FOR COMMISSIONER OF AGRICULTURE

Elsewhere in this paper will be found the formal announcement of Eugene H. Lillard for Commissioner of Agriculture. Mr. Lillard is perhaps better known as Secretary of the American Saddle Horse Breeders Association, and one of the organizers of the Kentucky Race Horse Live Stock Association, which has done so much for the live stock interests of this State.

TOBACCO ACREAGE CUT

Increasing Demand For Cigarette Leaf Causes Production

Important readjustments of tobacco production to meet changing manufacturing requirements are included in the acreage measure made public by the Department of Agriculture.

As a result of the ever-widening sale of cigarettes and the increasing foreign demand for cigarette leaf, the acreage of bright flue-cured tobacco in 1927 registered an increase of more than 14 per cent of the acreage harvested in 1926, the report says.

"Most other types of tobacco show a decline. Burley, for instance, shows a decrease harvested of 25 per cent compared with 1926; of the dark air-cured types, one-sucker shows a decrease of 45 per cent, Green River 23 per cent, Virginia sun-cured 16 per cent, and Maryland and Ohio export 1 per cent.

ICE MAKES SUMMER COOKING EASY

Let the refrigerator give the cook store a summer vacation, Dr. Mary E. Pennington, household refrigeration expert, urges.

Using an abundance of ice in the preparation of food will eliminate needless drudgery for the housewife.

And ice, generously used in serving food, makes the difference between eating and dining at the home table. Crushed ice, tinkling in tall glasses of cooling drinks, and shaved ice, sparkling about tempting fruit and fish, are wonderful assistants for hot weather fatigue and a spur to appetite.

Ice cream, solid enough, crisp and full of rich fine original flavor, and iced celery, radishes, olives and the like are necessary for granted in more comfortable homes.

Ice cubes everywhere do much good. The morning applesauce, grapefruit and orange juice are more delightful and non-disrupted if they are tepid. Prunes, which should be served cold and unsweetened, have fallen into an undeserved unpopularity because they so often appear stodgy and warm.

Many of the most attractive and healthful summer desserts need ice as near the cook stove. Blueberries, blackberries, and raspberries are delicious when piled into tall glasses, mixed with shaved ice. Grapes, plums and other small fruits are delicious when served iced ice or in ice water, which heightens their flavor to rich perfection.

Among the favorites in refrigerator cookery are ice box cakes, which may be made with any hot sauce, such as butterscotch, chocolate or lemon, or stewed berries. A pudding mold should be lined with split lady fingers, or finger lengths of stale sponge cake or bread. The hot sauce and cake are arranged in alternate layers until the bowl is full. The cake should be compressed by fitting an inverted plate into the bowl, putting a weight on the plate and letting the cake stand in the refrigerator twenty-four hours. Then it may be removed from the mold, sliced and served with whipped cream or custard sauce.

TO "FIRE" FLAPPERS

Dismissal from their positions as teachers will be the penalty imposed upon Lawrence county teachers for drunkenness or for "using pain to excess, especially upon the lips," the county board of education of that county in session at Louisa last week ordered. The board also declared teachers who failed to report the names of parents not sending their children to school will be dismissed.

Liverpool now has the world's largest organ, with 10,976 pipes, played by power from a 25-horse power electric motor.

THE CARLISLE MERCURY

VOLUME LX. ESTABLISHED 1867 CARLISLE NICHOLAS COUNTY, KENTUCKY THURSDAY, AUGUST 4, 1927 PUBLISHED THURSDAYS NUMBER 31

SIX MEN INJURED AT ROCK CRUSHER

Two Seriously Hurt When Bin Collapses at Morefield Thursday Morning

FOUR OTHERS UNHURT

Six men were hurt, two seriously, near Moorefield last Thursday morning when a bin which they were constructing at a rock quarry on the farm of Milford Berry collapsed. Four other men working on the bin escaped.

C. F. Saunders, 72 years old, of Moorefield, and Calvin Clark, negro of Dolhel, were the most seriously injured. Mr. Saunders was caught under a heavy timber and suffered a compound fracture of the right hip and his right leg was injured. Clark suffered internal injuries, his face was cut and bruised and he lost several teeth. Both men were taken to Dr. Joseph's hospital in Lexington after being given treatment at the office of Dr. L. H. Hilbert in Moorefield.

Thomas Baker, of Moorefield, who was in charge of constructing the bin, suffered the fracture of two or three ribs, his face was bruised and cuts about the face. James Smith, negro, of Moorefield, suffered a bruised arm and mashed thumb and George Ledford, negro, of Moorefield, suffered a bruised arm on his arm.

The accident occurred while the men were completing the construction of the bin, which had a capacity of 175 tons of crushed rock. The steel screen, weighing approximately 7,500 pounds, had been placed on top of the thirty foot high structure, and the elevator was being attached. It is supposed the bin was not constructed of timber sufficiently heavy to hold up the weight of the machinery and hoisted, causing many of the heavy supporting timbers to fall. The falling timbers were responsible for most of the injuries.

A hurried call was sent to Carlisle for physicians, and Dr. T. P. Scott, Dr. T. C. F. Reynolds, Dr. C. W. Krah went to the scene and assisted Dr. L. B. Holmes, of Moorefield, in giving first aid. The injured men were taken to the home of Mr. and Mrs. Thomas Vice and later removed to their homes and hospital. Mr. Saunders and Clark, who is in the Lexington hospital, will recover.

The bin was being constructed by the Jessup Construction Company, contractors on the new road being constructed from this city to Moorefield. J. B. Betts, of Nicholasville, general manager of the construction company, was not injured.

CYNTHIANA MAN SLAIN

Argument Over Children Leads to Killing

As the result of an argument over a fight between their children, John Toomey, 40 years old, was stabbed to death by Oliver Lee Hicks, 50, a section hand, at Cynthiana last Thursday afternoon.

The trouble is said to have started when the younger children of the men, who live on opposite sides of Walnut street, engaged in a fight. Older children took up the quarrel and later Toomey and Hicks became involved. Hicks claims that Toomey advanced on him with a large club and would have injured him had he not used his knife. Bystanders are said to have told officers Toomey was unarmed and that the attack was unwarranted.

MRS. REES DIES

Wife of Judge of Court of Appeals Expires After Operation

Mrs. Elizabeth Barlour Rees, 37 years old, wife of Judge William H. Rees, of the Court of Appeals, died at the Hayswood hospital in Maysville Monday morning following an operation for appendicitis. She had been ill for ten days and was believed to be recovering when she took a turn for the worse Monday and died within a few hours.

Mrs. Rees was a life-long resident of Maysville until a year ago when she moved to Frankfort with her husband following his appointment as Judge of the Court of Appeals. Funeral and burial took place at Maysville Wednesday afternoon.

GUARD TO LEAVE MONDAY

Local Organization To Undergo Fifteen Days Training at Camp

The three officers and approximately forty-five members of Howitzer Company, 149th Infantry, will leave here on the early morning train Monday morning for Camp Knox for the annual fifteen days training period. The local organization will be given a special car and baggage car here and this will be attached to a special train of troops which will leave Lexington about 6 o'clock Monday morning, arriving in Camp Knox about 3 o'clock in the afternoon.

The local organization will return to Carlisle on Monday, August 22, leaving Camp Knox at 7 o'clock and arriving here by bus in the middle of the afternoon.

A large number of the members who go this year will be veterans of the enlistment of more than half of the members having enlisted in April and the vacancies have been filled mainly by new members.

Coolidge Not to Be Candidate

"I Do Not Choose to Run For President Now," Cal Tells Newspaper Men

President Coolidge Tuesday issued the following formal statement that "I do not choose to run for President in 1928," following the close association by complete surprise. This typewritten announcement was handed to newspaper men by President Coolidge and a faint smile lighted his face as he watched the astounded group that there was no comment.

The fourth anniversary of his taking the oath of office upon the death of Warren G. Harding was also selected by the President for making the announcement, which seemed to have lighted the fires of the 1928 political campaign.

William M. Butler, personal political manager for Mr. Coolidge in the pre-convention campaign of 1924 declared: "I am convinced he will not run if nominated."

AUTO TAGS SAME

The National Colortype Company, of Pelleuu, last week was awarded the contract for furnishing the 1928 automobile license plates for Kentucky for 1928. The state purchasing commission received 270,000 sets of license plates and 21,000 pairs of truck plates. The 1928 plates will contain white numbers on green backgrounds. They will also carry the name of the county in which the car is registered, the same as the present plates.

Morgan's Men to Hold Reunion

Annual Reunion to be Held at Hotel In Lexington Tuesday

The Morgan's Men Association will hold the twenty-fifth annual reunion of the survivors of the old 2nd Kentucky, which followed General John Hunt Morgan in his daring raids, at the Lafayette hotel in Lexington next Tuesday, August 9, and if the veterans do not change their mind will continue on all the afternoon of the following day. Notices have been sent out by Secretary Treasurer Secretary Frank C. Taylor and L. B. Shouse, president and manager of the local company, has made a special rate for veterans at the hotel.

Elley Blackburn, Georgetown, president of the association, said that all sons and daughters of Confederates and all other friends of the Confederate veterans would be welcome at the annual reunion, which will begin at 10 o'clock Tuesday morning. Capt. Horace M. Taylor, Carlisle, for several years ago was elected secretary for life, died on July 5. Mr. Taylor had never missed a reunion since the organization was formed.

UNGRATEFUL MAN

A man giving the name of L. B. Hallandsship, who says he is from a few weeks ago in a destitute condition, is now repairing shop. Mr. Tyree left the man in charge of his business while he was away on his vacation. When he returned Saturday he found the man had left and that nearly all of the leather stock and tools in his shop were missing. Police in Kentucky have been asked to watch for him.

SITE IS CLEARED FOR CELEBRATION

Thirty Volunteers Arrange For Event at Blue Licks On August 19

OPEN BUFFALO TRAIL

Representative William J. Curtis, of Robertson county, member of the Blue Licks Battle Field Memorial Commission, and about thirty volunteer workers from Nicholas, Robertson and Fleming counties met at Blue Licks Tuesday and spent the day in cleaning up the grounds and preparing for the celebration to be held on the old battlefield on Friday, August 19 in celebration of the one hundred and forty-fifth anniversary of the battle.

The grounds around the proposed sight for the monument to be erected to the memory of the pioneers who lost their lives in the battle with Indians, was cleared by Mr. Curtis and his fellow-workers. Mr. Curtis stated that the old buffalo trail leading from the Maysville and Lexington road to the site of the monument will be cleared so that automobiles may go over this road on the day of the celebration if the crowd expected to attend, desires.

The celebration will be held on the site of the proposed memorial, and Judge Samuel E. Wilson, of Lexington, chairman of the commission appointed by Governor Fields to erect the monument, has extended an invitation to all Kentuckians to attend. Governor Fields, Judge Wilson and other distinguished Kentuckians will be present and will make addresses. A band will furnish music throughout the day and the event promises to be one of the largest in the history of Nicholas county.

Announce Change In Mail Schedule

Change in Time of Trains Causes Rural Carriers to Leave Office Here Two Hours Later

The new train schedule, which went into effect Sunday, is the most extensive change in train schedules here in years, giving Carlisle two more trains on Sunday.

The new schedule has caused considerable delay to members on the present schedule here. Although the publisher of one morning daily newspaper with a large circulation in the county has made arrangements to send the papers here by bus instead of by train, the Rural Free Delivery carriers will not leave the office until after the arrival of the morning train from Paris at 10:33, and the consequent delay in mailing will not leave the postoffice until 11 o'clock, two and one-half hours later than under the old schedule.

The carriers will return too late for the mail gathered by them to be dispatched on the afternoon trains, which leave here at 2:45 instead of 5:40 under the old schedule.

The change in schedule will give Carlisle an extra city delivery in the residential section. The carriers will leave the office at 8 a. m. instead of 9:30 and will make another delivery at 2 p. m.

INJURIES PROVE FATAL

Bourbon Farmer Never Recovers From Injuries in Fall

John Crittenden Bannister, 76 years old, died last Thursday at the home of his sister-in-law, Mrs. Rachel Bannister, near Little Rock, Mr. Bannister fell from a horse a few weeks ago and never recovered from the effects of the fall. He was born and reared in Nicholas county, and is survived by a half brother, John M. Hall, of near North Middletown. He was never married.

Funeral services were held at the grave in the Carlisle cemetery Saturday afternoon at 2:30 o'clock conducted by the Rev. Frank M. Tinder, of North Middletown. Mr. Bannister was well known in this county and had many friends.

Miss Otis Grammer, 28 years old, who was sent to the state reformatory from Harlan county to serve a life sentence for murder, escaped from the prison while returning from a picture show late Saturday night.

Moorefield Store Is Burglarized

Thief Obtains Small Sum of Money And Few Articles. Automobile Is Same Community Stolen

An unknown thief or thieves entered the Moorefield Mercantile Company store at Moorefield last Friday night and stole between five and eight dollars in cash left in the cash drawer for change, and some candy, chewing gum and tobacco from the shelves. Nothing else of value was missed from the store, L. B. Vice, manager, said.

Entrance to the store was gained by smashing a window in the rear of the store.

The same night a Ford touring car belonging to Miss Lettie Vice, of near Moorefield, was stolen from her garage. It is thought that the thieves made their escape in the stolen automobile.

Miss Vice's automobile was stolen about a year ago but was recovered.

Three-Year-Old Child is Drowned

Little Son of Mr. and Mrs. Charles Spears Wanders From Home in Paris and Falls in Creek

Woodford Spears, three-year old son of Mr. and Mrs. Charles S. Spears, both of one of the most prominent families in Central Kentucky, will be buried at the home near the Spears residence in Paris shortly after 2 o'clock Sunday afternoon. The child had been playing around the premises of Mr. Spears home after dinner and when the father, Charles Spears, left the home the child is thought to have wandered from the yard and crossed the street to the boat landing owned by Miss Maggie Goodall.

Jimmie Caldwell, little son of Mr. and Mrs. James Caldwell, saw the child slip from the water and cried for help. The parents and neighbors rushed to the scene and took the little body, which was resuscitated after much work by the physicians. Frantic efforts were made for more than two hours to resuscitate the child. The little boy was the only child of Mr. and Mrs. Spears, and was the second person drowned in Stoner creek during the past week.

40 DROWNED IN LAKE.

Victims, Mostly Women and Children, in Boat Near Chicago

Approximately forty persons, mostly women and children, out for a day's outing on the swelkering heat of Chicago, were drowned in Lake Michigan, a few miles south of the "Favorite," a small excursion boat, capsized in rolls of heavy waves in a sudden squall.

Terrified by the storm, which came up in fifteen minutes and passed in a few seconds, the eighty passengers on the boat rushed to one side and in an instant were plunged into the water with rough breakers tossing them helplessly about.

STUDY OF QUAIL ENEMIES

Attention to the food supply and nesting cover of quail and to controlling the natural enemies of these birds will result in better development of quail-increases, according to the Biological Survey of the United States Department of Agriculture, which is participating in a co-operative quail investigation in northern Florida and southern Georgia. Destruction caused by wind, rain and fire can not be controlled, but animal enemies may be kept in check. The investigation has shown that among natural enemies that eat quail eggs or prey on the nestings, the greatest destruction is wrought by skunks, colored rats, and snakes, although opossums, raccoons, weasels, cats, hawks, owls, and crows also cause some losses. The fur bearers have been best controlled by trapping and by protection rats by poisoning. Snakes depend on cotton rats for food as well as on other small rodents, so that if the numbers of the cotton rats are reduced, the snakes may well known in this country and had many friends.

The Confederate half-dollar is one of the world's rarest coins.

POOL MEMBERS TO RECEIVE $800,000

Checks For Deductions For Receiving Plants Mailed This Week

TO ISSUE STOCK SOON

Checks for approximately $800,000 for interest on the amounts deducted from their tobacco crops to pay for the receiving plant property of the Burley Tobacco Growers' Cooperative Association are being mailed this week, Secretary and Treasurer D. F. Anderson, of the Association, announced Saturday.

In cases in which the participation certificates of the growers have been assigned to banks and other agencies are unsatisfied, and there are no other assignments or liens on record against the growers, these checks, payable to the growers, are being mailed to the banks holding the unsatisfied assignments.

Mr. Anderson said that checks are being sent to the growers only on those accounts which are shown by the records to be free of assignments, attachments, mortgages or landlord or other liens. In cases in which there are such liens and assignment, either to a bank or an individual, the checks will be held pending final decision of the Kentucky court of appeals.

On February 1 the Association will issue stock, which stock is to be issued to the growers as soon as possible, Mr. Anderson said.

Kentucky Sixth In Road Systems

State Placed Eleventh In Surfaced Mileage of United States, Bureau of Public Roads Announces

Kentucky now ranks sixth in the State road system and eleventh in the surfaced mileage of the nation, the Bureau of Public Roads at Washington reports.

The Department in giving out the figures says that 10,146 miles are surfaced during 1926, of which 13, 000 were former earth roads, 1,000 were old surface roads rebuilt.

Kentucky has 9,646 miles of roads, under the State Highway system, and 4,192 miles have been surfaced. The state ranks sixth in the nation with its state road system, and eleventh in surfaced roads.

Texas leads in the road system with 18,728 miles while New York has the surfaced list with 9,853 miles.

The report gives the total state maintained system of roads for the nation as 287,928 miles, with 163, 000 miles surfaced.

The report shows that the total mileage of surfaced roads in the highways increased by 18,205 miles during the year, 28,486 miles of the systems are graded and drained.

ONE CAR FOR FIVE PEOPLE

There is in the United States now about one automobile for every five people. As the average family has four to five people, there comes near to being an average of one car per family. A large part of the families of course have no car, and the average is made up by those who have several. But the time is coming when most families will be provided with this means of personal comfort.

In the rest of the world, there is only one car for each 68 people. This shows what an astonishing advance in prosperity and welfare has been made in the United States. We have gone far ahead of the rest of the world.

The wonderful resources of the United States are not the only or even the principal cause of this prosperity. Probably popular education has helped more than any one thing since it has made the average person able to work efficiently and successfully.

The five year old son of Mr. and Mrs. Marvin Gill, of Providence, Webster county, was burned to death Saturday when fire destroyed the Gill here e.

Will Enlarge Dix River Dam

Largest Rock Filled Dam in World To Be Made Even Larger By System of Gates

Dix river dam, the largest rock-filled dam in the world, impounding a lake 25 miles long and 80 to 250 feet deep, which leaves here at 6:45 each morning is to be made larger by a system of steel gates over the dam's spillway which will raise the level of Herrington lake 10 feet higher and increase enormously the volume of water in the lake, according to plans of the Kentucky Hydro-Electric Company, announced Saturday.

The new steel gates will raise the level of the lake to 760 feet above sea level and extend the upper end of the lake to Deer Ford, four miles from Lancaster—a point 36 miles from the dam.

Engineers estimate that the increased volume of water impounded will operate the Dix dam power plant 20 days before the water drops to its present average level. The plant now is generating 30,000 horsepower.

HAVE 66 FALL RACE DAYS

Kentucky will have sixty-six fall racing days, the Kentucky Racing Commission decided at its meeting at Latonia Saturday.

The programme will open at Dade Park, Cynthiana and Latonia September 22. Legion November 26. The Latonia track was allotted twenty-nine days, the longest of the fall meetings.

The programme as outlined will be: Dade Park, September 3-17, thirteen days; Churchill Downs, September 24 to October 8, thirteen days; Latonia, October 11 to November 12, twenty-nine days; Lexington, November 15 to November 26, eleven days.

BALLOTS REPRINTED

Ruling of Attorney General Causes Double Work Here

The ruling of Attorney General Daugherty given after the withdrawal of several candidates of both parties for State offices, and requiring that candidates be given their proper places on the ballot, caused The Mercury, with many other newspaper and printing plants throughout the state, to have to print the ballots over. This, of course, necessitated no little amount of work, but we were able to deliver the ballots to County Clerk Woodfolk in time.

No one, apparently, understands the state primary law. In one section the law states that the ballots must be delivered to the County Clerk thirty days before the election, and in another section it states the Secretary of State must certify the names to go on the ballots fifteen days before the election.

Bid For Road In Nicholas Opened

Highway Commission Will Probably Award Contract for Construction Of Headquarters Road Soon

Bids for contracts calling for the construction of 93 miles of road, one bridge and the delivery of crushed stone on 20 miles of highway were opened by the State Highway Department at its meeting at Frankfort last Friday.

The commission will probably award the contracts at their first meeting in August. The projects embrace 13 counties and call for 70.3 miles of surfacing and 22.9 miles of grade and drain roads.

The construction of the Carlisle and Cynthiana road from the intersection of the Maysville and Lexington road to the Bourbon county line, a distance of 6.2 miles, is included in the bids opened. Other counties in which bids were opened for work were Boyle, Franklin, Gallatin, Grayson, Magoffin, Johnson, Mason, Russell, Warren and Whitley.

SEVEN FIREMEN HURT

Seven firemen were injured Sunday in fighting flames which destroyed the Kennedy-Shrader Motor Company garage at Hopkinsville, Kentucky, causing damage estimated at about $100,000.

Collapse of the roof of the building was responsible for the injury of the firemen, while four others were hurt by falling bricks and timbers. Explosion of tanks containing gasoline caused the fire, which destroyed 150 automobiles.

Nicholas county has but one candidate for state office, E. R. Kendall, who seeks the Republican nomination for Clerk of the Court of Appeals. The staff is an excellent one and will be behind him and roll up a record-breaking majority.

NEGRO HELD IN PARIS

Charged With Indecent Language to White Girl

John Welch, negro, of Indianapolis, Indiana, is in jail in Paris on a charge of using indecent language to a white girl against her will. He was held under $2,000 bond, which he failed to furnish.

According to the story told police the girl said her 7- year old sister were returning from a grocery and were followed by the negro for several blocks. They had reached an alley on Eighth street when the negro is alleged to have made improper proposals. About this time some one passed and the negro fled. The girl notified officers and the negro was taken into custody.

RAINS BENEFICIAL

The rains which fell throughout the county during the week end were of great benefit to growing crops and came at a time when they were badly needed.

In some sections of the county the corn crop looks good while in other a very poor prospect is indicated. All of the tobacco is late and very little home grown corn has been brought to market. Tobacco is unusually late, and in most sections hardly flowers the ground. While the acreage is considerably reduced in this county, due to the inability of farmers to get out their crops, with seasonable weather and a late fall an almost average crop may be produced in Nicholas. some farmers say.

BITTER PRIMARIES TO END SATURDAY

Democrats and Republicans Expected to Poll Heavy Votes Here

ALL ARE CONFIDENT

Saturday will bring to a close one of the most bitter primary election campaigns in the history of the state, and a tremendous vote throughout the state is forecast, both in the Republican and Democratic contests.

In both Democratic and Republican contests the bitterness has centered around the candidates for Governor. Former Governor J. C. W. Beckham has been assailed by Mr. Crowe, Governors Fields and the Lexington Herald, while the Beckham forces have charged Mr. Crowe with being the candidate of the Kentucky Jockey Club.

In the Republican contests for the nomination for Governor, the attacks have been equally as bitter as in the Democratic party, in every experience for the Republicans, who usually agree their business through the convention system.

The pari-mutuels have been made the dominant issue in the contests, Robert T. Crowe, Democrat, and Judge Flem D. Sampson, Republican, being favored by the racing interests, with J. C. W. Beckham and Robert H. Lucas, Republican, announced as favoring a repeal of the law.

While lively campaigns have been staged in other races for state offices, the contests for Governor have overshadowed the others.

In Nicholas county each candidate has a loyal organization. Dr. R. P. Reynolds has managed the campaign for Senator Beckham while Tax Commissioner Jim Will Mertin has managed the Crowe campaign. Both Mr. Beckham and Governor Fields, who is supporting Mr. Crowe on the stump throughout the state, have strong following in the county and it would be difficult to forecast the result in the county.

Both W. H. Frey, manager of the campaign of Mr. Sampson, and H. B. Bryson, Lucas campaign manager, are claiming the county for their candidates, and the
