

3 DIGS 8,200 GRAVES, RETURNS

After having dug 8,200 graves in forty years, William Glasser, of Warrington, Ireland, has just retired to a quiet life. During his years in the cemetery, he had many experiences, one being that remaining locked over night in the tomb of the late Lord Warrington under the Warrington Parish Church. He was placed in the tomb as a guard, and was supplied with a large quantity of food and tobacco, a quart of ale, a child's new white dress, five ounces of coffee, and a supply of matches. "I was quite content," said Glasser, "and I had an occasional smoke."

Are You "Toxic"?

It will, then, be to your advantage to know the importance of Good Medication.

Victims of a retention of the blood system of this toxic condition are a dull, painful feeling, dizziness, headache, and sometimes, loss of appetite and nervousness. That the kidneys are not functioning as they should is often shown by scanty or burning passages of secretion. Many remedies have been devised for this condition. There are, however, one or two that are always effective. Ask your druggist.

How Doctors Treat Colds and the Flu

"To break up a cold overnight or to clear a cold or grippe from the throat or sinusitis, physicians and druggists use one remedy—Vitamin C. The purified and refined vitamin preparation is taken in the form of a small, round, white tablet with a heavy white coating. It is called 'Vitamin C' because it is the active principle of the Vitamin C which is found in fresh fruits and green leafy vegetables. It is the active principle of the Vitamin C which is found in fresh fruits and green leafy vegetables. It is the active principle of the Vitamin C which is found in fresh fruits and green leafy vegetables."
