COVINGTON OFF TACKLE

The football squad of the University of Kentucky resumed practice Wednesday, April 20, after a vacation over the Easter holidays. Coach Gamage plans to meet twice each week with the line candidates, and twice with the backfield men until the first of June.

Next year's Varsity will be extremely light, unless the men take on a great deal of weight over the vacation. The squad out for spring practice averaged slightly under 170 pounds, and for this reason, if none other, the coaching staff has endeavored to speed up things as much as possible.

It is the first time in the history of athletics at the University that spring practice has been conducted on such a large scale, and it is a tribute to the progressive policy of Coach Gamage that the results were so highly satisfactory. Followers of the Wildcats are unanimous in their opinion that next year will see a greatly improved team on the field.

VERMONT'S AWAKE

(Louisville Times)

Vermont comes to Louisville today with a special train bearing the Governor of Vermont and scores of business and civic leaders" to impress Kentuckians to visit the Green Mountain State, and to display as part of the invitation, "in an effective" the attractions of Vermont, agricultural, industrial and scenic."

Vermont is advertising for Kentucky patronage, in Louisville newspapers and through its newest train, with its Governor, quite properly, as its chief representative.

Vermont has considerable scenic attractions. But so also has Kentucky. The major scenic asset of Kentucky is threatened with extinction. Ten years from now Kentucky will be advertising the greatest cataract, except Niagara, east of the Mississippi, situated in a wild mountain gorge only seven or eight hours, by automobile, from Louisville, or it will be silent, and ashamed, about the existence of a fourth-rate electric current factory employing from a dashed and battered area which once was a scene of rare, captivating grandeur, silent and lamenting the folly of the period when many Kentuckians were unawake to the hard cash value of great scenic assets, as magnets for visitors.

"The popularity of existing National and State Parks," says a bulletin of the National Conference on State Parks, "has given the country realization of the immediate importance of a rational conservation of areas typical of the best scenery, in every State."

Kentucky, as a whole, has not, as yet, adequate realization of the value of threatened recreational and revenue-returning assets. The special train, bearing the Governor of Vermont, and Vermont's invitation, should be suggestive to Kentuckians.

2,500 PERSONS VISIT STOCK TRAIN HERE

Great Crowd At Carlisle To Welcome Pure Bred Sire Special Train

125 ATTENDED DINNER

A crowd estimated at more than 2,500 persons visited the Kentucky Bankers Association Pure Bred Sires Special Train here Monday afternoon and most of them took occasion to go through the train and view the fine livestock and exhibits of the University of Kentucky. One of the most interesting exhibits on the train was the dairy of the world's champion ton litter, a Big Type Poland China sow which weighs around 1,200 pounds. The train brought together the largest gathering of farmers seen in Carlisle for many months and created much interest.

Upon the arrival of the train Commissioner of Agriculture Chell Coleman took charge of ceremonies and made a short address. R. W. Scearce, manager of the train, and others made short talks. One of the features of the meeting was the trading of a pure bred high spirited Jersey bull to William Purcell, of the Stony Creek vicinity, for a pure bred bull. The bull was donated by J. M. Howard, of Kenton, and was a fine type.

Following the trading for pure bred live stock donated by local people was the awarding of the following prizes which were made: Hereford heifer from the herd of M. D. Judge, part of the herd of Mrs. Nora B. Judge, to B. T. Conyay; Southdown ewe from the flock of Harry T. Letton, half of the value donated by Mr. Letton, to Walter Hazelrigg; Poland China gilt from the herd of James H. Collins, donated by Forest, Dallell and W. D. Young, to John L. Hunter; silver laced Wyandotte chickens from the flock of G. L. Carter, donated by Blue Grass Produce Company, to Smoot Bros.

Monday night the members of the train party, about twenty-five in number, and a large number of farmers were guests of the Carlisle Chamber of Commerce at a dinner in the banquet hall of the Masonic temple. Sam K. Veach presided at the meeting and introduced Hon. James Sproll, of Louisville, editor of the Southern Agriculturist, who made a short talk and presided as toastmaster. Short talks were made by William Miller, Louisville banker; R. R. Miller, an official of the American Hereford Breeders Association, and J. W. Norwood, editor of the Farmers Home Journal.

Taken as a whole the affair was one of the most successful ever held here. Many of the members of the train party declared, the crowd at Carlisle was the largest that they had met on the trip since it started on its journey a week before. Much of the credit for the success of the meeting here is due I. B. Ross, chairman of the local committee, and Henry M. Potts, member of the Kentucky Bankers Association, through whom arrangements were made. The members of the committee deserve much credit, however.

Levee Is Cut To Save New Orleans

Many Villages and Hundreds of Acres Of Land Flooded To Save Crescent City

Three sections of the Mississippi river levee 15 miles south of New Orleans were dynamited last Friday in order to allow the water to leave the river bed and save New Orleans from being swept away by the river which is higher than ever known. Fifty foot cuts were made in the massive embankments.

At least a score of villages in Louisiana were sacrificed in order to save the Crescent City. The farmlands had been moved out for several days and Friday at noon was set as tre time for cutting the levee.

As the result of the flooding of the villages and farm lands, it was estimated that more than 100,000 persons are homeless and the Red Cross has erected fifty refugee camps.

High officials of the government and state were present when the levee was cut. A commission has been named to fix the damages and pay property owners for losses suffered by reason of the flooding of their property.

FEW DONATIONS

Made For Relief Of Flood Victims In South

Citizens of Nicholas county have so far failed to respond to the appeal made throughout the country by the American Red Cross for funds to aid flood sufferers in the South.

H. R. Ewing, treasurer of the local Red Cross chapter, sent a check for $75, Nicholas county's quota, and The Mercury has received approximately $30. Of this amount $2.50 was contributed by H. M. Taylor, $1 by Tom Clark, colored, $1 by Amelia Hamilton, colored, $5 by Miss Nancy Laughlin, $5 by Mrs. Jimmie Shankland's Class of M. E. Church and the remainder through the sale of tags on the streets Saturday by Miss Mary Bonar and Miss Gladys Sellers.

The especial effort to increase the attendance was made by the Carlisle churches this year, as in previous years past. The Mercury was unable to get the attendance report of the Sunday school throughout the county, but most of them are said to have shown an increase.

The attendance figures here were: Methodist, 228; Christian, 429; Methodist, 228; Baptist, 137; Presbyterian, 98.

TWO GAMES SCHEDULED

Ludlow Team Coming Here Friday And Flemingsburg Monday

The biggest baseball game of the home season will be played Friday afternoon, when Ludlow, coached by our former Supt. Mr. M. Erb Orr comes here for a game. Orr's team has met and defeated the best teams in and around Ludlow, but the Musketeers are determined to send Ludlow home with their scalps on the score. Anybody missing this game will regret it their remaining days.

On Monday, May 9th, Flemingsburg will journey over "No Man's Land" to cross bats with the Musketeers on Jackson Field.

From present indications Flemingsburg will be a hard nut to crack, but Carlisle is the team that can do such thing.

Kryl's Band For Chautauqua Here

Special Children's Program To Be Given. High School Students At Half Price

Ines B. Rose, chairman of the local chautauqua association, Saturday in Jessamine county announced the 1927 Chautauqua giving an outline of the program to be given here during the week of August 8th, which will begin on Thursday, July 7. PROPERTY OWNERS' PETITION IS DENIED

Council Refuses To Rescind Ordinance Requiring Water Tables

JUDGE'S SALARY FIXED

At the regular monthly meeting of the city council Monday night a short session was held, after which the council adjourned until Monday night, May 16, at which time bids for the oiling of the streets of Carlisle will be opened.

An ordinance was adopted fixing the salary of the Police Judge of Carlisle at $20 per month in order to comply with the recent ruling of the Supreme Court. Heretofore the police judge has received his compensation through fees when defendants were fined.

A petition signed by approximately twenty-five property owners on Main street was presented requesting the council to rescind an ordinance passed at the last meeting of the council requiring property owners to construct water-tables and curbings in front of their property. The petition was referred to the street committee and this committee immediately moved that the ordinance be sustained, and that the work be required. Some of the property owners have already constructed the water tables.

At a meeting of the Robertson county board of education at Mt. Olivet Saturday, bids were opened for the construction of the new school building at Mt. Olivet. A total of seven bids were received and the building was voted in January.

The contract calls for a brick building of ten rooms, with large auditorium and gymnasium combined in the basement. Work will be started on the building at once and it will probably be ready for occupancy when school opens in September.

Circuit Court Adjourns On Account Of Illness Of Attorney King

HOPKINS IS CONVICTED

The February term of the Nicholas circuit court opened here Tuesday morning with Judge James C. Deedman presiding. The juries were empaneled and cases assigned for trial.

In his instructions to the grand jury Judge Deedman urged that special attention be given to investigation of violations of the prohibition laws, and suggested that no extended investigation be made of owners of unlicensed dogs at this term of court.

The first case tried on the Commonwealth docket was against Jack Hopkins, charged with striking Charlie Hamm with a deadly weapon with intent to kill. The jury declared Hopkins guilty and fixed his punishment at a fine of $100 and thirty days in jail.

The following juries were empaneled:

Grand Jury—Walter Williams, Walter G. Cook, A. L. Vinson, William Kendall, James G. Allison, Elbridge Miller, O. S. Jacobs, Perry McClanahan, H. Whit Downing, Clyde Sexton, J. W. Eaton, J. B. Linville. Mr. McClanahan was named foreman.

Petit Jury—J. T. Ockerman, 7 C. Anderson, O. B. Young, Henry P. Bower, R. S. Boardman, W. A. Donavon, E. N. Hostettler, M. J. Endicott, R. F. Templeman, George C. Clavell, Dhtzler Alexander, E. G. Metcalfe, Hamer Miller, T. I. Hildreth, R. B. Brierly, E. T. Gaffin, W. C. Crouch, Walls McCowan, Clay Herrin, Oscar Tapp, Henry Fanning, John Bromagen, J. B. McIntire, W. D. Sparks.

Because of the illness of Commonwealth's Attorney T. E. King, and the fact that farmers are very busy, Judge Dedman adjourned court Tuesday night until Monday, May 16, when cases on the criminal docket will be tried.

A special term of court will be held on June 27, 28 and 29, Judge Dedman announced, when cases on the civil docket requiring juries, will be tried.

FREAK BOVINE

Without Tail, Other Deformities, Will Probably Live

A cow belonging to Mack Ritchie, of the Jackstown vicinity, gave birth to a freak calf about ten days ago which has attracted much interest in that locality. One of the principal deformities in the calf is the absence of any semblance of a tail. One of the eyes of the animal is almost twice the normal size, while the other is much small than normal. The calf also has other marked deformities.

In spite of the deformities, the little bovine is thriving and playful and will probably live. It is as healthy as a normal animal and may grow into a good animal despite its present freak characteristics.

HEAVY DAMAGE IS CAUSED BY STORM

Barns Blown Down, Church Unroofed, Trees Uprooted By Wind Friday

BIG FLAG POLE FALLS

During a terrific windstorm which swept this section last Friday afternoon, the steel flag pole in the city school yard was blown down, the roof of the Henryville Methodist church was torn off, a telephone pole in front of the court house fell, narrowly missing an automobile in which two persons were seated, a number of trees in Carlisle were uprooted or the limbs blown off, telephone and electrical light service was crippled and general havoc wrought.

While the wind was of short duration, it had the appearance of a cyclone while it lasted. A heavy rain accompanied the storm and continued throughout the night.

The flagpole in the school yard was about sixty feet high, was constructed of steel and mounted on a concrete base. It was one of the tallest and most substantial poles in this section and was erected during the world war, mostly through contributions of students of the school.

Several large trees in the cemetery were practically ruined. All over town the streets were lined with trees, limbs and debris.

A number of barns and outbuildings throughout the county were unroofed and telephone poles blown down.

The roof on the Carlisle Mill was partly torn away and some bricks were torn out of the wall. A chimney at the home of Boone Fogelo on West Main street was blown off.

A large number of barns were damaged. In the Stony Creek and Blue Licks section four barns were reported blown down or moved from their foundations. Near Blue Licks a tree fell on an unoccupied automobile and crushed it. The driver had been out of the machine only a short time.

Near Headquarters a large stock barn of Andy Butler was completely wrecked. Mr. Butler had a narrow escape from death by falling logs in the barn, where he had taken shelter. Brace wires caught legs and saved his life. In the same vicinity the residence of Fred McDonald was unroofed, W. S. Harlywine's stock barn was unroofed, windows in the home of M. S. Taylor were smashed and a number of fruit trees blown down.

TURNIP GREENS PROFITABLE

R. B. Bullion, living on Dep ter's farm, brought a load of horse wagon load of turnip greens to Hickman Tuesday and shipped them to St. Louis on the market, for them he $1.25 a crate of twenty pounds. There were over one thousand pounds of greens on that one load. Mr. McNeill informs us that he is now shipping 3,000 crates to be cut in the two-acre patch Mr. Bullion has in this year. The greens are cut about twice a week and are little trouble to raise. Mr. Bullion says he will plant a larger amount of turnip seed in the fall as it can be seen that pile is a profitable crop.—Hickman Courier.
