GOOD NEWS

Nine Extra Years of Life

HEALTH is improving—LIFE is lengthening. You and your family have a better chance to live long and happily than people ever had before in the history of the world.

Spending gains have been made in the United States and Canada within the last thirteen years. Stated in an insurance man's language, five years have been added to the average expectation of life.

But more encouraging—in the same period, nearly nine years were added to the life expectation of Maggipolitan Industrial Policyholders—a gain, over the general average, of four extra years.

How was this done?—Largely through the inspiring work of our Metropolitan men and women.

Two Metropolitan Statements which Break all Previous Records

Table with 2 columns: Health and Welfare—1925, Financial—December 31, 1925. Includes statistics on lives saved, policyholders, and financial reserves.
