A CORRECTION

Never Intention To Open County Schools Until 29th

It was stated in last week's Mercury that the opening of the county schools, set for August 22, had been postponed until August 29th.

Mrs. Eda S. Taylor, county superintendent, states that there has been no intention of opening the schools until August 29. The Mercury representative understood from the county health officer that the opening had been postponed to that date, on account of the prevalence of infantile paralysis in this county.

Mrs. Taylor was out of the county last week and knew nothing of the publication of the article until her return.

TOMATO CANNING FACTORY OPENS

Limited Amount of Tomatoes Being Marketed—Good Crop Indicated

MANY IMPROVEMENTS

The Carlisle tomato canning plant, operated by the Kentucky Canning Company, opened for the season last Thursday and has been in operation a part of the time since. It is expected that the tomato crop will ripen and be marketed rapidly enough to keep the plant operating on a full time schedule within a week or ten days.

The tomato crop, like all other crops, is extremely late this year. The cold, rainy spring prevented the plants from growing in the beds, and after they were set out the unfavorable weather retarded their growth.

Approximately 10% acres have been contracted for this season. The crop is [illegible] and promises to be [illegible].

A number of improvements have been made at the factory for the season. A rubber belt has been laid on the packing room, and the packing table is now [illegible]. Other sanitary improvements have been made.

C. M. Lambert will again be general manager of the plant. Hardy Myers will be in charge of the packing room, while O. B. Wilson will have charge of the clerical work.

The canning plant will pack Nos. 2 cans of tomatoes this season. This is one size smaller than the cans packed last year. The smaller size can will provide employment for more people.

$1 BILL CHANGED.

Printing of Uncle Sam's new $1 bill, two-thirds the size of the present one, probably will start Nov. 1.

It is expected the new bill will be put in circulation in February.

The Treasury Department established the so-sized currency several months ago. Last year the bureau turned out 4,851,355,000 bills of dollar denomination. The novelty of the new-sized bills is expected to increase the demand to 600,000,000 a year.

The new bills will bear the portrait of George Washington, with the numbers "1" in the top corners and the word "one" engraved on the left-hand side.

FORMER OFFICER TAKEN

Jesse L. Lewis, former County Attorney of Union county, and former Master Commissioner, who disappeared from Morganfield more than two years ago, was arrested at Toledo, Ohio, last week and returned to the Union county to face two charges of embezzlement. J. S. Arnett, 48 years old, of Farmers, Rowan county, was arrested and lodged in jail without bond at Owingsville last week, charged with the murder of Dade Gullett, 19, also of Farmers. Gullett and Arnold Igho had placed a fish net in Licking river and when they returned to collect the catch found that it had been robbed. They rowed along the stream a short distance and saw a man in the bushes. Gullett started after him and was shot and killed. Arnett, it is charged, was the murderer.

Kentucky Crops Show Falling Off

Corn, Tobacco, Wheat, Oats, Rye, And Other Products Will Be Less Than Last Year

Decreased estimates of Kentucky's crops of corn, tobacco, wheat, oats, rye, barley, hay, potatoes, sweet potatoes, apples and peaches are announced for 1927, just as an increase in production of tame hay, are the features of the August crop report for Kentucky, issued by the U. S. Division of Crop and Livestock Estimates. These forecast estimates are based on conditions as of August 1. Tobacco in Kentucky will be 7 percent less, or decrease from 1926, not only because of decreased acreage this year, particularly in the dark districts, but also because of late setting and subnormal growth of a considerable part of the crop, the probable production of all types in Kentucky this season being forecast at 302,202,000 lbs., compared to an early forecast July 1 of 315,000,000 lbs., and 368,000 lbs. as a tentatively revised estimate of all types produced in this state last year, and 418,492,000 lbs. average annual production of all years 1922-1926.

Howard Unthank Arrested Again

Son of Dry Chief Nabbed on Liquor Charge and Peace Warrant At Lexington

Howard Unthank, son of Ben F. Unthank, deputy prohibition administrator for Eastern Kentucky, has run afoul of the law again. He was arrested on the federal circuit court on a charge of transporting whiskey, the dry chief's son being also arrested at his home in Lexington by Flint Polce. Judge Stanley Marshal, on a federal charge for the same offense.

In addition to the federal and state charges now against young Unthank, he was also arrested Monday on a peace warrant sworn out by James Stewart, chief of the Lexington police patrol, because of Unthank's alleged threat to "kill county patrolmen on sight."

Stewart declared he was formerly unofficially connected with the prohibition forces under his father, was arrested July 10 by county patrolmen when the officers say they caught him transporting 45 gallons of moonshine liquor.

OCTOBER 6, 7, 8 DATES FOR FAIR

Big Agricultural Event To Be Held in Growers Warehouse Next Month

GOOD PREMIUM LIST

The copy for the catalogue of the agricultural fair to be held here on October 6, 7 and 8, has practically been compiled and will be in the hands of the printer within a few days.

Final arrangements are being made for the fair, which will be held in the Growers Warehouse on East Main street. The premium list will be about the same as last year, and competent judges have been selected to determine the winners in all departments.

While the fruit department will probably not be as large this fall as in former years because of the fruit shortage, more room will be laid on livestock, field crops and poultry.

The committee in charge of arrangements has been at work for several weeks and the fair this year promises to be one of the most successful ever held. County Agricultural Agent C. B. Elliott will be general superintendent of the fair.

For the past few years city tickets have as a rule been elected without opposition, but from rumors current during the past few weeks a considerable fight will be waged this fall.

Before Attorney Harvey Parker, Jr., who represents Lewis Bevins, the admitted the allegations contained in the petition to be true, and further stated that attached to her husband's home attired in a one-piece garment, having somehow lost the rest of her clothes.

AH CROPS BACKWARD

Little If Any Tobacco Housed Corn Crop Good—No Fruit

Today ushers in September, the first of the autumn months, and the season, in normal years, when most of the crops have been harvested, the tobacco crop, which is usually cut and housed by the first of September, is practically still in the field in Nicholas county, and hundreds of acres will not be ripe enough to cut for two weeks or more yet. In some sections tobacco hardly cut the ground and will probably never be large enough to cut.

The corn crop, while late, will be of good quality, reports from throughout the county indicate, but promising, and if killing frosts occur during this month the production will be one of the shortest in years.
