HAMBONE'S MEDITATIONS

Jesse J. Pritchett, who barbinded himself in his store at Richmond, fired about 100 shots and kept officers at bay for several hours, was adjudged of unsound mind and lodged in the Eastern State hospital at Lexington.

Tibbins B. Ebden, 68, widely known in legal circles as a law author, died at his home in Frankfort last Thursday. He was the author of the standard book of reference on Kentucky's pleadings and practice.

John W. Moore, 35, Morgantown timber and business man, was unanimously chosen by the Democratic Executive Committee of the Third district to fill the unexpired term of the late Congressman Robert T. Thomas.

Howard Logsdon, 14, was exonerated at a hearing in Louisville in connection with the shooting of his father, Al Logsdon, 54, a farmer. Logsdon was shot by his son after he had terrorized the family while drunk.

Ed Frazer, former cashier of the Citizens Bank and Trust Co. at Midlothian, who was recently captured in Texas, was indicted on 11 counts charging embezzlement and falsechecking by the Bell county grand jury last week.

Citizens of Bourbon, Franklin and Scott counties were denied an injunction last Friday which would have sought to require the Frankfort and Cincinnati Railway Company to restore a regular passenger service between Frankfort and Paris.

KENTUCKY PRODUCES WORLD'S LARGEST LITTER OF PIGS

The Kentucky College of Agriculture has just received a report on a litter of pigs which weighed 4,223 pounds when 180 days old. The figures sets a new world's record for state litter claims. The litter is owned by Sanders Bros., who reside on a farm near Hopkinsville, Christian county, Ky. The report was made by County Agent C. E. Rice to Gregg Phillips, state commissioner of agriculture.

The litter comprises 12 purebred Poland China, sired by a big-type boar and out of a 420 pound sow.

The new tobacco steaming plant of the D. J. Reynolds Co. at Mayo ville, said to be one of the most modern in the country, was opened at Maysville yesterday.

Irvin Harris, negro, was shot and seriously injured by Vincent Rodell, Lexington fruit merchant, after the negro attacked and cut the latter at his store Saturday morning.

Twenty-two rural routes were established in Kentucky by the post office department during the year ending June 30, 1925, bringing the total number of routes in the state to 926. Only twenty of the 45 states have a larger number of rural mail routes.

The general assembly which will convene in Frankfort in January will be sued to provide a fund of $600 for the Public Minded Institute at Frankfort, Mrs. Lee Curry, of Harrodsburg, of the Kentucky Federation of Women's Clubs announced last week.

George Bowman, 19, was charged with rape and George Gentry, 45, was charged with detaining a woman against her will in indictments returned by the Fayette county grand jury at Winchester last week in connection with an assault at a resort on Man Eelma Lewis, 15.

The first hunting fatality of the season occurred in Jones county on Saturday when John A. Rutasky, 22, of Toledo, Ohio, accidentally shot himself while hunting near Vancleburg.

Nicholas E. Disher, of Louisville, was elected president of the Kentucky Bankers Association at the twenty-third annual meeting of the association held at Louisville last week.

While loading bales of hay on a railroad car at Cynthiana Saturday, Hoyle Keaton received a broken leg and other injuries when a bale fell, knocking him to the ground.

Elvin Wilson, father of Andy Wilson, who was killed when prohibition agents raided his home in Beth county last week, has demanded a coroner's inquest of the killing to be investigated.

James McKenzie, 56, Flemingcounty farmer, has filed suit against W. W. Pierce, sheriff and jailer of Fleming county, for $10,000 damages alleging Pierce abetted the affections of his wife.

Clyde Thornsberry, 22, an electrician employed in dismantling flx tures at the Kentucky State Fair grounds, was electrocuted when to came in contact with a high tension wire Sunday morning.

Wallar Shrout, farmer of the Sharpsburg vicinity, suffered serious injury to his rye while repairing a fence which broke and he fell head first, the blade cutting out when a piece of rock struck him in the left eye.

R. F. Collier, whose washington and wheat elevator burned in Paris several months ago, is planning to rebuild a modern brigh warehouse on the site at once. The foundation for the new structure has already been completed. The new building will be erected on the same site as Tunnel street, near the L. & N. bridge.

CO. AGENT'S DEPT.

BY R. W. ANDERSON

Cost Of Beef Calves Cut By Use Of Night Bull

Buying a good herd bull is the first step in growing better beef calves at much less cost per pound, says the United States Department of Agriculture. In common or nutbred bulls weigh on an average about 125 pounds a head more than calves of the same age sired by the average run of scrub bulls, and they will sell for about 2 cents a pounds more at stockyards and feedlots. Two-purebred steers sired by good purebred bulls weigh on an average about 200 pounds more a head than steers sired by scrub bulls, and sell for considerably more as stockers and feeders.

There is practically no difference in the cost of feed for the two classes of calves up to the yearling age, but from that time on grades develop more capacity and require more feed than scrubs. The difference in cost of feed, however, is a very small item when the values are taken into consideration. The big difference lies in the type of bull used.

Having selected a good bull, he should be kept in the best condition and used in the herd. Not only should he have special feed at times, but he should be kept in a separate paddock or lot and should not have the free run of the herd except during limited seasons of the year. Unless a special lot can be provided, some plan of giving the bull exercise should be devised.

The bull should be well fed during all seasons, but especially so previous to his breeding season. His ration may consist of roughages mainly, but a small quantity of grain also should be used. The exact quantities of feed that should be given depend largely upon the size, age, and individuality of the animal, and the ration must be varied according to requirements. As a general rule excessive quantities of silage should not be fed; to a bull doing heavy service. A safe rule to follow is to feed one-half as much silage as would constitute a full ration for an average cow.

Bulletin On Milk Production

The use of milk as a food has increased from 42 gallons per capita in 1918 to more than 54 gallons in 1924. This is due very largely to an appreciation by the public of the value of milk in their products and a growing conviction that they are produced and kept under sanitary conditions. The greater use of dairy products, the consumption of dairy products, the greater will be the demand with a consequent effect on price. A clean milk supply properly safeguarded until it reaches the consumer is the essential if the use of dairy products is to be increased.

Soon, dairy cattle will be kept in a healthful and proper and later during a portion of the day as well. When kept in the stable, cows took all the dictional attention if clean milk is to be produced.

Most of the dirt that gets into milk comes from the cow's body. Manure or chaff on the hind quarters, or the udders of cows fed dry, are onto the milk pail during milking. Straining removes the coarser portions of the dirt, but it cannot take out the soluble dirt that dissolves. The amount of dirt that falls into the milk solution taints the milk, increases the bacteria and injures the keeping quality.

With the work of keeping the cows clean can be much lessened if the stalls are supplied with plenty of bedding. Plenty of bedding is important at all times while the cows are stabled. It helps to keep the cows clean and more comfortable. When sufficient bedding is used, it tends to work into the gutter and helps keep the cows clean when they lie down.

The amount of dirt and filth that can cling to a cow will be greatly reduced by removing the hair on the flanks and udders. Reducing the amount of filth that sticks to a cow reduces the amount that falls into the milk. With the long hair removed, a cow can be easily cleaned by brushing or wiping with a damp cloth. Clipping the entire body of the cow in the fall makes possible a new growth of hair and the cow does not become itchy. A method also now produces more economical.

Careful attention given to every factor that contributes to cleaner and better milk is important if the demand for dairy products is to be increased. The increased demand for dairy products are to be successful.

EVIDENTLY HAD ENOUGH

OF SUNNY FLORIDA

(Bourbon News)

One day this week a large auto, fully outfitted with camp equipment and occupied by four persons, a man, his wife and two children, passed through Paris. The man drove a Michigan license tag. On the rear of the machine was a large sign placed bearing this inscription:

"KEEP OUT OF FLORIDA AND HELL."

A few days before the appearance of this machine in Paris there passed along Main street another large machine, with a similar outfit, occupied by a family returning from the sunny land of Florida. They, too, had evidently not gotten in on the ground floor of the speculation bubble, or had met with reverses in other ways, as their contempt for Florida and its possibilities in the way of sudden riches was expressed by a sign painted on the windshield, in these words:

TWO PLACES TO AVOID, HELL AND FLORIDA."

China is larger in area than the United States, Mexico and Central America combined.

NAMED AS CROP OBSERVER

Appointment of L. M. Gaffin as crop observer in Nicholas county for the Southern Agricultural Agricultural Foundation Index, is announced from Chicago by F. V. Ewing, director of research for the Foundation and editor of the index. He will form a link in the nation-wide index of county agricultural observers elected because of his financial responsibility, character, civic activities and his ability to observe them and intelligently interpret them.

The Southern Index is compiled from the county weekly reports of 2,650 observers in every section of the country, and this number is being added to steadily. All the shrewdest, most practical thinking, farm-minded men, each chosen because of the opportunities he has to observe the needs of agriculture in his section and for his ability to apply economic principles to current farm problems. As a group, they represent a cross-section of the best brains that are found in the farmer is thinking, and their reports are a composite of the country conditions, as explained by Mr. Ewing. Agricultural leaders find it helpful in helping agriculture help itself.

KY. FEMALE ORPHAN SCHOOL OPENS 77TH YEAR

The enlarged Kentucky Female Orphan School opened at Midway, Ky., opened its seventy-seventh session Tuesday, September 15th, with two hundred young women present.

The school, the oldest of its kind in the United States, was founded three quarters of a century ago, by Dr. John Fox Jackman, assisted by Jane Ware Parrish and a host of the pioneer women interested in giving the Christian church in Kentucky.

The school was incorporated by the State Legislature in 1846 and the first session began October 1849, with a student body of sixteen girls. Since that time it has had more than four thousand young women and for two years of life have been students of the school. It has always gone out into every walk of life, carrying with it a reputation for splendid training and endowed with a spirit of service.

During the last year the trustees have spent $100,000 in adding to the equipment of the school to take care of the growing demand for it. The new school building, costing $200,000 "Carrie Black" is erected and paid for; the new dormitory and dining hall, erected at a cost of $150,000, was opened September 1925, for the reception of the enlarged student body. Last year one hundred forty-five young women were received, were turned away and this year the number has gone beyond the two hundred received and the turning away because of lack of funds to support them. It costs over $200 per year to educate a student, charging only for expenses of operation against them. The school is entirely self full. Every $100,000, the full cost of many of the girls will have to be found self to the endowment fund. The girls are required to pay a matriculation fee of $10 each. Last year their average fee was $7.50. The school is now continuing to provide the entire cost for the education of young women. May, 1926, the increase of the Endowment Fund to $1,000,000 by 1929; and to raise annually the additional amount necessary to keep the education of about two hundred girls.

In October the congregations and Sunday schools of the Brotherhood of the Christian churches will assemble to send a birthday offering to the school to help celebrate the seventy-seventh anniversary.

Mrs. Mary Bennett Mountjoy is the efficient superintendent of the school and her duties are administered by a board of trustees of twenty-one, which business men and women in Kentucky.

SILAGE TO REQUIRE WATER THIS YEAR

As the drouth has dried up the corn much more than usual for the filling time, it is advisable to add water to the silage, when filling the it. Good, head of the department silos, especially those of the Kentucky Experiment Station. A fiber tube was put in two silos when the corn was ensiled at the Experiment Farm.

Probably the best method is to have a hose with two nozzles ready as the silo is filled. One hose should be taken in through the door ensily. It is particularly important that the silage next the walls be moistened. This, however, should be evenly distributed over the whole surface. A common fault is to add too much water than the center.

The purpose of tramping are to crowd the air out, and thereby help to preserve the silage, and to get more silage into the silo. If tramping is done as the silo is filled, there are left which will mould and prohibly waste a big loss of feed.

A good practice, according to Prof. Scott, is to stop the engine and tramp silage when filling is completed, afterward tramp two silages for an hour each day according to conditions, as required. Experience with the Experiment Farm silos, 1924, about the hour of two o'clock, Eastern Standard time, in the upstairs of the building now occupied by T. H. Tuttle Furniture Company, on the second floor thereof, and there sell, the following property, to-wit:

2 Dining tables,
1 Hair cloth,
1 couch bed,
1 manicures,
1 bell,
1 Hair clipper,
1 Hair dryer,
1 Manicure shoes,
1 Foot rest,
1 Stool,
1 Shampoo tank,
1 Shampoo bowl,
1 Manicure table,
1 Chair,
1 Wash bowl, No. 2,
1 Bobbing chair,
1 White towel urns,
1 Electric Heater, No. 22,
1 Pad Cover.

Also other articles by the piece consisting of beds, bedding, kitchen furniture and fixtures, clothing and wearing apparel and many articles of like character, all being the property of Mrs. Carrie Black and Katherine Lewis, and attached in the execution of plaintiff's debt of $150,000, was opened September 1925, for the reception of the enlarged student body. Last year one hundred forty-five young women were received, were turned away and this year the number has gone beyond the two hundred received because of lack of funds to support them. It costs over $200 per year to educate a student, charging only for expenses of operation against them. The school is entirely self full. Every $100,000, the full cost of many of the girls will have to be found self to the endowment fund. The girls are required to pay a matriculation fee of $10 each. Last year their average fee was $7.50. The school is now continuing to provide the entire cost for the education of young women. May, 1926, the increase of the Endowment Fund to $1,000,000 by 1929; and to raise annually the additional amount necessary to keep the education of about two hundred girls.

In October the congregations and Sunday schools of the Brotherhood of the Christian churches will assemble to send a birthday offering to the school to help celebrate the seventy-seventh anniversary.

Mrs. Mary Bennett Mountjoy is the efficient superintendent of the school and her duties are administered by a board of trustees of twenty-one, which business men and women in Kentucky.

PUBLIC SALE

Having decided to move to Ohio, I will sell at public auction on the farm of R. L. Gillispie, on the Pleasant Springs road, 2¼ miles from Carlisle, on

SATURDAY, SEPTEMBER 26

at 10 o'clock a. m., the following described property, to-wit:

1 two-year-old Draft filly
1 Jersey cow, fresh, due to calf in November
1 Jersey heifer
10 tons of hay
Lot of Dixie Corn Geldings
Undivided half of 18 acres of corn in shock

Some farming implements
Some household and kitchen furniture

Other articles too numerous to mention.

Terms made known day of sale.

STANLEY HOOPER

ASSIGNEE'S SALE

NICHOLAS CIRCUIT COURT

Mrs. Katherine Jones Perkins, Plaintiff
Vs: Assignee's Sale.
S. D. Clay, etc. Defendants

By virtue of a judgment and order of sale of the Nicholas Circuit Court, rendered at the May Term, 1925, in the above cause, for settlement of the assignee's sale of S. D. Clay, I will proceed to offer for sale at the Court House door, in Carlisle, Nicholas County, Ky., to the highest bidder, at public auction, on Monday the 28th day of September, 1925, at two o'clock, P. M., or thereabouts, upon a credit of 6 and twelve months, the following described property, to-wit:

Two several tracts of land, located in Nicholas County, Ky., on the Cassiday Creek & Bethel turnpike more particularly described as follows:

1st Tract: "Beginning at a stone corner to W. G. P. Trimble; thence S 78 E 24 poles to a stone corner to said Ledford; thence S 10 1-4 E 49.40 poles to a set stone corner to same; thence S 81 1-2 E 31.24 poles to a stone corner to Lot No. 1; thence N 7 1-4 W 114 poles to a stone pole and corner to Lots No. 2 and 3; thence N 85 1-2 W 42 poles to a stone pile; thence S 4 1-2 W 6 poles; thence S 66 3-4 E 11 4-5 poles to the beginning, containing 32 1-4 A. 2 R."

Being the same land conveyed to S. D. Clay by Commissioner, by deed dated Feb. 12, 1910, of record in Deed B. 18, page 86, Nicholas County Court Clerk's office.

The improvements, consisting of a first-class dwelling house, and other buildings, are located on the First Tract.

Second Tract: "A certain tract or parcel of land in Nicholas County, and presents thereon, lying in Nicholas County, Ky., on the waters of Little Flat Creek, and bounded as follows: Beginning at the mouth of the Cassiday Creek & Bethel turnpike where it leaves the road, a thence S 71-2 W 12 2-3 poles to a stone corner to Lots No. 3 and 4; thence S 9 1-4 E 20.25 poles to a gate post on the west of the road, corner to Lot No. 3; thence S 7 E 18 2-3 poles to a set stone corner to Lot No. 3; thence N 84 1-2 E 71 1-4 poles to a stone corner to Lot No. 1; Thos. Vieve's land; thence N 11 3-4 W 45 poles to a stone corner to Lot No. 1; thence N E 34.64 poles to the center of said turnpike road; thence N 56 W 3 poles to center of same; thence N 20 W 7 poles; thence N 31 W 7 poles; thence N 14 W 21 3-4 poles to center of same; thence N 3 1-4 W 27 2-3 poles to the beginning, containing 6 A. 3 R."

Being same land conveyed to S. D. Clay by Oliver S. Clay, by deed of record in Deed Book B. 22 page 135.

Said sale will be made free of homestead and Dower Right.

Each of said tracts will be offered separately and also as a whole, the best bid, or bids to obtain.

For the purchase price, the purchaser, with good security, must execute bonds to the Plaintiff herein from the day of sale, and having the force and effect of a judgment and a lien to be retained on the land sold to secure same.

Bidders will be prepared to comply promptly with these terms.

R. S. Vice,
Assignee & Special Commissioner
J. B. Ross, Atty. for Plaintiff.

SHERIFF'S SALE

UNDER EXECUTION

By virtue of execution No. 2160 directed to me, which issued from the clerk's office of the Nicholas Circuit Court, on the 19th day of June, against Kate Sapp, I will on Saturday, the 26th day of September, the hours of 1 o'clock p. m. and 2 o'clock p. m. at the Court House Door in Carlisle, Nicholas County, Kentucky offer for sale at public auction to the highest and best bidder the following described property:

The fourth undivided interest in the following tract:

"A certain lot or parcel of ground with all improvements thereon, situate in Nicholas County Ky., and what is known as being the dwelling house in the City of Carlisle, Ky.,

Beginning at the Margin of McCracken or Huff Street at the N. W. Corner of K. Rose's lot; thence with Beatty's Bee Enclosed to his corner in the line of Mrs. Tilden; thence with her line northward with Mrs. Perbacks line, to her parallel to McCracken or Huff street, to a margin a' a passway; thence westward with the margin of said passway to the margin of McCracken and Huff street, thence with the margin of said street to the beginning.

A right of passway as conveyed to W. C. McCracken by Mrs. Thirkle and W. C. McCracken to Permelia McCracken by deed dated April 1, 1916 and recorded in deed book 87 page 206 of the Nicholas County Court Clerk's Office.

The purpose of tramping are to crowd the air out, and thereby help to preserve the silage, and to get more silage into the silo. If tramping is done as the silo is filled, there are left which will mould and prohibly waste a big loss of feed.

A good practice, according to Prof. Scott, is to stop the engine and tramp silage when filling is completed, afterward tramp two silages for an hour each day according to conditions, as required. Experience with the Experiment Farm silos, 1924, about the hour of two o'clock, Eastern Standard time, in the upstairs of the building now occupied by T. H. Tuttle Furniture Company, on the second floor thereof, and there sell, the following property, to-wit:

2 Dining tables,
1 Hair cloth,
1 couch bed,
1 manicures,
1 bell,
1 Hair clipper,
1 Hair dryer,
1 Manicure shoes,
1 Foot rest,
1 Stool,
1 Shampoo tank,
1 Shampoo bowl,
1 Manicure table,
1 Chair,
1 Wash bowl, No. 2,
1 Bobbing chair,
1 White towel urns,
1 Electric Heater, No. 22,
1 Pad Cover.

Also other articles by the piece consisting of beds, bedding, kitchen furniture and fixtures, clothing and wearing apparel and many articles of like character, all being the property of the defendants, Mrs. Carrie Black and Katherine Lewis, and attached in the execution of plaintiff's debt of $150,000, was opened September 1925, for the reception of the enlarged student body. Last year one hundred forty-five young women were received, were turned away and this year the number has gone beyond the two hundred received because of lack of funds to support them. It costs over $200 per year to educate a student, charging only for expenses of operation against them. The school is entirely self full. Mrs. Mary Bennett Mountjoy is the efficient superintendent of the school and her duties are administered by a board of trustees of twenty-one, which business men and women in Kentucky.

5 Years of Wonderful Progress

by American Railroads

A very interesting volume could be written about the reconstruction and rehabilitation of American railroads during the five years since their return from Federal control.

Handling the greatest traffic in their history, under extremely difficult conditions, they have made a record of economy and efficiency that in any time in their history, their achievements constitute a real epoch in railroad progress —the greatest in the history of transportation.

Actions speak louder than words", and this record of railroad achievement is the most effective and convincing refutation of the unfair charges of profiteering and waste, and a fanning of confidence on the part of the people that the provisions of the Transportation Act, afford an excellent working arrangement between the Government and the carriers.

Railroad managements have been encouraged to make their investment, as permitted by law, from earnings of the United States have, during the past five years spent nearly three and a half billion dollars for improvements, more powerful locomotives and roadway improvements, more than two billion dollars of which has been spent for additional equipment.

This progress for your total, has enabled the railroads to handle the enormous traffic of the past few years with a hundred and twenty million fewer freight cars than were required in 1920, and with a smaller number of locomotives than were in service in 1918, despite the fact that the ton miles handled in 1924 were 25 per cent greater than in 1918.

This progress for the railroads has been made possible only by the investment of new capital in railroad securities. Railroad credit must be maintained on a sound basis if railroad progress is to continue.

Railroad Information Committee

PUBLIC SALE OF LAND, STOCK, FARMING IMPLEMENTS, ETC.

For the purpose of settling the estate of the late A. W. Hostetler, I will expose for sale to the highest and best bidder, at the home place of the late A. W. Hostetler, one mile from Carlisle, Ky., on the Carlisle and Sharpsburg Pike, on

Saturday, Oct. 3rd, 1925

at 10 o'clock, A. M, two (2) tracts of land.

TRACT No. 1

First, the Home Place, containing 42 Acres, well improved, two-story dwelling house, tobacco barn, and all other necessary outbuildings. Ten Acres of same is under cultivation, the balance in grass. This farm is well located on a model pike, and is within one mile, as stated, of Carlisle, Churches, Schools, etc. Never failing water.

TRACT No. 2

Second, a tract containing 126 Acres, located on the Whetstone Turnpike, about 1 1-2 miles from the Home School house, on which is a large two-story dwelling, tobacco barns, and all other necessary outbuildings. Fifteen Acres of same is under cultivation, the remainder in grass. All land is tillable, and lays well. Never failing water.

Kash Hostettler resides on the farm first mentioned, and will be glad to show same to prospective purchasers.

E. N. Hostettler resides on the other tract, and will show same to prospective buyers at any time.

Also at the same time, will be publicly offered the following personal property:

2 aged mules; 1 aged horse; Disc Harrow; Mowing Machines; Plows; Wagons; Cart; Buggy; Harness; Hay Rake; Scraper; Blacksmith Tools; Wheat Fan; and other articles too numerous to mention.

TERMS: will be made known on day of sale.

This is an opportunity for some one to get a first-class, convenient home, well located.

KASH HOSTETTLER,
Agent for the Heirs of A. W. Hostetler.

THE CARLISLE MERCURY

ESTABLISHED 1867

VOL. LVIII. CARLISLE, NICHOLAS COUNTY, KENTUCKY, THURSDAY, OCTOBER 1, 1925 NUMBER 40

JUDGES FOR FAIR HERE NEXT WEEK

Specialists From College Of Agriculture To Judge Farm Exhibits

DOG SHOW ON LAST DAY

Everything is in readiness for the Nicholas county agricultural fair, which will open at the Grower's Warehouse on East Main street one week from today and continue for three days. Almost every available space has been taken, and many more merchants will have displays this year.

All exhibits must be entered on next Wednesday, October 7th, and must not be removed until 2 p. m. Saturday.

An added feature of the fair this year will be the livestock department. Due to the lack of space, exhibits of livestock will not be received. Eight premiums are offered in the sheep ring, Southdown, Hampshire, Shropshire, and any breeds being included. In the cattle ring, a premium is offered for the best bull in any of either purebred, Jersey or Holstein. A premium will be awarded in the hog ring to the best Duroc Jersey boar and to the best Poland China boar pig.

The poultry will be handled the same as last year, with premiums for Rhode Island Reds, Barred Rocks, Buff Rocks, White Rocks and other pure bred standard chickens and ducks.

Another added feature which is attracting considerable attention is the dog show which will be held Saturday afternoon. All entries in the dog show must be in by 12:30 on the day of the show.

J. R. Smythe, acting head of the tobacco department of the agricultural experiment station at the University of Kentucky, will judge the tobacco exhibits. Mrs. Ida B. Taylor, county superintendent, will appoint a committee to judge the school exhibits.

$7,000,000 Being Spent On Roads

Most Of Work Under Contract Will Be Finished Before Winter Sets In And State Will Be Clean

A total of 2,330 miles of high type highways will be owned and maintained by the state highway commission before the calendar year has ended, according to a section of the biennial report of the Department of Highways submitted to the state highway commission. The report also submitted a map of the state in the form of a booster edition for the state.

According to the report the state is building and maintaining the greatest network of new roads this year, a million dollars' worth being added each month. Most of the road will be completed before the end of the fiscal year, June 30, 1926, and paid for out of the revenue for the 1926 fiscal year.

In addition the highway construction has constructed, reconstructed or taken over and is maintaining more than 6,000 miles of state highways.

Under the present plan the department will have practically a clean slate on July 1, 1926, and will be ready to start a new two-year program with $15,000,000 which to carry it through.

$184,122 LOST TO STATE IN RULING

State Auditor Shanks has called upon three State departments for $184,122.83, upon request of Circuit Judge Stanley Reed, of Frankfort, who has ruled that a new two-year program with $15,000,000 which to carry it through.

THREE CHILDREN KILLED, FATHER HURT IN WRECK

Three children riding in an automobile with their father were killed, and the father injured, when a car in a few minutes later when the automobile, which was struck by a freight train at Glenore, Gallatin county, near Warsaw, Ky. The dead were Juanita Lyons, 6, Geneva Lyons, 4, and Harry Lyons, 2. Fred Lyons, 33 years old, employe of a mining company in Glenore, was taken to a Covington hospital where it was stated his injury would prove fatal.

The father was taking the children to the home of their mother, a divorcee on the tracks in front of the train when the signal bells in the crossing were ringing, according to witnesses.

A mining company, capitalized at $500,000, has filed articles of incorporation at Frankfort. Its purpose is to engage in mining in silver and it is said ore bearing silver has been found in sufficient quantity to warrant commercial exploitation.

Dry Agents Fear In Slaying Case

Beth County Judge Dismisses Murder Charge When Self Defense Claimed By Prisoner Wilson

Seven Lexington prohibition agents charged with murder as the result of the killing of Alvin Wilson, Beth county farmer, were dismissed at Owingsville before County Judge Hamilton Hogg, Tuesday, Saturday, County Attorney Ben Caudill and Commonwealth Attorney Hogg indicated that the dismissal of the charges was by mutual consent of the matter, as he said relatives of the dead man had told him they said they would go before the next grand jury, September 28, and ask that it be dismissed.

Prohibition Agent Roy Easley was charged with killing Wilson and he fired the shot which killed the Beth county farmer. Agents Lee Allen, 40, of Mill Creek. Easley said he shot Wilson in self defense, and that W. C. Thompson, another prohibition agent, with a high-power rifle, had fired on him only a few inches as he was pointing the gun at Easley.

LARGE "WORM" FOUND DISCARDED ON FARM NEAR TOWN

A copper "worm" about three feet long, the largest ever seen here, was found by Mr. Charles Linville on his farm on the Scrub Grass pike Saturday morning. Mr. Linville notified the Sheriff's office and Deputy Sheriff Barton went out and brought the coil in.

The stilling apparatus has evidently been discarded by a moonshiner, who has gotten "cold feet." It was in a sack, near the road, and officers are of the opinion that it had been thrown from a passing car. No other equipment and no manufacturing liquor was found and no arrests were made.

A complete outfit is corrupted to aide with the "worm" would be of considerable value to the owner.

REV. DARSIE PRESIDENT OF DISCIPLES OF CHRIST

The Rev. Clyde Darsie, of Cynthiana, was elected president of the 1926 convention of the Disciples of Christ, at the session held at Lexington last week. Rev. Hayes Ewing, of Lexington, was the first vice president, and Rev. E. B. Bagby, of Louisville, second vice president. R. W. Trimble, of Mt. Sterling, was elected secretary for the thirty-fourth consecutive year.

Rev. E. B. Bronaugh, of Lancaster, was elected to succeed Rev. Darsie, and Rev. W. J. Stelle-nor, of Lexington, was elected one of the members of the executive committee.

Holderman Lands Big Appointment

Former Superintendent Local Plant Made Assistant General Manager Detroit Street Railway

Charles F. Holderman, formerly of this city, has recently been appointed assistant general manager of the Detroit Street Railway Company. Mr. Holderman was formerly general superintendent of the Carlisle electric light plant, leasing at the time of the plant in its early history. He left here several years ago to go to Detroit to take a position with the Detroit Edison company and by his recent appointment to the higher position in the company is evidence that he has made good in the Detroit field.

"Charlie" will be remembered by Carlisle people as "Happy Hooligan" for the part he played in the "Big Tub Tall" parades, gotten up by the Carlisle merchants for the holiday occasions.

Mrs. Holderman, before her marriage was Miss Mary Mae Miller, field agent of the home economics department of the Kentucky State University, will judge the home economics exhibits. Mrs. Holderman is a graduate of the University of Kentucky, and was formerly connected with the extension department of the college.

Mrs. Ida B. Taylor, county superintendent, will appoint a committee to judge the school exhibits.

$7,000,000 Being Spent On Roads

Most Of Work Under Contract Will Be Finished Before Winter Sets In And State Will Be Clean

A total of 2,330 miles of high type highways will be owned and maintained by the state highway commission before the calendar year has ended, according to a section of the biennial report of the Department of Highways submitted to the state highway commission. The report also submitted a map of the state in the form of a booster edition for the state.

According to the report the state is building and maintaining the greatest network of new roads this year, a million dollars' worth being added each month. Most of the road will be completed before the end of the fiscal year, June 30, 1926, and paid for out of the revenue for the 1926 fiscal year.

In addition the highway construction has constructed, reconstructed or taken over and is maintaining more than 6,000 miles of state highways.

Under the present plan the department will have practically a clean slate on July 1, 1926, and will be ready to start a new two-year program with $15,000,000 which to carry it through.

$184,122 LOST TO STATE IN RULING

State Auditor Shanks has called upon three State departments for $184,122.83, upon request of Circuit Judge Stanley Reed, of Frankfort, who has ruled that a new two-year program with $15,000,000 which to carry it through.

THREE CHILDREN KILLED, FATHER HURT IN WRECK

Three children riding in an automobile with their father were killed, and the father injured, when a car in a few minutes later when the automobile, which was struck by a freight train at Glenore, Gallatin county, near Warsaw, Ky. The dead were Juanita Lyons, 6, Geneva Lyons, 4, and Harry Lyons, 2. Fred Lyons, 33 years old, employe of a mining company in Glenore, was taken to a Covington hospital where it was stated his injury would prove fatal.

TOMATO GROWERS TO HOLD MEETING

Discussion Of Sign-Up For Next Year To Be Held Saturday Afternoon

SEASON ALMOST OVER

The local tomato canning factory will probably close for the season the latter part of this week or early next week, as most growers have finished their deliveries, according to Mr. Walden, manager of the plant. Receipts of tomatoes this week have been very light, the plant being in operation only a part of the time.

Growers who have completed picking and delivering their crop of tomatoes may call at the office for checks in settlement, Mr. Wilden stated. Receipts have been of a fine time of delivery most satisfactory.

A meeting will be held at the Farmers Union warehouse in Carlisle for the purpose of discussing a sign-up for next year's crop. Growers are urged to be present at this meeting, as it is hoped to get a good start for the thirty-fourth consecutive year.

Rev. E. B. Bronaugh, of Lancaster, was elected to succeed Rev. Darsie, and Rev. W. J. Stelle-nor, of Lexington, was elected one of the members of the executive committee.

34 Members Of Submarine Crew

Believed To Have Perished When S-51 Is Struck And Sunk By Steamer Near Boston

24 members of the crew of the U. S. submarine S-51 which was struck and sunk by the steamer, City of Rome, 14 miles east of Block Island, early last Saturday morning, are believed dead. The submarine is resting in 125 feet of water and officials of the navy department refuse it have been fruitless.

According to the report of the state auditor the state received the full amount of the tax, a million dollars, for the month. Most of the road will be completed before the end of the fiscal year, June 30, 1926, and paid for out of the revenue for the 1926 fiscal year.

In addition the highway construction has constructed, reconstructed or taken over and is maintaining more than 6,000 miles of state highways.

Henryville Has Fire Department

Colored Village, Long Without Their Own Fire Department, Organizes Volunteer Company

Henryville, Carlisle's enforcement, which for the past several years has been without adequate fire protection, has organized a volunteer fire company with Jim Bryant as chief of the fire force. The city of Carlisle, through Mayor P. D. Davis, has loaned 450 feet of hose with a reel to the organization, and members of the village have agreed to built a house in which to keep its equipment.

The only water works mains were recently installed in the village, through a fund subscribed by the residents of the village and citizens of Carlisle.

Under an agreement made, the electric power company will take care of ordinary fires in the village, and the fire department will be called only in cases of emergency. The colored organization will assist in emergencies in Carlisle.
