**Start The Boy Right**

Life Insurance is of especial value to young men because it teaches them to save systematically. You want your boy to learn early in life the importance of thrift and to form the habit of saving. No better way of inducing regular saving has ever been devised than that which insurance provides. At the same time it helps a young man to avoid the dangers of speculation and unwise investment. Money invested in a life insurance policy is absolutely safe and there is none better than the Massachusetts.
