of Agriculture, University of Kentucky, may be useful.

There are two generally recommended methods of chick feeding and there are many who use each successfully. These methods differ only as the first week, one method recommends milk and milk the second week and the other grain and milk. Both methods start the second week using both grain and milk and continuing to give all the milk the chicks will consume. Each of these methods will prove satisfactory if the following principles are followed:

1. Don't feed chicks until they are 48 to 72 hours old.

2. Don't overfeed chicks the first few weeks.

3. Feed some form of milk at all times.

4. Don't feed a wet mash.

5. If the chicks must be confined to the house, supply cod-liver oil to the extent of 5 per cent.

A Feeding Schedule.

First Week.—The first feed should consist of sour skimmilk or buttermilk. Dip the beaks of a few into the milk to insure this being the first feed they get. After the first feed, chick grain or baby mash should be given in addition to the milk. If the chicks are to be started on grain, feed the grain sparingly at first—not more than they can eat the amount that the chicks will eat in fifteen minutes. A good plan is to feed the grain on a sheet of paper or cardboard. Remove these after the chicks have had their fill. Any wheat screenings or good commercial chick grain may be used. A homemade mixture of equal parts of cracked corn and wheat screenings with meat scrap also be added to this mixture if desired. Grit and charcoal must be kept before the chicks in hoppers all times.

Second Week.—Continue keeping the milk and milk before the chicks and give chick grain. Feed the grain mixture three times per day. Third Week.—Continue grain as in second week and add a mixture composed of equal parts of ground oats, bran and middlings.

### BURLEY GROWERS READY TO PLANT 1925 CROP

Planting of the burley tobacco crop will be delayed from two to ten days of March by cold weather, according to reports from growers from their tobacco fields in all sections of the state, but with favorable weather, says the month-ly crop report of the Federal Bureau of Crop Estimates, at Washington, D. C.

Growers are not expected to start to plant the crop in any considerable acreage until about April 1, when it is generally planted and by April 15 most farmers have their plants set out in the fields. Some plants are already planted and the weather has been favorable for the growth of the plants. Plant beds are in good condition and the plants are growing rapidly.

Reports indicate that the acreage planted to burley tobacco will be about the same as last year, with a possible increase of 10 per cent. Growers are not expected to plant more than their allotments, which will be about the same as last year.

### JASCHA HEIFETZ, NOTED VIOLINIST AT LEXINGTON

Jascha Heifetz, whom some critics have called the greatest violinist of today, will make his initial appearance in concert in Lexington, when in Woodland Auditorium, Friday evening, April 24, at 8:15 o'clock, as a special attraction arranged by Miss Alice Offutt Goff, director of the Lexington Community Concert Course, for the benefit of the Kentucky Music Week, which will be observed throughout the country during that time.

Jascha Heifetz, the great technical genius of the violin, is a Russian by birth and a Jew. Unequaled among present day violinists" are some of the terse eulogy various of his Russian critics. "There is only one Heifetz" is a society.

The concert is expected to be a sell-out, as the seating capacity of the auditorium is limited to 1,500, but the last concert he will appear in Lexington for several months before leaving for Europe for a tour of concerts.

Reservations should be made at once. A capacity audience is expected to greet Mr. Heifetz.

Tickets are now on sale at $2.50, $2 and $1.50 including war tax.

### CIRCULAR ON TURKEY RAISING

The College of Agriculture at Lexington has recently published a circular about turkey raising. Kentucky ranks fifth among the states in the production of turkeys. Plans to help farmers, breeding and raising the valuable bird are discussed, and many helpful suggestions offered. Persons wishing copies should ask for Circular No. 178, "Turk - Poultry." Another new circular recently issued by the Extension Division deals with Lespedeza Lap clover which because it can be grown on most any kind of soil, is one of the most valuable hay a-1 crops to be grown in the state. Farmers interested in getting more of this farm aid crop or hay crop should investigate the value of Lespedeza. Ask for Circular No. 177, "Lespedeza in Kentucky." Circular No. 176, "Spraying Fruit" is also handy," gives schedules for spraying apples, pears, cherries and plums. Thousands of these circulars are being distributed by the agents. Copies may be obtained through county or home demonstration agents or by writing to the Experiment Station at Lexington.

### NICHOLAS CIRCUIT COURT

H. S. Vice, Arsonee of

Sold in bottles only, wherever soft drinks are dispensed. Keep a case at home, too.
CARLISLE BOTTLING WORKS INCORPORATED

### CARD FROM W. H. BAKER

To the voters of Nicholas county: For quite a while I seriously considered entering the race for sheriff in this county, but have decided for several reasons that I will not enter this race. I am very thankful to my friends (especially my campaign manager) for the generous encouragement shown me in this matter and regret I cannot comply with their wishes at this time. Respectfully, (Sgn.) W. H. Baker 11*

### ADMINISTRATOR'S NOTICE

All persons having claims against the estate of Mrs. Mary W. Estelle, deceased, are notified to file same with the undersigned administrator on or before the 15th day of April, 1925, or this notice will be plead in bar and set aside.
This March 23rd, 1925.
Harry N. Pitts, administrator
