BURNS SELF TO DEATH

One who felt wired to a small pile of straw and the lower part of his body burned severely, the body of Aubrey Lansauer, 35 years of age, was found in a park at Spartanburg, S. C., last week. Evidence showed that the man had tied himself to the tree after building the funeral pyre, attempting to keep his knees and applying a torch.

Overdoing?

McGHEE lives a heavy burden on his body now. The elimination organs, especially the kidneys, are apt to become sluggish. Retention of excess acid and other poisonous materials often give rise to a dull, laggard feeling and headache. This is the result of the functioning organs being shown by burning or acrid smelling of excretions. More and more people are learning to assist their labor by the occasional use of Doan's Pills—a stimulant diuretic. Ask your druggist.

A good cold weather starter now more dependable than ever

Probably no single feature of Dodge Brothers Motor Car has been more widely talked about and commended than the power and responsiveness of the starter.

There are now no moving starter parts when the car is in motion—no starter chain—no roller-on wear. The new starter is even more DEPENDABLE than the old, and far simpler and more compact in construction.

Many other major improvements have been added during the past twelve months, all vitally affecting performance and increasing value far beyond the apparent increase of current Dodge Brothers prices.
